Revisualizing Boundaries Vol 3 A Plurilingual Ethos:

Reconceptualizing Connections between Language, Literacy and Learning Sangeeta Bagga-Gupta, Anne Golden, Lars Holm, Helle Pia Laursen, Anne Pitkänen-Huhta, 2020-01-11 This edited volume unpacks the familiar concepts of language literacy and learning and promotes dialogue and bridge building within and across these concepts Its specific interest lies in bridging the gap between Literacy Studies or New Literacy Studies on the one hand and SLA and scholarship in learning in multilingual contexts on the other The chapters in the volume center stage empirical analysis and each addresses gaps in the scholarship between the two domains The volume addresses the need to engage with the concepts categorizations and boundaries that pertain to language literacy and learning This need is especially felt in our globalized society which is characterized by constant fast and unpredictable mobility of people goods ideas and values The editors of this volume are founding members of the Nordic Network LLL Language Literacy and Learning They have initiated a string of workshops and have discussed this theme at Nordic meetings and at symposia at international conferences

Verbal Communication

Andrea Rocci, Louis de Saussure, 2016-03-07 Common sense tells us that verbal communication should be a central concern both for the study of communication and for the study of language Language is the most pervasive means of communication in human societies especially if we consider the huge gamut of communication phenomena where spoken and written language combines with other modalities such as gestures or pictures Most communication researchers have to deal with issues of language use in their work Classic methods in communication research from content analysis to interviews and questionnaires not to mention the obvious cases of rhetorical analysis and discourse analysis presuppose the understanding of the meaning of spontaneous or elicited verbal productions Despite its pervasiveness verbal communication does not currently define one cohesive and distinct subfield within the communication discipline The Handbook of Verbal Communication seeks to address this gap In doing so it draws not only on the communication discipline but also on the rich interdisciplinary research on language and communication that developed over the last fifty years as linguistics interacted with the social sciences and the cognitive sciences The interaction of linguistic research with the social sciences has produced a plethora of approaches to the study of meanings in social context from conversation analysis to critical discourse analysis while cognitive research on verbal communication carried out in cognitive pragmatics as well as in cognitive linguistics has offered insights into the interaction between language inference and persuasion and into cognitive processes such as framing or metaphorical mapping The Handbook of Verbal Communication volume takes into account these two traditions selecting those issues and themes that are most relevant for communication scholars It addresses background matters such as the evolution of human verbal communication and the relationship between verbal and non verbal means of communication and offers an extensive discussion of the explicit and implicit meanings of verbal messages with a focus on emotive and figurative meanings Conversation and fundamental types of discourse such as argument and narrative are

presented in depth as is the key notion of discourse genre The nature of writing systems as well as the interaction of spoken or written language with non verbal modalities are devoted ample attention Different contexts of language use are considered from the mass media and the new media to the organizational contexts Cultural and linguistic diversity is addressed with a focus on phenomena such as multilingual communication and translation A key feature of the volume is the coverage of verbal communication quality Quality is examined both from a cognitive and from a social perspective It covers topics that range from to the cognitive processes underlying deceptive communication to the methods that can be used to assess the quality of texts in an organizational context Text, Context and Construction of Identity Rajesh Kumar,Om Prakash,2019-04-30 Language is central to our existence and it happens to be the most sophisticated product of the human mind It is inconceivable to think of ourselves our societies our ideas cultures or identities without language It is the primary means of socialization and whatever we know is a result of it It is the primary medium of construction and dissemination of knowledge and structures our thought processes in important ways that constitute our identity In very complex ways it interacts with the social political and economic power structures that remain significant in defining the identities of individuals and societies The essays in this volume create an awareness and understanding about the role of linguistic context in negotiating identity The book explains identity and the complex relations between language and several aspects of our society It explores identity through text and context and will serve to trigger a novel discourse around the centrality of identity in contemporary society Bloomsbury World Englishes Volume 1: Paradigms Britta Schneider,Theresa Heyd,Mario Saraceni,2021-05-20 Bloomsbury World Englishes offers a comprehensive and rigorous description of the facts implications and contentious issues regarding the forms and functions of English in the world International experts cover a diverse range of varieties and topics offering a more accurate understanding of English across the globe and the various social contexts in which it plays a significant role With volumes dedicated to research paradigms language ideologies and pedagogies the collection pushes the boundaries of the field to go beyond traditional descriptive paradigms and contribute to moving research agendas forward Volume 1 Paradigms analyzes the ways in which we make sense of English as a global language its many varieties and how these come into contact and interact with other languages It moves the field beyond existing models that are no longer sufficient to describe English es in the era of globalization Identity Revisited and Reimagined Sangeeta Bagga-Gupta,Aase Lyngvær Hansen,Julie Feilberg,2017-07-06 In contrast to other studies on identity this book takes its point of departure in the complexities that characterize and shape both individuals and societies past and present Its chapters challenge demarcated fields of study and conceptions of identity as gender identity as functional disability identity as race and identity as or based upon language groupings The contributions take a social practices perspective in their exploration of the performance living and doing of identity positions across time and space Many of the contributions take an intersectional stance and the majority report upon empirically driven studies that examine the ways in which micro level analyses of

naturally occurring human communication contribute to our understanding of identification processes Specifically they study the ways in which more recent dialogical and social theoretical analytical frameworks allow for attending to the complexity and dynamics of identity processes the ways in which institutional settings media settings community of practices and affinity spaces provide affordances and obstacles for different types of identity positions and the ways in which shifts in identity positions can be traced across time and space

