Transnational Mobilities in Early Modern Theater Robert Henke, Eric Nicholson, 2016-02-24 The essays in this volume investigate English Italian Spanish German Czech and Bengali early modern theater placing Shakespeare and his contemporaries in the theatrical contexts of western and central Europe as well as the Indian sub continent Contributors explore the mobility of theatrical units genres performance practices visual images and dramatic texts across geo linguistic borders in early modern Europe Combining distant and close reading a systemic and structural approach identifies common theatrical units or theatergrams as departure points for specifying the particular translations of theatrical cultures across national boundaries The essays engage both dramatic approaches e g genre plot action and the dramatic text and theatrical perspectives e g costume the body and gender of the actor Following recent work in mobility studies mobility is examined from both material and symbolic angles revealing both ample transnational movement and periodic resistance to border crossing Four final essays attend to the practical and theoretical dimensions of theatrical translation and adaptation and contribute to the book's overall inquiry into the ways in which values properties and identities are lost transformed or gained in movement across geo linguistic borders

Cuestiones naturales Séneca, 2016-08-05 Las Cuestiones Naturales es una constituida por un conjunto de ocho estudios sobre diversos fenómenos naturales En los ocho libros de las Cuestiones naturales Séneca consagra todos sus esfuerzos a descubrir las causas de diversos fenómenos naturales que la ciencia antigua clasificaba en el campo de la meteorología aguas subterráneas crecida del Nilo vientos nieve y granizo terremotos cometas meteoros luminosos rayos y truenos Pero las Cuestiones naturales son mucho más que un simple tratado meteorológico Es una obra que aspira a conseguir un conocimiento racional del mundo entendido como la actividad más digna y liberadora del hombre y especialmente como la única forma de acercamiento a ese dios que se oculta a nuestros ojos y al que solo podemos llegar con la fuerza de la razón Interesantes reflexiones teológicas y epistemológicas enriquecen la obra Morals and Villas in Seneca's Letters John Henderson, 2004-03-04 John Henderson explores three letters of Seneca describing visits to

Roman villas and surveys the whole collection to show how these villas work as designs for contrasting lives Seneca's own place is ageing drastically a recent Epicurean's paradise is a seductive oasis away from the dangers of Nero's Rome once a fortress of the dour Rome of yesteryear the legendary Scipio's lair was now a shrine to the old morality Seneca revels in its primitive bath house dark and cramped before exploring the garden with the present owner Seneca brings the philosophical epistle to Latin literature creating models for moralizing which feature self criticism parody and re animated myth Virgil and Horace come in for rough handling as the Latin moralist wrests ethical practice and writing away from Greek gurus and texts and into critical thinking within a Roman context Here is powerful teaching on metaphor and translation on self

transformation and cultural tradition William Touris OFM, The Contemplacioun of Synnaris Alasdair A. MacDonald, J.

Craig McDonald, 2022-05-20 The Contemplacioun of Synnaris by the Observant Franciscan William Touris written c 1494 and evidently intended for King James IV of Scotland is a significant and much copied work of Older Scots although the earliest surviving witness is the English print by Wynkyn de Worde 1499 The Contemplacioun was the very first work of Older Scots literature to be translated and to be printed The poem's seven sections comprise a course of meditations for Holy Week Richard Fox bishop of Durham commissioned the English print in which the stanzas were preceded by Latin sententiae biblical medieval and ancient The work retained sufficient interest to re emerge in separate versions in both Scotland 1568 and England 1578 drastically revised for Protestant readers **Lucan's Egyptian Civil War** Jonathan Tracy, 2014-09-22

This book explores Lucan's highly original deployment of contradictory Greco Roman stereotypes about Egypt utopian vs xenophobic as a means of reflecting on the violent tensions within his own society conservatism vs Caesarism Lucan shows the two distinct facets of first century BC Egypt namely its ancient Pharaonic heritage and its latter day Hellenistic culture under the Ptolemies not only in spiritual conflict with one another via the opposed characters of Acoreus priest of old Memphis and the Alexandrian courtier Pothinus but also inextricably entangled with the corresponding factions of the Roman civil war and of Nero's Rome Dr Tracy also connects Lucan's portrayal of Egypt and the Nile to his critical engagement with Greco Roman discourse on natural science particularly the Naturales Quaestiones of his uncle Seneca the Younger Lastly he examines Lucan's attitude toward the value of cultural diversity within the increasingly monocultural environment of the Roman Mediterranean

The Unity of the Proslogion John Bayer, 2021-09-20 Interpretations of Anselm's Proslogion range between the extremes of rationalism and fideism because of the challenge of unifying its philosophical and devotional aspects In this book Bayer argues that a monastic interpretation or an interpretation that takes seriously the intellectual significance of our existential commitments offers a powerful compromise Through an extensive study of Anselm's spirituality especially as it is manifested in his letters and homiletic works coupled with a profound study of Anselm's philosophy of language in the De grammatico and Monologion Bayer aims to reveal the Anselmian unity of life and thought and thereby also the harmony between faith and reason In this way he defends the Proslogion as a unified and probative argument

The Look of Van Dyck John Peacock, 2017-07-05 Based on a close study of Van Dyck's Self portrait with a Sunflower this book examines the picture's context in the symbolic discourses of the period and in the artist's oeuvre. The portrait is interpreted as a programmatic statement made in the ambience of the Caroline court after Van Dyck's appointment as Principal Painter in Ordinary. This statement formulated in appropriately visual terms characterizes painting as a way of looking and seeing, a mode of vision. In making such a claim, the artist steps aside from the familiar debate about whether painting was a manual or an intellectual discipline and moves beyond any idea of it as simply a means of representing the external world: the painter's definitive faculty of vision can reach further than those realities which present themselves to the eye. John Peacock analyses the motif of looking, the ways in which figures regard or disregard each other throughout Van Dyck's work, and the images of the sunflower and the gold chain in this particular portrait to reveal what is essentially an idealist conception of pictorial art. He contradicts previous opinions that the artist was pedestrian in his thinking by showing him to be familiar with a range of ideas current in contemporary Europe about painting and the role of the painter.
