Dany Nobus, Malcolm Quinn

Seductions Of Psychoanalysis Freud Lacan And Derrida:

The Seductions of Psychoanalysis John Forrester, 1991-10-25 Reflection on the history of psychoanalysis its conceptual foundations and its relation to other disciplines *Invention in the Real* Linda Clifton, 2018-05-08 The Papers of the Freudian School of Melbourne Volume 24 give testament to that quasi suicidal risk taken by analysts and members of the school in applying not a technique but the Freudian method to their clinical practice to their seminars to their writing and to the functioning of the School itself In pursuing a practice that seeks to avoid the inertia spoken of by Lacan the contributors to this volume take the risk of encountering the impasses of the clinic today and the incompleteness of Lacanian theory with invention Being marked by the residue of the psychoanalytic clinic they continue to work their transference to that clinic and to the texts of Freud and Lacan Included in this volume is a paper by Oscar Zentner founder of the School as well as translations of papers and extracts from books by analysts from overseas *Modern Criticism and Theory* Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories *Modern Criticism and Theory* has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today **Beyond Postmodernism** Roger Frie, Donna Orange, 2013-12-16 *Beyond Postmodernism* identifies ways in which psychoanalysis has moved beyond the postmodern debate and discusses how this can be applied to contemporary practice Roger Frie and Donna Orange bring together many of the leading authorities on psychoanalytic theory and practice to provide a broad scope of psychoanalytic viewpoints and perspectives on the growing interdisciplinary discourse between psychoanalysis continental philosophy social theory and philosophy of mind Divided into two parts

Psychoanalytic Encounters with Postmodernism and Psychoanalysis Beyond Postmodernism this book elaborates and clarifies aspects of the postmodern turn in psychoanalysis furthers an interdisciplinary perspective on clinical theory and practice contributes to new understandings of theory and practice beyond postmodernism Beyond Postmodernism New Dimensions in Clinical Theory and Practice provides a fresh perspective on the relationship between psychoanalysis and postmodernism and raises new issues for the future It will be of interest to practicing psychoanalysts and psychologists as well as students interested in psychoanalysis postmodernism and philosophy

Thinking in Cases John Forrester, 2017-05-23 What exactly is involved in using particular case histories to think systematically about social psychological and historical processes Can one move from a textured particularity like that in Freuds famous cases to a level of reliable generality In this book Forrester teases out the meanings of the psychoanalytic case how to characterize it and account for it as a particular kind of writing In so doing he moves from psychoanalysis to the law and medicine to philosophy and the constituents of science Freud and Foucault jostle here with Thomas Kuhn Ian Hacking and Robert Stoller and Einsteins connection emerges as a case study of two icons in the general category of the Jewish Intellectual While Forrester was particularly concerned with analysing the style of reasoning that was dominant in psychoanalysis and related disciplines his path breaking account of thinking in cases will be of great interest to scholars students and professionals across a wide range of disciplines from history law and the social sciences to medicine clinical practice and the therapies of the world

Lacan the Charlatan Peter D. Mathews, 2020-06-01 This book sets out to determine the validity of an accusation made against Jacques Lacan by Noam Chomsky in an interview in 1989 He stated that Lacan was a charlatan not that his ideas were flawed or wrong but that his entire discourse was fraudulent an accusation that has since been repeated by many other critics Examining the arguments of key anti Lacanian critics Mathews weighs and contextualizes the legitimacy of Lacans engagements with structural linguistics mathematical formalization science ethics Hegelian dialectics and psychoanalysis The guiding thread is Lacans own recurrent interrogation of authority which inhabits an ambiguous zone between mastery and charlatanry This book offers a novel contribution to the field for students and scholars of psychoanalysis philosophy sociology critical and literary theory

Knowing Nothing, Staying Stupid Dany Nobus, Malcolm Quinn, 2013-02-01 Why is stupidity sublime What is the value of a dialectics of ignorance for analysts and academics Knowing Nothing Staying Stupid draws on recent research to provide a thorough and illuminating evaluation of the status of knowledge and truth in psychoanalysis Adopting a Lacanian framework Dany Nobus and Malcolm Quinn question the basic assumption that knowledge is universally good and describe how psychoanalysis is in a position to place forms of knowledge in a dialectical relationship with non knowledge blindness ignorance and stupidity The book draws out the implications of a psychoanalytic theory of knowledge for the practices of knowledge construction acquisition and transmission across the humanities and social sciences The book is divided into two sections The first section addresses the foundations of a psychoanalytic approach to knowledge as it emerges from clinical

practice whilst the second section considers the problems and issues of applied psychoanalysis and the ambiguous position of the analyst in the public sphere Subjects covered include The Logic of Psychoanalytic Discovery Creative Knowledge Production and Institutionalised Doctrine The Desire to Know versus the Fall of Knowledge Epistemological Regression and the Problem of Applied Psychoanalysis This provocative discussion of the dialectics of knowing and not knowing will be welcomed by practicing psychoanalysts and students of psychoanalytic studies but also by everyone working in the fields of social science philosophy and cultural studies

The Freudian Robot Lydia H. Liu, 2011-05-23 The identity and role of writing has evolved in the age of digital media But how did writing itself make digital media possible in the first place Lydia H Liu offers here the first rigorous study of the political history of digital writing and its fateful entanglement with the Freudian unconscious Liu's innovative analysis brings the work of theorists and writers back into conversation with one another to document significant meetings of minds and disciplines She shows how the earlier avant garde literary experiments with alphabetical writing and the word association games of psychoanalysis contributed to the mathematical making of digital media Such intellectual convergence she argues completed the transformation of alphabetical writing into the postphonetic ideographic system of digital media which not only altered the threshold of sense and nonsense in communication processes but also compelled a new understanding of human machine interplay at the level of the unconscious Ranging across information theory cybernetics modernism literary theory neurotic machines and psychoanalysis The Freudian Robot rewrites the history of digital media and the literary theory of the twentieth century
