Revolutionary Currents Nation Building In The Transatlantic World:

Revolutionary Currents Michael A. Morrison, Melinda S. Zook, 2004 In the Age of Democratic Revolution countries on both sides of the Atlantic were linked together through trade networks diplomatic ties and social interactions More importantly however they also shared a common revolutionary dynamic that oscillated back and forth across the ocean *Revolutionary Currents* explores the global crosscurrents and revolutionary ideologies that inspired four great modern revolutions England's Glorious Revolution of 1688-89 the American Revolution of 1776 the French Revolution in 1789 and the Mexican Revolution in the early 1800s Michael A Morrison and Melinda S Zook bring together noted historians to look at how each nation reshaped these revolutionary traditions making them their own and exported them once again In examining each event the contributors respond to the historiographical trends of revolutionary ideology transatlantic cross fertilization of ideas and nation building In assessing and analyzing the ideas traditions and nationalisms that inspired revolution and nation building in the modern world this book breaks new ground in the area of transatlantic history **Empire to Nation** Joseph W.

Esherick, Eric Van Young, Hasan Kayali, 2006-05-04 The fall of empires and the rise of nation states was a defining political transition in the making of the modern world As United States imperialism becomes a popular focus of debate we must understand how empire the nineteenth century's dominant form of large scale political organization had disappeared by the end of the twentieth century Here ten prominent specialists discuss the empire to nation transition in comparative perspective Chapters on Latin America the Middle East Eastern Europe Russia and China illustrate both the common features and the diversity of the transition Questioning the sharpness of the break implied by the empire nation binary the contributors explore the many ways in which empires were often nation like and nations behaved imperially While previous studies have focused on the rise and fall of empires or on nationalism and the process of nation building this intriguing volume concentrates on the empire to nation transition itself Understanding this transition allows us to better interpret the contemporary political order and new forms of global hegemony **The World of Colonial America** Ignacio

Gallup-Diaz, 2017-04-28 *The World of Colonial America* An Atlantic Handbook offers a comprehensive and in depth survey of cutting edge research into the communities cultures and colonies that comprised colonial America with a focus on the processes through which communities were created destroyed and recreated that were at the heart of the Atlantic experience With contributions written by leading scholars from a variety of viewpoints the book explores key topics such as The Spanish French and Dutch Atlantic empires The role of the indigenous people as imperial allies trade partners and opponents of expansion Puritanism Protestantism Catholicism and the role of religion in colonization The importance of slavery in the development of the colonial economies The evolution of core areas and their relationship to frontier zones The emergence of the English imperial state as a hegemonic world power after 1688 Regional developments in colonial North America Bringing together leading scholars in the field to explain the latest research on Colonial America and its place in the

