books I decided that I really wanted a bound and printed version The books have thousands of footnotes which doesn't work well in e book format While this translation is still in print every existing edition leaves something to be desired When I was in the Hare Krishnas I owned a complete set of their books and they were the most beautiful books you can imagine I wanted to have an edition of the complete Mahabharata that was worthy to share the same book case as those books so I decided to prepare a new edition using Create Space and offer it for sale at the lowest possible price Each volume in this edition represents many hours of work I have moved the footnotes in these volumes again thousands of them from the end of the book back to the bottoms of the pages for easier reading I have replaced archaic words like behoveth with behooves etc where it was possible to do so without rewriting the sentences where they appear I have also fixed hundreds of variant spellings and replaced obscure words like welkins and horripiated with more common ones Finally the original work did not translate the titles of the individual books so I have used the names found on Wikipedia Thus Adi Parva in the original becomes The Book Of The Beginning The illustrations are from a Hindi translation of the Mahabharata that has also fallen into the public domain <http://openlibrary.org/books/OL23365037M/Mahabharata> I have used page images provided at archive.org and have cleaned them up using The GIMP software The results speak for themselves When all the volumes are published there will be nearly 300 full page illustrations In short I have spared no effort to make this the most complete most readable and most attractive edition of the Mahabharata in English While I no longer practice the Vaishnava religion I hope that these books will meet with the approval of my former godbrothers and godsisters I do not believe that they will find anything offensive in them BHAKTA JIM
