Revolution At The Gates A Selection Of Writings From February To October 1917:

Revolution at the Gates V.I. Lenin, 2014-05-20 The idea of a Lenin renaissance might well provoke an outburst of sarcastic laughter Marx is OK but Lenin Doesn't he stand for the big catastrophe which left its mark on the entire twentieth century Lenin however deserves wider consideration than this and his writings of 1917 are testament to a formidable political figure They reveal his ability to grasp the significance of an extraordinary moment in history Everything is here from Lenin the ingenious revolutionary strategist to Lenin of the enacted utopia To use Kierkegaard's phrase what we can glimpse in these writings is Lenin in becoming not yet Lenin the Soviet institution but Lenin thrown into an open contingent situation In *Revolution at the Gates* Slavoj Žižek locates the 1917 writings in their historical context while his afterword tackles the key question of whether Lenin can be reinvented in our era of cultural capitalism Žižek is convinced that whatever the discussion the forthcoming crisis of capitalism the possibility of a redemptive violence the falsity of liberal tolerance Lenin's time has come again

Resistance Shane Moran, 2021-04-19 In *Resistance* Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti-racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in-depth analysis of Plaatje's resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post-1994 South Africa such as the resolution of the ANC to expropriate land without compensation

Kierkegaard and Political Theory Armen Avanessian, Sophie Wenerscheid, 2014-11-21 Søren Kierkegaard's radical protestant philosophy of the individual in which a person's leap of faith is favored over general ethics has become a model for many contemporary political theorists Thinkers such as Slavoj Žižek and Alain Badiou have drawn on its revolutionary spirit to position truth above the constraints of political systems In *Kierkegaard and Political Theory* contributors from a wide range of disciplines including theology

sociology philosophy and aesthetics examine just how crucial Kierkegaard's anti-institutional thinking has been to such efforts and to modernity as a whole. The contributors convincingly position Kierkegaard's radical philosophy as the starting point for contemporary political theory. They show how he pioneered a modernity defined as an argument, an experience of the impossibility of rationally comprehending a system of thinking. They show how religious and aesthetic experiences function as a response to this impossibility; how their coherence in politics must always be questioned, especially in history's extreme example, totalitarianism. Engaging this and many other subjects, they provide a compelling new line in Kierkegaard studies that illuminates new contours of our political thought.

Armen Avanesian is founder of the research platform Speculative Poetics at the Free University Berlin. Sophie Wenerscheid is professor of Scandinavian Studies at the University of Ghent.

Introduction to Nonviolence Ramin Jahanbegloo, 2014-03-11. Non-violent movements under figures like Gandhi and the Dalai Lama led to some of the great social changes of the 20th century, and some argue it offers solutions for this century's problems. This book explores non-violence from its roots in diverse religious and philosophical traditions to its role in bringing social and political change today.

Thinking Nonviolence Ramin Jahanbegloo, 2024-08-30. This book presents a solid introduction to nonviolence as a mode of thinking and a mode of life, but also as a strategy of self-defence and social and political transformation. Nonviolence is a frequently misunderstood, frequently abused term. It can be used in very narrow or broad constructs and can be based on a wide variety of philosophies and practices. The book will examine several of the main currents of nonviolent thought and practice as approaches that concentrate around the concepts of struggle and resistance. By focusing on these two concepts, the book will examine the theories and principles of nonviolence as well as the religious and philosophical underpinnings of their commitments. The book dwells on the theoretical discussion of the concept and history of nonviolence as a revolutionary concept for a change in mentalities and realities of our societies. It brings to the forefront the philosophy of nonviolence as it developed from Socrates to Thoreau, Jesus to Dalai Lama. The book covers Gandhi, Mandela, Martin Luther King Jr., the advocates and practitioners of non-violence in the 20th Century.

Foucault and Power Marcelo Hoffman, 2013-11-21. Michel Foucault is one of the most preeminent theorists of power, yet the relationship between his militant activities and his analysis of power remains unclear. The book explores this relationship to explain the development of Foucault's thinking about power. Using newly translated and unpublished materials, it examines what led Foucault to take on the question of power in the early 1970s and subsequently refine his thinking, working through different models: war and government, and modalities: disciplinary, biopolitical, and governmental. Looking at Foucault's political trajectory from his immersion in the prisoner support movement to his engagements with the Iranian revolution and Solidarity in Poland, the book shows the militant underpinning of his interest in the question of power and its various shifts and mutations. This thorough account, which includes the first translation of a report edited by Foucault on prison conditions, will provide students in contemporary political theory with a better understanding of Foucault's thinking about power and of

the interplay between political activities and theoretical productions Other People's Struggles Nicholas Owen, 2019-05-30