Atlantic World this is an important reference for all advanced students researchers and professionals working in the field of early American history or the age of empires Napoleon's Empire Ute Planert,2016-01-26 The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale When Napoleon died the map of many areas had completely changed making room for Russia s ascendancy and Britain s rise to world power *Revolution of 1861* Andre Fleche,2012 The Revolution of 1861 **Revolutionary Currents** Michael A. Morrison,Melinda S. Zook,2004-03-27 Revolutionary Currents explores the global cross currents revolutionary ideologies that inspired four great modern revolutions in England America France Mexico between 1688 the early 1800s *Revolutionary Europe* Gavin Murray-Miller,2020-02-06 CHOICE Outstanding Academic Title 2021 Revolutionary Europe is an original examination of radical political movements during Europe s long 19th century It employs both national and transnational contexts incorporating new debates in Atlantic history empire studies and cultural history to give a comprehensive narrative of the period from 1775 to 1922 Rather than assessing revolution as a purely theoretical socially driven force or a structural phenomenon the book presents revolution as a process of community building and cultural identification born from instances of acute social and political crisis Taking into account various moments of political upheaval during the 19th century including the French Russian and 1848 revolutions it explores the ways in which political actors attempted to construct new definitions of sovereignty and social unity in a period characterized by vast social economic and governmental change In a wide ranging text that covers Britain and much of continental Europe in detail as well as reaching out to the Americas and Atlantic and Mediterranean Worlds Gavin Murray Miller provides an authoritative transnational study of revolution in the 19th century age of high nationalism *American Empire in Global History* Shigeru Akita,2021-12-19 This book shows how the predominantly national focus that characterises studies of the United States after 1783 can be integrated with global trends as viewed from the perspective of imperial history The book also argues that historians of European empires have much to gain by considering the United States after 1783 as a newly decolonised country that acquired overseas territorial possessions in 1898 and remained a member of the Western imperial club until the mid twentieth century The wide ranging synthesis by A G Hopkins *American Empire A Global History* 2018 provides the starting point for contributions that appraise its main theme and take it in new directions The first three chapters identify fresh approaches to U S history between the Revolution and the Civil War suggesting ways in which the United States can be considered as a newly decolonised country examining shifting meanings of the term empire and reassessing the character of continental expansion The second group deals with initiatives and responses in the Philippines and Cuba reconsidering the character of nationalism in two of the most important overseas territories that were either ruled directly or controlled indirectly by the United States and placing it an international context The third group examines the exercise of U S power in the twentieth century identifying aspects of international law that have been overlooked and reviewing the extensive literature on the controversial themes of the Cold

War and informal empire after 1945 The ten chapters in this edited volume bring together noted specialists on the history of international relations the United States and the insular empire it ruled in the twentieth century The chapters were originally published as articles in a special issue of The Journal of Imperial and Commonwealth History *Rethinking America* John M. Murrin, 2018-04-02 For five decades John M Murrin has been the consummate historian s historian This volume brings together his seminal essays on the American Revolution the United States Constitution and the early American Republic Collectively they rethink fundamental questions regarding American identity the decision to declare independence in 1776 and the impact the American Revolution had on the nation it produced By digging deeply into questions that have shaped the field for several generations Rethinking America argues that high politics and the study of constitutional and ideological questions broadly the history of elites must be considered in close conjunction with issues of economic inequality class conflict and racial division Bringing together different schools of history and a variety of perspectives on both Britain and the North American colonies it explains why what began as a constitutional argument that virtually all expected would remain contained within the British Empire exploded into a truly subversive and radical revolution that destroyed monarchy and aristocracy and replaced them with a rapidly transforming and chaotic republic This volume examines the period of the early American Republic and discusses why the Founders assumptions about what their Revolution would produce were profoundly different than the society that emerged from the American Revolution In many ways Rethinking America suggests that the outcome of the American Revolution put the new United States on a path to a violent and bloody civil war With an introduction by Andrew Shankman this long awaited work by one of the most important scholars of the Revolutionary era offers a coherent interpretation of the complex period that saw the breakdown of colonial British North America and the founding of the United States *The Great Delusion* John J. Mearsheimer, 2018-01-01 A major theoretical statement by a distinguished political scholar explains why a policy of liberal hegemony is doomed to fail It is widely believed in the West that the United States should spread liberal democracy across the world foster an open international economy and build international institutions The policy of remaking the world in America s image is supposed to protect human rights promote peace and make the world safe for democracy But this is not what has happened Instead the United States has become a highly militarized state fighting wars that undermine peace harm human rights and threaten liberal values at home In this major statement the renowned international relations scholar John Mearsheimer argues that liberal hegemony the foreign policy pursued by the United States since the Cold War ended is doomed to fail It makes far more sense he maintains for Washington to adopt a more restrained foreign policy based on a sound understanding of how nationalism and realism constrain great powers abroad The Great Delusion is a lucid and compelling work of the first importance for scholars policymakers and everyone interested in the future of American foreign policy **Following the Levellers, Volume Two** Gary S. De Krey, 2018-02-05 The Levellers sought to restructure the state in 1647 9 around popular consent and liberty for

