Revitalizing Liberal Values In A Globalizing World:

Revitalizing Liberal Values in a Globalizing World Ruud Lubbers, 2000-12-15 The longest serving Dutch Prime Minister 1982 94 Professor Lubbers is known for his support of liberal values social equity human rights democratic governments and spirituality In this book he explores ways to conciliate these values with global economization Dr Lubbers argues that the global economy created by new information technologies has led to a competitive world atmosphere that works against social equity local movements and national interests In this context he urges that steps be taken to ensure that the new era evolves in the interests of justice peace and fairness Such steps may include combining the governance of nation states providing development assistance supporting initiatives in legislation and jurisprudence such as an international criminal court and initiating a global dialogue on values For Dr Lubbers liberal values mean a just sustainable and participatory society This volume presents the third in a series of lectures that offer reflections by well known figures on topical liberal oriented themes This particular lecture has the distinction of never having been delivered since Toronto was in the midst of a crippling snowstorm on the afternoon of 14 January 1999 when Lubbers was scheduled to speak at Victoria University The two earlier volumes in the series present lectures by John Kenneth Galbraith and Michael Ignatieff **British Liberal Tradition** Roy Jenkins, 2001-01-01 Lord Jenkins tells the story of the rise and fall of the British Liberal party under prime ministers Gladstone Churchill Asquith and Lloyd George and explores the place of current British Prime Minister Tony Blair in this tradition War Crimes and the Culture of Peace Louise Arbour, 2002-12-15 In 1996 Louise Arbour was appointed by the Security Council of the United Nations as Chief Prosecutor for the International Criminal Tribunals for the former Yugoslavia and Rwanda Reflecting on these experiences she argues in War Crimes and the Culture of Peace that the level of public awareness and understanding of the significance of these events is minimal in part as a result of the way in which international criminal law is practiced Justice Arbour contends that previous efforts to unite concepts of international law and criminal law in the practice of these tribunals are evolving and suggests that the ties between personal criminal accountability and peace should be central to the decisions made in the future concerning procedural models for the permanent International War Crimes Tribunals As a result the public might better understand the context and causes of such crime and the notion of crime as a breach of the peace would be made central to these trials Justice Arbour delivered War Crimes and the Culture of Peace as the fifth annual Senator Keith Davey Lecture at Victoria University at the University of Toronto in January 2001 Three Plays of Maureen Hunter Hunter, Maureen, 2003 Book is clean and tight No writing in text Like New <u>John Kenneth Galbraith</u> Conrad Waligorski,2006-06-08 This work examines the economist John Kenneth Galbraith through the unique lense of political theory Waligorski illustrates the continuing link between politics and economics in American political discourse by locating Galbraith in a framework of liberal and conservative theo Reviving Classical Liberalism Against Populism Nils Karlson, 2023-12-30 This open access book by Nils

Karlson explores the strategies used by left and right wing populists to make populism intelligible recognizable and contestable It presents a synthesized explanatory model for how populists promote autocratization through the deliberate polarization of society It traces the ideational roots of the core populist ideas and shows that these ideas form a collectivistic identity politics Karlson argues that to fight back requires the revival of liberalism itself by defending and developing the liberal institutions the liberal spirit liberal narratives and liberal statecraft The book also presents and discusses an extensive list of counterstrategies against populism Written within the tradition of political theory and institutional economics this book uses a wide variety of sources including results and analyses from social psychology ethics law and history Canadian Books in Print. Author and Title Index ,1975 The League of Nations M. Cottrell, 2017-09-11 \sqcap ,2005-01-01 The League of Nations occupies a fascinating yet paradoxical place in human history Over time it s come to symbolize both a path to peace and to war a promising vision of world order and a utopian illusion an artifact of a bygone era and a beacon for one that may still come As the first experiment in world organization the League played a pivotal but often overlooked role in the creation of the United Nations and the modern architecture of global governance In contrast to conventional accounts which chronicle the institution's successes and failures during the interwar period Cottrell explores the enduring relevance of the League of Nations for the present and future of global politics He asks What are the legacies of the League experiment How do they inform current debates on the health of global order and US leadership Is there a dark side to these legacies Cottrell demonstrates how the League of Nations soul continues to shape modern international relations for better and for worse Written in a manner accessible to students of international history international relations and global politics it will also be of interest to graduates and scholars Globalization and Its New Divides Paul van Seters, Bastiaan de Gaay Fortman, Arie de Ruijter, 2003 Most of the contributions in this volume originated as papers for two workshops of the Anniversary Conference of Tilburg University that was held in Tilburg the Netherlands on 26 28 March 2003 The Conference was entitled Sustainable Ties in the Information Society One of the workshops was on The Information Society and Its Discontents The Search for New Recipes and Reform the other one was on Social Cohesion Information Society and Education In light of obvious overlap of themes and content after the Conference it was decided to join the efforts of the two work shops and to strive for an integrated publication The Idea of Civilization and the Making of the Global Order Linklater, Andrew, 2020-11-18 The idea of civilization recurs frequently in reflections on international politics However International Relations academic writings on civilization have failed to acknowledge the major 20th century analysis that examined the processes through which Europeans came to regard themselves as uniquely civilized Norbert Elias s On the Process of Civilization This book provides a comprehensive exploration of the significance of Elias s reflections on civilization for International Relations It explains the working principles of an Eliasian or process sociological approach to civilization and the global order and demonstrates how the interdependencies between state formation colonialism and an emergent

