Shorts A Gateway Into New Markets:

Shorts Colleen Foye Bollen,1996 *Shorts A Gateway Into New Markets* guides you through the nuts and bolts of writing short articles for magazines business publications and newspapers This timely resource discusses how to condense volumes of material cut unnecessary words use strong verbs develop a solid focus and stick to the assigned word count This book explains how writers and editors both benefit from this trend toward shorter articles It outlines strategies for targeting specific publications and tells writers how shorts can be transformed into other money making ventures This book covers market research ways to develop positive relationships with editors how to deal with writer s block and a variety of other topics

SME Internationalization Strategies Noémie Dominguez,2018-03-15 Internationalization is a strategic issue for companies as it is today the central axis for the development of small and medium sized enterprises SMEs Market expansion and the growing importance of emerging markets offer new development opportunities for SMEs to use innovative strategies such as head deck strategies to effectively penetrate these markets This book focuses on understanding these new strategies Why do SMEs use head of bridge strategies in order to internationalize How do they deploy such strategies abroad Based on the example of five manufacturing SMEs which are at different stages of internationalization this book highlights the main motivations stages of deployment but also difficulties encountered in this direction This book is a tool for assessing potential locations and provide managers with a new alternative in terms of internationalization enabling rapid identification of key stakeholders adapting their international development plan and anticipating potential pitfalls

Gateways to Globalisation François Gipouloux,2011-01-01 *Gateways to Globalisation* makes a significant contribution to the understanding of the emerging East Asian regional system of financial centres within the broader global context and how they interact within the global circuits of finance In particular it focuses on the emergence of the financial centres of Tokyo Shanghai Hong Kong and Singapore and the attempts by both national governments and the private sector to position them so that they become more competitive in the global and regional context The volume shows much historical sensitivity showing that while the increase in the importance of these financial centres is principally post 1945 their emergence has been aided by the deep historical roots that go back several centuries The book will be of great value in the interpretation of the role of East Asia in what many commentators have called the Asian Century Terry McGee The University of British Columbia Canada *Gateways to Globalisation* cogently demonstrates that Hong Kong Singapore Beijing Shanghai and Tokyo operate as gateways to Asia and as linchpins for Asia to the global economy The authors theoretical frameworks and original empirical research support provocative findings that challenge conventional thinking Tokyo may decline as a global city As Beijing and Shanghai ride China s rapid growth they face uncertainty about its future openness to the global economy Vibrant Hong Kong and Singapore confront challenges from other rising centers David Meyer Washington University in St Louis US This book distinguishes itself in its emphasis on historical and cultural links as well as contemporary globalization

processes on large East Asian cities Arising from a research program and four seminars the editor has picked scholars who can relate past and present trends Historical links of Japanese cities are explored Leading world cities in the region are analysed in their evolution from entrepôts to modern gateways service integrators transport hubs and financial centres It is a study of the integration and interrelationships of East Asian cities in the global economy Yue man Yeung Chinese University of Hong Kong Asia's trading and financial hubs have become global cities which frequently have more in common and closer linkages with each other than with their corresponding hinterlands As this book expounds these global cities illustrate to what extent world trends deeply penetrate and permeate the national territorial interiors and processes that were otherwise presumed to be controlled by the State Gateways to Globalisation is soundly based on accurate and extensive research including perspectives from historians economists geographers and sociologists from China Japan Singapore and Hong Kong in order to grasp the regional character of trade and finance beyond national borders and traditional academic frameworks The book documents that today major urban centres such as Tokyo Beijing Singapore Hong Kong and Shanghai situated on the periphery of the maritime corridor of East Asia form a system characterised by the intensity of their economic linkages and integration into the world economy Since the mid 1980s these major Asian cities have become the worldwide oriented centres for production trade finance and research This collective effort offers in addition to its regional framework up to date information that strengthens an original trans disciplinary analysis of a region and its economic characteristics which will be of interest to readers within academia and beyond This well detailed and thorough work will interest academics and post graduate students in economics geography finance history regional studies and Asian studies as well as those who have a general interest in globalisation