conscience especially in their Agreement of the People Following the Levellers Volume Two examines the later political efforts of Leveller spokesmen like John Lilburne John Wildman and Richard Overton and their followers Far from ending in the 1649 troop revolts the Leveller impact continued in the Interregnum climacterics of 1653 and 1659 60 times of acute political and religious unsettlement Indeed Leveller ideas resurfaced in Restoration political and religious crises in 1678 83 and again in 1687 8 and flourished in populations that once followed the Levellers Analysis of London army and county Levellers reveals connections to subsequent outbursts of unrest Sectarian communities in London s peripheral neighbourhoods and nearby counties sustained the Leveller ethos and ordinary people like those who followed the Levellers remained active in petitioning and protest about political and religious liberties through the Glorious Revolution The Cambridge History of the Age of Atlantic Revolutions: Volume 3, The Iberian Empires Wim Klooster,2023-11-09 Volume III covers the Iberian Empires and the important ethnic dimension of the Ibero American independence movements revealing the contrasting dynamics created by the Spanish imperial crisis at home and in the colonies It bears out the experimental nature of political changes the shared experiences and contrasts across different areas and the connections to the revolutionary French Caribbean The special nature of the emancipatory processes launched in the European metropolises of Spain and Portugal is explored as are the connections between Spanish America and Brazil as well as between Brazil and Portuguese Africa It ends with an assessment of Brazil and how the survival of slavery is shown to have been essential to the new monarchy although simultaneously enslaved people began pressing their own demands just like the indigenous population *The Atlantic World* Thomas Benjamin,2009-02-16 From 1400 to 1900 the Atlantic Ocean served as a major highway allowing people and goods to move easily between Europe Africa and the Americas These interactions and exchanges transformed European African and American societies and led to the creation of new peoples cultures economies and ideas throughout the Atlantic arena The Atlantic World provides a comprehensive and lucid history of one of the most important and impactful cross cultural encounters in human history Empires economies and trade in the Atlantic world thrived due to the European drive to expand as well as the creative ways in which the peoples living along the Atlantic s borders adapted to that drive This comprehensive cohesively written textbook offers a balanced view of the activity in the Atlantic world The 40 maps 60 illustrations and multiple excerpts from primary documents bring the history to life Each chapter offers a reading list for those interested in a more in depth look at the period **Connected Worlds** Ann Curthoys,Marilyn Lake,2006-03-01 This volume brings together historians of imperialism and race travel and modernity Islam and India the Pacific and the Atlantic to show how a transnational approach to history offers fresh insights into the past Transnational history is a form of scholarship that has been revolutionising our understanding of history in the last decade With a focus on interconnectedness across national borders of ideas events technologies and individual lives it moves beyond the national frames of analysis that so often blinker and restrict our understanding of the past Many of the essays also show

how expertise in Australian history can contribute to and benefit from new transnational approaches to history Through an examination of such diverse subjects as film modernity immigration politics and romance Connected Worlds weaves an historical matrix which transports the reader beyond the local into a realm which re defines the meaning of humanity in all its complexity Contributors include Tony Ballantyne Desley Deacon John Fitzgerald Patrick Wolfe and Angela Woollacott

Cycles of Conflict, Centuries of Change Elisa Servín, Leticia Reina, John Tutino, 2007-07-17 Anthology about three of the persistent crises that have wracked Mexican society throughout its modern history asking why these ruptures occurred why they mobilized Mexicans of all social classes and why some led to significant political transformation

The Evolution of the Property Relation A. Davis, 2015-02-04 Evolution of the Property Relation defines an approach to economics which is centered around the concept of property and explores the historical evolution of the relationship of the individual private property and the state and the distinctive changes wrought by the emergence of the market

