political concepts such as sovereignty and balance of powers as well as of the nature of the constitutional order of 1815. Finally it traces the emergence of Belgian nationalism within the discourse of opposition against the government. Stefaan Marteel therefore provides a fresh perspective on the intellectual background of the rise of the nation state in the nineteenth century.

**The Cross and the Ballot** Ellen Lovell Evans, 1999-06-01 The Cross and the Ballot describes the origins, development and present status of Catholic political parties in Germany, Austria, Switzerland, Belgium and The Netherlands. Its comparative perspective contributes significantly to the current debate over Germany's Sonderweg, that is whether or not German history has taken a special path or unique direction from others. The emergence of a separate political representation for German Catholics was not a deviation from the usual European spectrum but on the contrary was strikingly similar to events in the other four countries. Both the similarities and some notable differences serve to illuminate important aspects of German history.

Eighteenth Century Europe, 1700-1789 Jeremy Black, 1999-10-04 This new edition of this highly successful and influential work includes two entirely new chapters on Europe and the wider world and on the Revolutionary crisis and is extensively revised throughout. *Le Concept de liberté au Canada à l'époque des Révolutions atlantiques (1776-1838)* Michel Ducharme, 2009-12-01 Cet ouvrage revisite l'histoire intellectuelle et politique canadienne entre la révolution américaine et les rébellions de 1837-1838 au Haut et au Bas Canada en la reliant dans le cadre des Révolutions atlantiques qui ont secoué l'Europe et l'Amérique entre 1776 et 1838. Reposant sur un cadre théorique inspiré des travaux des historiens intellectuels du monde atlantique, il traite plus particulièrement de l'importance du concept de liberté dans le développement de l'état dans les deux colonies. Il démontre que ces dernières se sont développées dès 1791 en suivant un idéal de liberté qui tout en étant différent de la liberté l'œuvre au sein des mouvements révolutionnaires de la fin du XVIII<sup>e</sup> siècle n'en était pas moins issu des Lumières. Il présente également les rébellions de 1837-1838 comme tant en partie le résultat d'un affrontement entre deux concepts très différents de liberté.

Contested Cities in the Modern West A. Hepburn, 2004-04-07 Cities are close knit communities. When rival ethnic groups develop which refuse to concede predominance, deep conflicts may occur. Some have been managed peacefully as in Brussels and Montreal. Other cases such as Danzig, Gdansk and Trieste have more or less forcefully been resolved in favour of one of the parties. In further cases such as Belfast and Jerusalem protracted violence has not delivered a solution. *Contested Cities in the Modern West* examines the roles of international interventions, state policies and social processes in influencing such situations with particular reference to the above cases.

*Reconsidering Constitutional Formation I National Sovereignty* Ulrike Müßig, 2016-08-18 This open access book can be downloaded from [link.springer.com](http://link.springer.com). Legal studies and consequently legal history focus on constitutional documents believing in a nominalist autonomy of constitutional semantics. *Reconsidering*

