The Laxdœla Saga A. Margaret Arent Madelung, 2020-05-01 This study is an unorthodox approach to the origin historicity and authorship of the anonymous Icelandic sagas Following the publication of her translation of the Laxd la Saga in this volume Madelung uses her deep knowledge of the text to demonstrate the literary quality and aesthetic structure of the work especially the function of repetition She shows that the Saga contains a historical political analogy between the period in which the story is set the eleventh century and the saga author s own time two centuries later The apparently straightforward prose is camouflage and the symbolism provides the key to the hidden analogy