Other People's Struggles is the first attempt in over forty years to explain the place of conscience constituents in social movements. Conscience constituents are people who participate in a movement but do not stand to benefit if it succeeds. Why do such people participate when they do not stand to benefit? Why are they sometimes present and sometimes absent in social movements? Why and when is their participation welcome to those who do stand to benefit and why and when is it not? The work proposes an original theory to answer these questions, crossing disciplinary boundaries to draw on the findings of social psychology, philosophy and political theory in search of explanations of why people act altruistically and what it means to others when they do so. The theory is illustrated by examples from British history including the anti-slavery movement, the women's suffrage and liberation movements, labor and socialist movements, anti-colonial movements, anti-poverty movements and movements for global justice. Other People's Struggles also contributes to new debates concerning the rights and wrongs of speaking for others. Debates concerning the limits of solidarity, who can be an ally and on what terms have become topical in contemporary politics, especially in identity politics and in the newest social movements. The work provides a theoretical and empirical account of how these questions have been addressed in the past and how they might be framed today.

Counting Islam Tarek Masoud, 2014-04-28 Why does Islam seem to dominate Egyptian politics, especially when the country's endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism? This book argues that the answer lies not in the political unsophistication of voters, the subordination of economic interests to spiritual ones or the ineptitude of secular and leftist politicians, but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters. Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years, this book not only explains why Islamists win elections but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart of what we expect from democracy. **Stanley**

Cavell and the Arts Rex Butler, 2020-10-15 In the late 1990s Rosalind Krauss, one of the principal theorists of post-modernism in the arts, began using the term post-medium in her work. It was a nod to the American ordinary language philosopher Stanley Cavell, who had been thinking through a concept of medium in art for 30 years. Today, with the decline of post-modernism, Stanley Cavell has emerged as one of the most important figures for thinking again about the visual arts, film and theatre. Stanley Cavell and the Arts looks at Cavell's extensive writings on a wide variety of artforms and at a number of writers. Michael Fried, William Rothman, influenced by his work. Over a 50-year career, Cavell wrote about visual art, photography, classical music, Shakespeare, the plays of Samuel Beckett and perhaps most notably Hollywood cinema. Stanley Cavell and the Arts offers an overview of Cavell's writings on the arts, situating them within his wider philosophical practice, analysing in detail his treatment of particular art forms and looking at the work of those he has deeply shaped. **Red**

Britain Matthew Taunton, 2019-04-04 Red Britain sets out a provocative rethinking of the cultural politics of mid century Britain by drawing attention to the extent diversity and longevity of the cultural effects of the Russian Revolution Drawing on new archival research and historical scholarship this book explores the conceptual discursive and formal reverberations of the Bolshevik Revolution in British literature and culture It provides new insight into canonical writers including Doris Lessing George Orwell Dorothy Richardson H G Wells and Raymond Williams as well bringing to attention a cast of less studied writers intellectuals journalists and visitors to the Soviet Union Red Britain shows that the cultural resonances of the Russian Revolution are more far reaching and various than has previously been acknowledged Each of the five chapters takes as its subject one particular problem or debate and investigates the ways in which it was politicised as a result of the Russian Revolution and the subsequent development of the Soviet state The chapters focus on the idea of the future numbers and arithmetic law and justice debates around agriculture and landowning and finally orality literacy and religion In all of these spheres Red Britain shows how the medievalist romantic oral pastoral anarchic and ethical emphases of English socialism clashed with and were sometimes overwritten by futurist utilitarian literate urban statist and economic ideas associated with the Bolshevik Revolution

Zizek's Politics Jodi Dean, 2012-12-06 A critical introduction to the political thought of one of the most important original and enigmatic philosophers writing today Zizek's Politics provides an original interpretation and defence of the Slovenian philosopher's radical critique of liberalism democracy and global capital

The Palgrave Handbook of Leninist Political Philosophy Tom Rockmore, Norman Levine, 2018-12-19 This intellectually discomfiting disturbingly provocative yet still thoroughly scholarly Handbook reproduces the intellectual ferment that accompanied the Russian Revolution including the wholly polarising effect at that time of Vladimir Ilyich Lenin The Palgrave Handbook of Leninist Political Philosophy does not settle for one safe interpretation of the thought of this world historic figure but rather revels in a clash of viewpoints Most interestingly it presents a contrast between the Western editors who emphasise pure democracy and Marxian humanism with many of the contributing scholars who take a more sanguine view of the Leninist political project Perhaps reflecting the current Western political crisis some of the volume's other European and North American scholars more closely align with their colleagues from the Global South Key Features Places particular emphasis on the key elements of Lenin's thought the dictatorship of the proletariat which is trenchantly defended the nature of the dialectic and the New Economic Policy Additional comprehensive coverage includes the theory of the party Bolshevism imperialism and the class struggle in the countryside Examines the relation of Lenin's thought to the ideas of his most influential contemporaries including Luxemburg Stalin and Trotsky as well as the most eminent thinker to interpret Lenin since his death Gyrgy Lukcs This Handbook is essential reading for scholars researchers and advanced students in political philosophy political theory the history of political ideas economics international relations and world history It is also ideal for the general reader who wishes to understand some of the most powerful ideas that have shaped the modern world and that

