Parts. Dmitri SHOSTAKOVICH,1961 String quartet no. 8, op. 110 Dmitriï Dmitrievich Shostakovich,1961 The String Quartet no 8 in C minor opus 110 the most loved of all Shostakovich s quartets has a duration of about twenty minutes Highly popular it is performed more frequently than all of the other fourteen together Despite its popularity the work evokes feelings of gloom and melancholy The Eighth is the only substantial work that Shostakovich composed outside Russia It was written in 1960 whilst Shostakovich was visiting the former Communist State of East Germany The anguish of the quartet according to Shostakovich reflected his thoughts on visiting the ruined city of Dresden But this explanation did not long

survive Shostakovich's death in 1975. In 1979 a book appeared in the West entitled *Testimony* which claimed to be the composer's memoirs, told to and subsequently edited by an associate Solomon Volkov. The book was highly controversial because it showed Shostakovich not as the passive supporter of the Soviet regime, the role in which Western critics had placed him, but as a closet dissident. Protests followed the book's publication. It was first accused of being a forgery, which in parts it was, but it was also hailed as reflecting the spirit of Shostakovich's thoughts, which it is now generally believed to do. <http://www.quartets.de/compositions/ssq08.html> **Shostakovich's String Quartets** Bernhard Harrison, 1981

Shostakovich's String Quartet No. 15 in E-flat Minor, Op. 144 Brian Thomas Sanders, 2021. There has been ample increase in music theoretical analysis in Shostakovich's late works, yet there has been one composition that has comparatively evaded this attention: String Quartet no. 15 in E-flat minor, op. 144. It has been approached with hermeneutics and descriptive analysis, however, music theoretical analysis is lacking. The quartet has certain musical characteristics that have not been analyzed, which leaves the perspective of this work incomplete. An unfortunate result is that the mixture of musicological and theoretical analysis is a daunting task. According to Patrick McCreless, any depth would lead quickly into a world of intriguing musical relationships and hermeneutic enigmas. The aforementioned musical relationships and hermeneutic enigmas are a characteristic of Shostakovich scholarship. Music theory and musicology are equally utilized in Shostakovich research. Music theorists inevitably become musicologists out of necessity. This enigma results in an imbalance between the dual approach of musicological and theoretical approaches, where hermeneutics have been the majority of analysis. However, scholars such as Stephen C. Brown, Jonathan Drury, Levon Hakobian, and Michael Rofe have recently used music theory and analysis to better understand Shostakovich's late period style. Though the literature has increased, String Quartet no. 15 remains in the shadows of other late period works. My thesis will provide a much-needed music theoretical analysis of the quartet. I will provide analysis of important musical features that have not been analyzed while centering on my primary focus: the *ic1* becoming a thread that links the plot of the quartet within its movements. Dmitrievich Shostakovich, Edexcel Foundation, 2000. *String quartet no. 8* Quincy Porter, 1953. **Dmitri Shostakovich's String Quartet No. 3 in F Major, Op. 73** Rang Hee Kim, 2010. Shostakovich wrote his String Quartet No. 3 in F Major, Op. 73 in 1946 at the age of forty, right after the Second World War and not long after the completion of his Ninth Symphony. The Third Quartet is a large symphonic work and is known as one of the compositions with which Shostakovich was the most pleased. It not only shows Shostakovich's absolute mastery as a chamber music composer skillfully deploying the string quartet to convey his entirely distinctive musical personality, but also shows many of his compositional characteristics. This treatise will provide a historical background and the influences on the Third Quartet, along with a brief biography of the composer and information on his string quartets. In addition, the quartet will be analyzed using traditional descriptive procedures, providing insights into possible interpretive strategies based on a comparison of selected recordings by three
