The Wrecking Crew Thomas Frank, 2024-05-01 The New York Times bestselling author of *What's the Matter with Kansas* shares a no holds barred exegesis on the naked cynicism of conservatism Kirkus Reviews starred review In his previous book Thomas Frank explained why working America votes for politicians who reserve their favors for the rich Now in *The Wrecking Crew* Frank examines the blundering and corrupt federal government those politicians have given us Casting his eyes from the Bush administration's final months of plunder to the earliest days of the Republican revolution Frank describes the rise of a ruling coalition dedicated to dismantling government While deregulating some industries and defunding others they always turn public policy into a private sector bidding war It is no coincidence Frank argues that the same politicians who guffaw at the idea of effective government have installed a regime in which incompetence is the rule Stamped with Thomas Frank's audacity analytic brilliance and wit *The Wrecking Crew* is his most revelatory work yet and his most important

**Democracy's Think Tank** Brian S. Mueller, 2021-07-02 In *Democracy's Think Tank* Brian S Mueller places the Institute for Policy Studies IPS at the center of a network of activists involved in making the world safe for diversity Unlike defense intellectuals at the RAND Corporation and other think tanks responsible for formulating military strategy the peace intellectuals at IPS developed blueprints for an alternative to the U S led world order As the Iron Curtain fell across Eastern Europe a triumphalist Cold War narrative emerged proclaiming victory for freedom democracy and free enterprise over totalitarianism Yet for the peace intellectuals at IPS the occasion did not merit celebration Since its doors opened in 1963 IPS refused to embrace American exceptionalism and waged a battle against the Cold War and its liberal anti communist supporters As IPS founders Marcus Raskin and Richard Barnet saw it in the process of fighting communism and preserving the liberal capitalist order Cold War liberals had forsaken democracy *Democracy's Think Tank* tells the story of IPS's crusade to resurrect democracy at home and abroad Borrowing from populist progressive and New Left traditions IPS challenged elite expertise and sought to restore power to the people To this end IPS in the words of journalist I F Stone served as the institute for the rest of us Mueller tells the story of IPS's involvement in a broad range of grassroots campaigns aimed at ending the Cold War and increasing participatory democracy in the United States and across the globe Contemporary observers seeking an alternative to American empire in the twenty first century will find *Democracy's Think Tank* offers several possible paths toward a more democratic order

Managing the Counterrevolution Stephen M. Streeter, 2000 The Eisenhower administration's intervention in Guatemala is one of the most closely studied covert operations in the history of the Cold War Yet we know far more about the 1954 coup itself than its aftermath This book uses the concept of counterrevolution to trace the Eisenhower administration's efforts to restore U S hegemony in a nation whose reform governments had antagonized U S economic interests and the local elite Comparing the Guatemalan case to U S sponsored counterrevolutions in Iran the Dominican Republic Brazil and Chile reveals that Washington's efforts to roll back communism

### **Journalism's Roving Eye** John Maxwell

Hamilton, 2011-08-15 In all of journalism, nowhere are the stakes higher than in foreign news gathering. For media owners, it is the most difficult type of reporting to finance; for editors, the hardest to oversee. Correspondents roaming large swaths of the planet must acquire expertise that home-based reporters take for granted: facility with the local language, for instance, or an understanding of local cultures. Adding further to the challenges, they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs, a task made all the more daunting because of the consequence to national security. In *Journalism's Roving Eye*, John Maxwell Hamilton, a historian and former foreign correspondent, provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries. From the colonial era, when newspaper printers hustled down to wharves to collect mail and periodicals from incoming ships, to the ongoing multimedia press coverage of the Iraq War, Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid-nineteenth century to describe his approach in the *New York Herald*. He details the highly partisan coverage of the French Revolution, the early emergence of special correspondents, and the challenges of organizing their efforts; the profound impact of the non-yellow press in the run-up to the Spanish American War; the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period, when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe. From the Nazis' intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War, Hamilton covers every aspect of delivering foreign news to American doorsteps. Along the way, Hamilton singles out a fascinating cast of characters among them: Victor Lawson, the overlooked proprietor of the *Chicago Daily News* who pioneered the concept of a foreign news service geared to American interests; Henry Morton Stanley, one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone; and Jack Belden, a forgotten brooding figure who exemplified the best in combat reporting. Hamilton details the experiences of correspondents, editors, owners, publishers, and network executives as

well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead **The Uncomfortables**

this was the vision of African independence Across the continent however the optimism that characterized the immediate post independence period has largely faded Meanwhile ordinary Africans lurch between undemocratic unaccountable and unresponsive governments and a decaying traditional African past How did things go so wrong Why has the continent lagged behind others in economic development despite its potential natural resources Why are so many African states prone to conflict And why has democracy been slow to take root in a majority of the countries Covering everything from African economies to the role of the state rural livelihoods to issues of gender Politics in Africa offers a fresh perspective in answering these questions making the continent s problems more understandable less wretched and even intensely hopeful Up to date concise and provocative this is indispensable reading for anyone interested in African politics