may yet shake the world again Understanding Namibia Henning Melber, 2015-01-04 Since independence in 1990 Namibia has witnessed only one generation with no memory of colonialism the born frees who voted in the 2009 elections The anti colonial liberation movement SWAPO dominates the political scene effectively making Namibia a de facto one party state dominated by the first struggle generation While those in power declare their support for a free fair and just society the limits to liberation are such that emancipation from foreign rule has only been partially achieved Despite its natural resources Namibia is among the world's most unequal societies and indicators of wellbeing have not markedly improved for many among the former colonized majority despite a constitution enshrining human rights social equality and individual liberty This book analyses the transformation of Namibian society since Independence Melber explores the achievements and failures and contrasts the narrative of a post colonial patriotic history with the socio economic and political realities of the nation building project He also investigates whether notwithstanding the relative stability prevailing to date the negotiation of controlled change during Namibia's decolonization could have achieved more than simply a change of those in control

The Reception of Paul the Apostle in the Works of Slavoj Žižek Ole Jakob Løland, 2018-06-20 This is the first book devoted entirely to exploring Žižek's peculiar kind of Paulinism It seeks to provide a full map of the Marxist philosopher's interpretations of Paul and critically engage with it As one of several radical leftists of European critical thought Žižek embraces the legacy of an ancient apostle in fascinating ways This work considers Žižek's philosophical and political readings of Paul through the lens of reception history and argues that through this recent philosophical turn to Paul notions of the historical and philosophical are reproduced and negotiated anew **Zizek and Media Studies** M. Flisfeder, L.

Willis, 2014-04-09 Film media and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization representation and ideological interpellation Here the contributors take up a Žižekian approach to studies of cinema and media raising questions about power ideology sexual difference and enjoyment Theatre-Fiction in Britain from Henry James to Doris Lessing Graham Wolfe, 2019-06-10 This volume posits and explores an intermedial genre called theatre fiction understood in its broadest sense as referring to novels and stories that engage in concrete and sustained ways with theatre Though theatre has made star appearances in dozens of literary fictions including many by modern history's most influential authors no full length study has dedicated itself specifically to theatre fiction in fact there has not even been a recognized name for the phenomenon Focusing on Britain where most of the world's theatre novels have been produced and commencing in the late nineteenth century when theatre increasingly took on major roles in novels Theatre Fiction in Britain argues for the benefits of considering these works in relation to each other to a history of development and to the theatre of their time New modes of intermedial analysis are modelled through close studies of Henry James Somerset Maugham Virginia Woolf J B Priestley Ngaio Marsh Angela Carter and Doris Lessing all of whom were deeply involved in the theatre world as playwrights directors reviewers and theorists Drawing as much on theatre scholarship as on literary theory

Theatre Fiction in Britain presents theatre fiction as one of the past century's most vital means of exploring reconsidering and bringing forth theatre's potentials *Slavoj Žižek: Live Theory* Rex Butler, 2005-03-04 Slavoj Žižek is undoubtedly one of the world's leading cultural critics His witty psychoanalytically inspired analyses of contemporary society have almost single handedly revived the notion of ideology His brilliant commentaries on the French psychoanalyst Jacques Lacan and the 19th century German Idealists have brought alive their often difficult ideas for a new generation of readers But does Žižek have anything to say in his own right Is there a system of thought that we can properly call Žižekian This book argues that there is through a reading of two terms in his work the master signifier and the act Featuring an interview with Žižek himself Slavoj Žižek *Live Theory* presents a snapshot of the Žižek system ideal for undergraduates in social and cultural theory and philosophy

Postcolonial Historical Materialism Filippo Menozzi, 2025-03-27 Through a reappraisal of the work of four major figures in critical theory Ernst Bloch Georg Lukács Theodor Adorno and Walter Benjamin Filippo Menozzi rethinks the tradition of critical theory in relation to pressing concerns in postcolonial studies Revealing these authors continued relevance to urgent issues in the 21st century from struggles against racism to social movements and the transmutations of global capitalism Menozzi reimagines them as central to an alternative genealogy of critical theory that moves beyond their European provenance and the limitations of Western Marxism In doing so this book challenges more broadly the view of critical theory as steeped in Eurocentrism culturally conservative and politically defeatist Contesting this in four chapters *Postcolonial Historical Materialism* inserts Adorno Lukács Bloch and Benjamin into key contemporary sites of militancy and debate Engaging with a wide range of European and non European sources Menozzi proposes a new concept of postcolonial historical materialism indicating how the heritage of critical theory can reopen global possibilities of utopia and revolution in a non utopian age of global emergencies social unrest and the unfinished history of decolonisation *Speaking of Monsters* Caroline Joan S. Picart, John Edgar Browning, 2012-07-16 Employing a range of approaches to examine how monster talk pervades not only popular culture but also public policy through film and other media this book is a one stop shop of sorts for students and instructors employing various approaches and media in the study of teratologies or discourses of the monstrous
