Secrets of the Widow's Son (Aus/Nz) Burstein Dan Staff, 2005-10-13 The phenomenon continues With The Da Vinci Code still breaking records and writing new and unprecedented chapters in the history of publishing fans of The Da Vinci Code are abuzz with speculation about the forthcoming sequel The Solomon Key Secrets of the Widow's Son is itself an unprecedented book concept Relying on extensive investigative reporting and intellectual sleuthing it is an explorer's field guide to understanding the main themes ideas symbols and historical issues which author Dan Brown will most likely utilise in The Solomon Key months before this much awaited sequel to The Da Vinci Code is even published Secrets of the Code told the story of how the riddle embedded in The Da Vinci Code's dust cover pointed to Dan Brown's next book selected letters appearing on the book jacket's flaps slightly bolder than others spelled out the mystically alluring question Is There No Help for the Widow's Son Research led David Shugarts and his team to understand the role of the Widow's Son in the history of Freemasonry biblical apocrypha Mormonism and various secret societies and occult belief systems Dan Brown has since confirmed that his next book is indeed about the Masons and that protagonist Robert Langdon of Da Vinci Code and Angels and Demons fame would be back to lead us on a symbolic treasure hunt through the art architecture and secret codes of the American capital Washington DC Let's be clear this book is not designed to be a plot spoiler for The Solomon Key It is not trying to guess who will be murdered or which fictional mysteries cover ups and conspiracies will be invented to drive the plot of this story

Instead Secrets of the Widow's Son is about the ideas and issues that will form the background and context for The Solomon Key

33 Keys to Unlocking the Lost Symbol Jr Thomas R. Beyer, 2010-10-08 This book is designed to appeal to fans of Dan Brown's Robert Langdon novels particularly The Lost Symbol 2009 Beyer explores some of the book's codes puzzles and historical references Although he does raise some interesting questions How does The Lost Symbol's original title The Solomon Key help us to understand the meaning and importance of one of the book's characters he also spends a lot of time on matters peripheral to his theme Why for example in a book that is presumably being read by someone who is intimately familiar with Brown's novels and their hero Robert Langdon would the author devote nearly 2 full pages to a physical description of the character and an explanation of what he does for a living Similarly the author's lengthy travelogue like description of The Lost Symbol's setting Washington D C could be replaced by a simple list of elements from the Brown novel that actually exist in Washington freeing up 30 odd pages for meatier pursuits Recommended for readers who can't get enough of Brown and Langdon but for a better and much more entertaining exploration of Brown's techniques try The Da Vinci Cod 2005 the hilarious Da Vinci Code parody written by A R R Roberts