international society shaped the European civilizing process Political Science Revitalized Michael Haas, 2017-07-28 Political science has been described as a jigsaw puzzle with many specializations and subfields that do not talk to one another This book offers a solution that will advance the field from mid level theory to engage in cross fertilization through metatheoretical paradigms. The book begins with a history of political science from the nineteenth century to the present followed by a paradigmatic history of political science including 6 metatheories in the pre behavioral era 12 in the behavioral era and the 4 major and several minor paradigms being developed today The book advances the goal of David Easton by proposing a neobehavioral political science including multimethodological innovations cross testing of paradigms and tenets of a new political science that can rise to become a truly theoretical science Each paradigm is diagramed to demonstrate the key concepts and their causal interconnections Political Science Revitalized Filling the Jigsaw Puzzle with Paradigms poses an exciting and provocative argument for the future of the vast field of political science Reviving the Invisible Hand Deepak Lal, 2010-12-16 Reviving the Invisible Hand is an uncompromising call for a global return to a classical liberal economic order free of interference from governments and international organizations Arguing for a revival of the invisible hand of free international trade and global capital eminent economist Deepak Lal vigorously defends the view that statist attempts to ameliorate the impact of markets threaten global economic progress and stability And in an unusual move he not only defends globalization economically but also answers the cultural and moral objections of antiglobalizers Taking a broad cross cultural and interdisciplinary approach Lal argues that there are two groups opposed to globalization cultural nationalists who oppose not capitalism but Westernization and new dirigistes who oppose not Westernization but capitalism In response Lal contends that capitalism doesn t have to lead to Westernization as the examples of Japan China and India show and that new dirigiste complaints have more to do with the demoralization of their societies than with the capitalist instruments of prosperity Lal bases his case on a historical account of the rise of capitalism and globalization in the first two liberal international economic orders the nineteenth century British and the post World War II American Arguing that the new dirigisme is the thin edge of a wedge that could return the world to excessive economic intervention by states and international organizations Lal does not shrink from controversial stands such as advocating the abolishment of these organizations and defending the existence of child labor in the Third World Japan's Arduous Rejuvenation as a Global **Power** Victor Teo, 2019-04-08 This open access book assesses the profound impact of Japan's aspirations to become a great power on Japanese security democracy and foreign relations Rather than viewing the process of normalization and rejuvenation as two decades of remilitarization in face of rapidly changing strategic environment and domestic political circumstances this volume contextualizes Japan's contemporary international relations against the longer grain of Japanese historical interactions It demonstrates that policies and statecraft in the Prime Minister Shinzo Abe s era are a continuation of a long unbroken and arduous effort by successive generations of leaders to preserve Japanese autonomy enhance security

and advance Japanese national interests Arguing against the notion that Japan cannot work with China as long as the US Japan alliance is in place the book suggests that Tokyo could forge constructive relations with Beijing by engaging China in joint projects in and outside of the Asia Pacific in issue areas such as infrastructure development or in the provision of international public goods It also submits that an improvement in Japan China relations would enhance rather than detract Japan US relations and that Tokyo will find that her new found autonomy in the US Japan alliance would not only accord her more political respect and strategic latitude but also allow her to ameliorate the excesses of American foreign policy adventurism paving for her to become a truly normal great power Reviving and Re-Writing Ethics in Social Research For Commoning the Community Chowdhury, Jahid Siraz, Vadevelu, Kumarashwaran, Hatta, Zulkarnain A., Ashraf, Mahfuz, Bhaumik, Amiya, 2024-03-05 In the continuously changing field of social sciences ethical considerations in anthropological studies pose unprecedented challenges The book Reviving and Re Writing Ethics in Social Research For Commoning the Community embarks on a transformative journey moving beyond historical analysis to address pressing contemporary questions about the norms governing anthropological study Who guards the guardians What ethical challenges does the modern era pose for anthropological sciences These are the critical questions explored in this comprehensive exploration of the ethical landscape of social research As the ethical foundations of social research shift with political intellectual and societal changes there is a pressing need to reassess the purpose of anthropological knowledge and the responsibility of researchers towards the communities they study The book raises vital concerns about the evolving nature of ethical considerations challenging traditional notions of ethical research It highlights the ethical and axiological dilemmas faced by anthropologists in the modern era emphasizing the need for a more community centric approach that actively benefits the studied communities Neo-Liberalism, State Power and Global Governance Simon Lee, Stephen McBride, 2007-09-09 This book explores the relationship between neo liberalism state power and global governance exploring national differences in the exercise of state power in a variety of industrialized and developing economies Among the strengths of this volume are its detailed global scope its range of case studies in diverse policy areas its analysis and critique of neo liberalism in theory and practice and its impact upon state power and global governance Whither Taiwan and Mainland China Zhidong Hao, 2010-01-01 Hao Zhidong has provided essential background on the types of thinking that could create a unified island mainland polity Do the politicians in Beijing and Taipei want one enough to make the symbolic sacrifices that would be needed to bring their citizens peace with prosperity The thinkers whom Hao analyzes in this book can show them ways to do this Lynn White Princeron University A tour de force survey of the dilemmas and possibilities facing intellectuals and policy makers in the Chinese speaking world when dealing with Taiwan as a problem of Chinese nationalism Christopher R Hughes London School of Economics and Political Science A sane thoughtful and thoroughly grounded study of what intellectuals are doing and could do to mediate the contentious patriotism in both Mainland China