Academic and Professional Writing in an Age of Accountability

Shirley Wilson Logan, Wayne H. Slater, 2018-12-27 What current theoretical frameworks inform academic and professional writing What does research tell us about the effectiveness of academic and professional writing programs What do we know about existing best practices What are the current guidelines and procedures in evaluating a program's effectiveness What are the possibilities in regard to future research and changes to best practices in these programs in an age of accountability Editors Shirley Wilson Logan and Wayne H Slater bring together leading scholars in rhetoric and composition to consider the history trends and future of academic and professional writing in higher education through the lens of these five central questions The first two essays in the book provide a history of the academic and professional writing program at the University of Maryland Subsequent essays explore successes and challenges in the establishment and development of writing programs at four other major institutions identify the features of language that facilitate academic and professional communication look at the ways digital practices in academic and professional writing have shaped how writers compose and respond to texts and examine the role of assessment in curriculum and pedagogy An afterword by distinguished rhetoric and composition scholars Jessica Enoch and Scott Wible offers perspectives on the future of academic and professional writing This collection takes stock of the historical rhetorical linguistic digital and evaluative aspects of the teaching of writing in higher education Among the critical issues addressed are how university writing programs were first established and what early challenges they faced where writing programs were housed and who administered them how the language backgrounds of composition students inform the way writing is taught the ways in which current writing technologies create new digital environments and how student learning and programmatic outcomes should be assessed

Accessibility Denied. Understanding Inaccessibility and Everyday Resistance to Inclusion for Persons with Disabilities Hanna Egard, Kristofer Hansson, David Wästerfors, 2021-11-09 This book explores the societal resistance to accessibility for persons with disabilities and tries to set an example of how to study exclusion in a time when numerous policies promise inclusion With 12 chapters organised in three parts the book takes a comprehensive approach to accessibility covering transport and communication knowledge and education law and

organisation Topics within a wide cross disciplinary field are covered including disability studies social work sociology ethnology social anthropology and history The main example is Sweden with its implementation of the United Nations Convention on the Rights of Persons with Disabilities within the context of the Nordic welfare state By identifying and discussing persistent social and cultural conditions as well as recurring situations and interactions that nurture resistance to advancing accessibility despite various strong laws promoting it the book s conclusions are widely transferable It argues for the value of alternating between methods theoretical perspectives and datasets to explore how new arenas resources and technologies cause new accessibility concerns and possibilities for persons living with impairments We need to be able to follow actors closely to uncover how they feel act and argue but also to connect to wider discursive and institutional patterns and systems This book will be of interest to scholars and students of disability studies social work sociology ethnology social anthropology political science and organisation studies **Metaphors of Multilingualism** Rainer Guldin,2020-03-27

Metaphors of Multilingualism explores changing attitudes towards multilingualism by focusing on shifts both in the choice and in the use of metaphors Rainer Guldin uses linguistics philosophy literature literary theory and related disciplines to trace the radical redefinition of multilingualism that has taken place over the last decades This overall change constitutes a paradigmatic shift However despite the emergence of the new paradigm the traditional monolingual point of view is still significantly influencing present day attitudes towards multilingualism Consequently the emergent paradigm has to be studied in close connection with its predecessor This book is the first extensive attempt to provide a critical overview of the key metaphors that organize current perceptions of multilingualism Instead of an exhaustive list of possible metaphors of multilingualism the emphasis is on three closely interrelated and overlapping clusters that play a central role in both paradigms organic metaphors of the body kinship and gender metaphors as well as spatial metaphors The examples are taken from different languages among them French German Chinese Japanese Spanish and Brazilian Portuguese This is ground breaking reading for scholars and researchers in the fields of linguistics literature philosophy media studies anthropology history and cultural studies **Isms in Language Education** Damian J. Rivers,Karin Zotzmann,2017-10-23

The Village and Its Discontents Meaning and Criticism in Late Modernity is a hopeful collection of essays about villages in Southeast Asia and across the world The village is an idea a construct and a way of organising society Villages constitute the basic unit of analyses in the arts humanities and the social sciences and these issues are presented through the collection of essays featured in this book The contributors hope to generate interest in studying villages to understand the meanings that attach themselves to the concept of the village and to gain greater insights into multidisciplinary knowledge and analyses in today's highly developed global society **The Shifting Sands of Educational Philosophy in India** KHRITISH

