Linguistics, 1991 **Classical Chinese Literature: From antiquity to the Tang dynasty** John Minford, Joseph S. M. Lau, 2002 Contains English translations of Chinese writings drawn from throughout a period of four hundred years including poems drama fiction songs biographies and early works of philosophy and history arranged chronologically and by genre with introductory quotes and comments Sustainable Poetry Leonard M. Scigaj, 2021-12-15 Focusing on the work of A R Ammons Wendell Berry W S Merwin and Gary Snyder author Leonard Scigaj shows that just as a sustainable society does not depreciate its resource base so a sustainable poetry does not restrict interest to language Over the past thirty years many poets have shown an increasing sensitivity to ecological thinking But critics trained in poststructuralist language theory often

fail to explore the substance of ecopoetry Scigaj is the first to define ecopoetry as separate and distinct from nature or environmental poetry marked by its concern with balancing the interests of human beings with the needs of nature Just as science learned that the earth was not the center of the universe ecopoetry insists on the recognition that humans are not at the center of the natural world

H. Hinsley,Francis Harry Hinsley,1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau

Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War