and Taiwan Hao brings the sensibilities of a native to a rigorous comparative sociological analysis of the states and the intellectuals involved and what it would take to resolve this key relationship Timothy Check University of British Bolumbia This volume makes a significant contribution to understanding the complexities of the development of nationalisms and divided nations identity politics and the roles of the state and intellectuals not only across the Taiwan Strait but also around the world Professor Hao Zhidong's proposed solution to a unified cross Strait polity is extremely thoughtful and stimulating and deserves serious attention from all parties concerned Timothy Ka Ying Wong The Chinese University of Hong Kong This is one of the few books that argues for a feasible compromise solution to the political conflict across the Taiwan Strait that still troubles greater China The author elaborates on the factors both enabling and constraining the formation of a hybrid of federation and confederation In a unique way he deals with the role of the state and intellectuals organic professional and critical as well as their interaction in shaping national identities. The important questions raised are Can China become a true world leader Will Taiwan be a key player in China's transformation The book should be of interest to students in political science sociology and history as well as policy makers and businesspeople who are concerned about the development of cross Reviving the Left Dwight Furrow, 2009-12-04 Furrow s proposals are fresh he urges liberals to develop a Strait relations more substantial moral identity and win a few battles in the values war by building upon their inherent culture of caring repackaging the conservative movement's successful tactics for the Left Publishers WeeklyIn this fresh assessment of the liberal perspective on politics philosopher Dwight Furrow explains how liberalism lost its moral credentials in the face of challenges from conservatives He articulates a new way of understanding the moral foundations of liberalism that will restore its political fortunes along with America's shattered moral authority A work of popular philosophy Reviving the Left is written in a serious but lively engaging and often polemical style Furrow begins by noting that political ideologies have the power to motivate people because they embody conceptions of how to live Conservatives have understood this more clearly than liberals who for too long have relied on bureaucratic solutions and interest group politics which have lacked moral credibility and passion Now more than ever says Furrow progressive politics if it is to move people hungry for change needs a new vision that will give birth to a more substantial liberal moral identity Furrow takes conservatism to task for promoting what he labels a culture of cynical violent narcissism But rather than praising the liberalism of the past he argues that liberals must radically revise their conception of moral value in order to reverse the damage left behind by many years of conservative rule Reviving the Left argues that liberals must build a culture of caring from the ground up by giving social institutions incentives to encourage a more prominent role in public life for empathy compassion and responsibility Only in such a culture will liberal political initiatives have a chance to succeed in the long run Unlike many books on reviving liberalism which emphasize economics policy debates or political strategies Furrow's Reviving the Left uniquely focuses on moral values and their philosophical underpinnings Furrow s extensive use of references to popular culture especially well

known films and also topics of current political discourse makes for an exciting contemporary rethinking of the liberal perspective with widespread appeal Dwight Furrow San Diego CA professor of philosophy at San Diego Mesa College is the author of Ethics Key Concepts in Philosophy and Against Theory Continental and Analytic Challenges in Moral Philosophy He is also the editor of Moral Soundings Readings on the Crisis of Values in Contemporary Life Summary of Age of Revolutions by Fared Zakaria: Progress and Backlash from 1600 to the Present thomas francis, 2024-04-21 Age of Revolutions Survey of the Turbulent Early Decades of the Twenty First Century Welcome to the whirlwind of the twenty first century a period characterized by populist fervor ideological divisions economic and technological disruptions warfare and a global landscape fraught with perilous risks This era is marked by turbulence where the reverberations of historical revolutions resonate in our current reality creating an atmosphere of uncertainty and transformation In these initial decades of the century we find ourselves navigating unfamiliar territory confronting challenges that appear unprecedented in their magnitude and complexity Renowned CNN host and bestselling author Fareed Zakaria leads us through this captivating exploration of the age of revolutions delving into both past and present upheavals that define our polarized and unstable Conversion of a Continent Timothy Steigenga, Edward L.