SWARGIARY, 2025-05-01 The journey of a nation is often charted through the evolving philosophies that guide its progress and nowhere is this more evident than in the realm of education As India transitioned from the throes of colonialism to the promise of self-determination the imperative to forge a cohesive equitable and progressive educational system became paramount This book The Shifting Sands of Educational Philosophy in India A Critical Analysis of the National Policies on Education 1968 1986 2020 embarks on a critical exploration of this very trajectory not merely as a chronological recounting of policy documents but as a deep dive into the underlying intellectual currents and societal forces that have shaped and been shaped by these landmark pronouncements Our endeavor distinguishes itself by moving beyond a descriptive account of the three National Policies on Education NPEs Instead we adopt a unique lens one that scrutinizes these policies through the prism of evolving educational philosophies We contend that each NPE those of 1968 1986 and its subsequent modification in 1992 and 2020 is not a discrete entity but rather a reflection of the dominant socio-political zeitgeist and the prevailing ideas about the purpose and practice of education By situating these policies within their specific historical contexts we aim to unravel the intricate dance between societal aspirations political ideologies and the formulation of educational blueprints This book seeks to answer fundamental questions that lie at the heart of India's educational journey What were the core philosophical underpinnings that informed each policy How did the socio-political landscape of the time marked by its own unique challenges and opportunities mold these philosophies And crucially how did these policies in turn aspire to shape the very fabric of Indian society By meticulously examining the underlying ideologies the intended societal outcomes and the practical implications of each policy we illuminate the threads of continuity the points of divergence and the moments of radical reorientation that mark India's educational evolution To achieve this nuanced understanding the book is structured in three distinct yet interconnected parts Part I Laying the Foundation Context and Theoretical Framework sets the stage by tracing the early debates and influences that led to the first NPE introducing the key philosophical concepts that will serve as analytical tools throughout our exploration It also establishes the theoretical lenses drawing from sociological political and philosophical perspectives that will enable a rigorous and multifaceted analysis Finally this section provides a crucial

historical overview of the socio political landscape of India from independence to 2020 underscoring the dynamic context within which these policies were conceived and implemented Part II Deconstructing the National Policies on Education delves into the heart of our inquiry dedicating individual chapters to each of the three NPEs For each policy we undertake a detailed examination of its philosophical underpinnings key provisions the socio political context of its formulation the challenges and successes of its practical implementation and a critical assessment of its internal logical reasoning This structured approach allows for a thorough and comparative understanding of each policy in its own right Finally Part III Comparative Analysis and Future Directions draws together the threads of our analysis Through a comparative lens we identify the continuities and discontinuities across the three NPEs in terms of their philosophical orientations focus areas proposed structural changes emphasis on equity and social justice and the envisioned role of the state and private sector The concluding chapter synthesizes our key findings reflects on the enduring legacy of these policies and offers insights into the potential future trajectories of educational policy in India addressing critical questions about the extent of goal attainment persistent challenges the potential impact of NEP 2020 and alternative philosophical approaches that could inform future directions The strength and originality of this book lie in its consistent application of philosophical frameworks to dissect the policies moving beyond mere descriptive analysis to offer a deeper and more nuanced understanding By explicitly linking the policies to the prevailing socio political contexts we provide a richer and more historically grounded analysis Furthermore our approach is inherently critical evaluating the underlying assumptions internal logic and practical implications of each policy The comparative perspective adopted throughout the latter part of the book illuminates the evolution of educational thinking in India and identifies crucial turning points in its trajectory This work is grounded in theoretical rigor drawing upon established theories of education sociology and political science It seeks to be practical by examining the implementation challenges and real world impact of the policies Above all it strives for logical reasoning analyzing the internal consistency and the anticipated consequences of the proposed strategies within each policy in relation to their stated aims Maintaining a scholarly tone and grounding our analysis in historical documents policy texts and existing scholarly literature we aim to contribute a well researched and insightful perspective to the ongoing discourse on Indian education We trust that this critical engagement with the National Policies on Education will offer valuable insights for academics policymakers educators and anyone invested in understanding the forces that have shaped and will continue to shape the educational landscape of India

Khritish Swargiary **Why Do Linguistics?** Fiona English,Tim Marr,2015-01-29 What do we need to know about language and why do we need to know it This book shows how viewing the world through a linguistics lens can help us to understand how we communicate with each other and why we do it in the ways we do Above all this book is about noticing It is about encouraging readers to pay attention to the language that surrounds them The book addresses fundamental linguistic questions such as Where do people s beliefs about language come from Who decides what language we should

How do we choose the best way to express what we mean? It introduces a set of practical tools for language analysis and using examples of authentic communicative activity including overheard conversations, Facebook posts and public announcements shows how this kind of analysis works and what it can tell us about social interaction. Exploring language and language use from a social, intercultural and multilingual perspective, the authors demonstrate the relevance of linguistics in understanding day to day interaction. This book will help readers not only to become informed, active observers of language for its own sake but also to be able to take on and challenge some of the misconceptions, assumptions and prejudices that so often underlie public discussion of language issues. *Anthropological Linguistics*, 1998 Indian Philosophical Quarterly, 1999
