The book comes with an accompanying CD Rom which contains inset sessions for all adults in the school, workshops specifically aimed at non-teaching personnel including mid-day supervisors, sessions for teachers and classroom assistants, classroom lessons and activity sheets for the children which can form part of your school's personal social and health education (PSHE) programme. This book is a whole school training programme for raising self esteem and is essential reading for all those working in primary education. Margaret Collins is a former headteacher of infant and first schools. She is now Senior Visiting Fellow in the School of Education at the University of Southampton. She researches children's perceptions of health education topics, writes teaching materials for children's books and articles on PSHE.

Feeling Good Noreen Wetton, Peter Cansell, 1993-01

Self-Esteem in Children with Special Educational Needs Peter W. Gurney, 2018-09-03 First published in 1988, the mounting concern in schools over widespread failure in academic achievement, greater disaffection in children and the lack of confidence in many school leavers are highlighted by the difficulties experienced by children who have special educational needs. Within this group, the importance of the child's evaluation of him or herself, i.e. self esteem, is a neglected issue. This book investigates how the level of self esteem appears to influence social behaviour and school performance in children with special educational needs. It discusses the practical steps that can be taken to assess and enhance self esteem in children with special needs and evaluates their effectiveness. The author emphasises the discrepancy between the performance of children who have special educational needs in ordinary classrooms with that achieved in special settings. He argues that the negative impact on a child's self esteem created by placing him/her in an ordinary