Constitutional Formation in the late 18th and 19th century kept historic constitutions from being simply log books for political experts through a functional approach to the interdependencies between constitution and public discourse. Sovereignty had to be believed by the subjects and the political elites. Such a communicative orientation of constitutional processes became palpable in the religious affinities of the constitutional preambles. They were held as creeds of a new order not only due to their occasional recourse to divine authority but rather due to the claim for eternal validity contexts of constitutional guarantees. The communication dependency of constitutions was of less concern in terms of the preamble than the constituents' big worries about government organisation. Their indecisiveness between monarchical and popular sovereignty was established through the discrediting of the Republic in the Jacobean reign of terror and the renaissance of the monarchy in the military resistance against the French revolutionary and later Napoleonic campaigns. The constitutional formation as a legal act of constituting could therefore defend the monarchy from the threat of the people. Albertine Statute 1848 could be a legal decision of a national constituent assembly. Belgian Constitution 1831 could borrow from the old liberties. Polish May Constitution 1791 or try to remain in between by referring to the Nation as sovereign. French September Constitution 1791. C. d. i. z. Constitution 1812. Common to all contexts is the use of national sovereignty as a legal starting point. The consequent differentiation between constituent and constituted power manages to justify the self-commitment of political power in legal terms. National sovereignty is the synonym for the juridification of sovereignty by means of the constitution. The novelty of the constitutions of the late 18th and 19th century is the normativity, the positivity of the constitutional law as one unified law to be the measure for the legality of all other law. Therefore ReConFort will continue with the precedence of constitution. [www.reconfort.eu](http://www.reconfort.eu)     The roots of nationalism Lotte Jensen, 2016-04-15. This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815. Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping of European nations in the period while also offering an overview of current debates in the field and case studies on a number of topics including literature, historiography and cartography.     Napoleon's Empire Ute Planert, 2016-01-26. The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale. When Napoleon died, the map of many areas had completely changed, making room for Russia's ascendancy and Britain's rise to world power.     **In the Shadow of the Empress** Nancy Goldstone, 2021-09-21. The vibrant sprawling saga of Empress Maria Theresa, one of the most renowned women rulers in history and three of her extraordinary daughters including Marie Antoinette, the doomed queen of France. Out of the thrilling and tempestuous eighteenth century comes the sweeping family saga of beautiful Maria Theresa, a sovereign of uncommon strength and vision, the only woman ever to inherit and rule the vast Habsburg Empire in her own name and three of her remarkable daughters: lovely, talented Maria Christina, governor general of the Austrian Netherlands.

spirited Maria Carolina the resolute queen of Naples and the youngest Marie Antoinette the glamorous tragic queen of France and perhaps the most famous princess in history Unfolding against an irresistible backdrop of brilliant courts from Vienna to Versailles embracing the exotic lure of Naples and Sicily this epic history of Maria Theresa and her daughters is a tour de force of desire adventure ambition treachery sorrow and glory Each of these women s lives was packed with passion and heart stopping suspense Maria Theresa inherited her father s thrones at the age of twenty three and was immediately attacked on all sides by foreign powers confident that a woman would be too weak to defend herself Maria Christina a gifted artist who alone among her sisters succeeded in marrying for love would face the same dangers that destroyed the monarchy in France Resourceful Maria Carolina would usher in the golden age of Naples only to face the deadly whirlwind of Napoleon And finally Marie Antoinette the doomed queen whose stylish excesses and captivating notoriety have masked the truth about her husband and herself for two hundred and fifty years Vividly written and deeply researched *In the Shadow of the Empress* is the riveting story of four exceptional women who changed the course of history Nationalism in Belgium Kas Deprez, Louis Vos, 2016-07-27 This is a book about shifting national identities in Belgium It is an attempt to show how these identities emerged and evolved It aims at explaining why the Belgian identity which in 1830 was so strong that it could create a new nation state has become so weak that today it has to accept a mere overarching role above and in competition with the new national loyalties More and more people wonder whether this country will survive *Neutrality as a Policy Choice for Small/Weak Democracies* Michael F. Palo, 2019-07-08 In *Neutrality as a Policy Choice for Small Weak Democracies Learning from the Belgian Experience* Michael F Palo has three main objectives First he employs a counterfactual approach to examine the hypothesis that had permanent neutrality not been imposed on Belgium in 1839 it would have pursued neutrality anyway until war broke out in 1914 Secondly he analyses why after abandoning obligatory neutrality during World War I the Belgians adopted voluntary neutrality in October 1936 Finally he seeks to use the historical Belgian case study to test specific International Relations Theories and to contribute to Small State Studies especially the behaviour of small weak democracies in the international system *Women and Politics in the Age of the Democratic Revolution* Harriet Branson Applewhite, Darline Gay Levy, 1990 Comparative historical investigations of gender and political culture in 18th and 19th century revolutionary movements