In the Footsteps of Flora Tristan Máire Fedelma Cross, 2020-09-03 In the Footsteps of Flora Tristan is the first ever study devoted to Jules Puech 1879 1957 and is a double biography that examines his life s work on Flora Tristan 1803 1844 feminist and socialist It begins by examining newly found press reports of Flora Tristan during her lifetime and subsequently then positions Puech s discovery of her as a postgraduate student in Paris in the 1900s It continues with an account of how he embarked on the first in depth biography published in 1925 Puech was unmatched in his expertise as a writer on Flora Tristan having discovered her papers through his numerous political connections and having become a historian of Proudhon s legacy on the international aspirations of the labour movement Together with his wife Marie Louise Puech ne Milhau 1876 1966 suffragist feminist he was a militant in the early twentieth century pacifist movement that advocated international arbitration His research on Flora Tristan was enriched by his other projects but was thwarted by the wars of 1914 1918 and 1940 1945 The circumstances of the long gestation of Puech s biography are drawn from his letters and papers hitherto unseen The correspondence curated brings a new understanding to the multi faceted nature of Puech s activism and rate of progress in the publication of his findings on his subject Flora Tristan

Routledge Handbook of Historical International Relations Benjamin de Carvalho, Julia Costa Lopez, Halvard Leira, 2021-06-28 This handbook presents a comprehensive concise and accessible overview of the field of Historical International Relations HIR It summarizes and synthesizes existing contributions to the field while presenting central themes approaches and methodologies that have driven the development of HIR providing the reader with a sense of the diversity and research dynamics that are at the heart of this field of study The wide range of topics covered are grouped under the following headings Traditions Demonstrates the wide variety of approaches to HIR Thinking International Relations Historically Different ways of thinking IR historically share some common concerns and areas for further investigation Actors Processes and Institutions Explores the processes actors practices and institutions that constitute the core objects of study of many HIR scholars Situating Historical International Relations Critically reflects about

Creating the British Atlantic Jack P. Greene, 2013-04-29 Set mostly within an expansive British imperial and transatlantic framework this new selection of writings from the renowned historian Jack P Greene draws on themes he has been developing throughout his distinguished career In these essays Greene explores the efforts to impose Old World institutions identities and values upon the New World societies being created during the colonization process He shows how transplanted Old World components political legal and social were adapted to meet the demands of new economically viable expansive cultural hearths Greene argues that these transplantations and adaptations were of fundamental importance in the formation and evolution of the new American republic and the society it represented The scope of this work allows Greene to consider in depth numerous subjects including the dynamics of colonization the development and character of provincial identities the relationship between new settler societies in America and the emerging British Empire and the role of cultural power in social and political formation

Conceived in Crisis Christopher R. Pearl, 2020-08-06 Conceived in Crisis argues that the American Revolution was not just the product of the Imperial Crisis brought on by Parliament's attempt to impose a new idea of empire on the American colonies To an equal or greater degree it was a response to the inability of individual colonial governments to deliver basic services which undermined their legitimacy Factional bickering over policy violent extralegal regulations and the dreadful experiences of conducting an imperial war while governing a demographically growing and geographically expanding population all led colonists and imperial officials to consider reforming the colonial governments into more powerful and coercive entities Using Pennsylvania as a case study Christopher Pearl demonstrates how this history of ineffective colonial governance precipitated a process of state formation that was accelerated by the demands of the Revolutionary War The powerful state governments that resulted dominated the lives of ordinary people well into the nineteenth century Conceived in Crisis makes sense of the trajectory from weak colonial to strong revolutionary states and in so doing explains the limited success of efforts to consolidate state power at the national level during the early Republican period

Unveiling the Power of Verbal Beauty: An Mental Sojourn through **Revolutionary Currents Nation Building In The Transatlantic World**

In a world inundated with monitors and the cacophony of fast conversation, the profound power and psychological resonance of verbal beauty usually fade into obscurity, eclipsed by the constant barrage of sound and distractions.
