**Acts of Faith and Imagination** Brent Little, Mark Bosco, SJ, 2023-08-04 Acts of Faith and Imagination wagers that fiction written by Catholic authors assists readers to reflect critically on the question what is faith To speak of a person's faith life is to speak of change and development As a narrative form literature can illustrate the dynamics of faith which remains in flux over the course of one's life Because human beings must possess faith in something whether religious or not it inevitably has a narrative structure faith ebbs and flows flourishes and decays develops and stagnates Through an exploration of more than a dozen Catholic authors novels and short stories Brent Little argues that Catholic fiction encourages the reader to reflect upon their faith holistically that is the way faith informs one's affections and how a person conceives and interacts with the world as embodied beings Amidst the diverse stories of modern and contemporary fiction a consistent pattern emerges Catholic fiction portrays faith at its most fundamental often unconscious level as an act of the imagination Faith is the way one imagines themselves others and creation A person's primary faith conditions how they live in the world regardless of the level of conscious reflection and regardless of whether this is a religious faith Acts of Faith and Imagination investigates the creative depth and vitality of the Catholic literary imagination by bringing late modern Catholic authors into dialogue with more contemporary ones Readers will then consider well known works such as those by Graham Greene Flannery O'Connor and Muriel Spark in the fresh light of contemporary stories by Toni Morrison Alice McDermott Uwem Akpan and several others

Review of Contemporary Fiction Story, 1998 **Listening**, 2005 *The Critic*, 1991 **Forging the Past** Katrina B. Olds, 2015-08-25

Spain's infamous false chronicles were alleged to have been unearthed in 1595 in a monastic library deep in the heart of the German speaking territories of the Holy Roman Empire by the Jesuit priest Jerónimo Román de la Higuera Though rife with anachronisms and chronological inaccuracies these four volumes of invented truths about Spanish sacred history radically transformed the religious landscape in Counter Reformation Spain and were not definitively exposed as forgeries until centuries later after nearly two hundred years of scholarly debate In this fascinating study Katrina B Olds explores the history author and legacy of one of the world's most compelling and consequential frauds The book examines how a relatively obscure Jesuit priest so successfully fabricated a set of supposedly historical documents that they were accepted as authentic for generation after generation The chronicles influence was so powerful in fact that they continued to shape scholarly discourse religious practice and local heritage throughout Spain well into the twentieth century despite having been debunked as forgeries in the eighteenth Olds's fascinating analysis brings together intellectual cultural religious and political history while reinvigorating an ongoing debate on the uses and abuses of history and the nature of historical and religious truth The Cornhill Magazine William Makepeace Thackeray, 1925 Cro-Magnon Brian Fagan, 2011-05-17

Cro-Magnons were the first fully modern Europeans not only the creators of the stunning cave paintings at Lascaux and elsewhere but the most adaptable and technologically inventive people that had yet lived on earth The prolonged encounter between the Cro-Magnons and the archaic Neanderthals between 45,000 and 30,000 years ago was one of the defining moments of history The Neanderthals survived for some 15,000 years in the face of the newcomers but were finally pushed aside by the Cro-Magnons' vastly superior intellectual abilities and cutting edge technologies What do we know about this remarkable takeover Who were these first modern Europeans and what were they like How did they manage to thrive in such an extreme environment And what legacy did they leave behind them after the cold millennia This is the story of a little known yet seminal chapter of human experience From publisher description Library Journal, 1992 **Cambodian Buddhism in the United States** Carol A. Mortland, 2017-07-25

Cambodian Buddhism in the United States is the first comprehensive anthropological study of Khmer Buddhism as practiced by Khmer refugees in the United States Based on research conducted at Khmer temples and sites throughout the country over a period of three and a half decades Carol A Mortland uses participant observation open ended interviews life histories and dialogues with Khmer monks and laypeople to explore the everyday practice of Khmer religion including spirit beliefs and healing rituals This ethnography is enriched and supplemented by the use of historical accounts reports memoirs unpublished life histories and family memorabilia painstakingly preserved by refugees Mortland also traces the changes that

**The Legacy of Slavery in Coastal Kenya** Herman Ogoti Kiriama,2022-10-26 To either achieve or resist domination some postcolonial and post slavery societies appropriate and contest the current memories on slavery This occurs more often where the sites of slavery are tourist attractions that positively empower the communities through economic benefits resulting in an emergence of new memories of the past and a constant construction and reconstruction of identity In The Legacy of Slavery in Coastal Kenya Memory Identity and Heritage Herman Ogoti Kiriama examines how two communities in coastal Kenya one whose identity is contested by the community members and another one who are seeking recognition have tried to remember their past and the role that tourism has played in the process of remembering and or forgetting Kiriama argues that heritage memory and identity are fluid and individuals can claim several identities depending on their socio politico economic contexts
