**Siberian Survival** Andrei V. Golovnev, Gail Osherenko, 2018-09-05 The Yamal Peninsula in northwestern Siberia is one of the few remaining places on earth where a nomadic people retain a traditional culture. Here in the tundra the Nenets, one of the few indigenous minorities of the Russian North, follow a lifestyle shaped by the seasonal migrations of the reindeer they herd. For decades under Soviet rule they weathered harsh policies designed to subjugate them. How the Nenets successfully resisted indoctrination from a powerful totalitarian state and how today they face new challenges to the survival of their culture are the subjects of this compelling and lavishly illustrated book. The authors are one the head of a team of Russian ethnographers who have spent many seasons on the peninsula, the other an American attorney specializing in issues affecting the Arctic. They introduce the rich culture of the Nenets. They recount how Soviet authorities attempted to restructure the native economy by organizing herders into collectives and redistributing reindeer and pasture lands as well as to eradicate the native belief system by killing shamans and destroying sacred sites. Over the past century the Nenets have also witnessed the piecemeal destruction of their fragile environment and the forced settlement of part of their population. To understand how this society has survived against all odds, the authors consider the unique strengths of the culture and the characteristics of the outside forces confronting it. Today the Yamal is known for a new reason: it is the site of one of the world's largest natural gas deposits. The authors discuss the dangers Russian and Western developers present to the Nenets people and recommend policies for land use which will help to preserve this remarkable culture. **The Siberian World** John P. Ziker, Jenanne Ferguson, Vladimir Davydov, 2023-03-29 The *Siberian World* provides a window into the expansive and diverse world of Siberian society, offering valuable insights into how local populations view their environments, adapt to change, promote traditions, and maintain infrastructure. Siberian society comprises more than 30 Indigenous groups, old Russian settlers, and more recent newcomers and their descendants from all over the former Soviet Union and the Russian Federation. The chapters examine a variety of interconnected themes, including language revitalization, legal pluralism, ecology, trade, religion, climate change, and co-creation of practices and identities with state programs and policies. The book's ethnographically rich contributions highlight Indigenous voices, important theoretical concepts, and practices. The material connects with wider discussions of perception of the environment, climate change, cultural and linguistic change, urbanization, Indigenous rights, Arctic politics, globalization, and sustainability resilience. The *Siberian World* will be of interest to scholars from many disciplines, including Indigenous studies, anthropology, archaeology, geography, environmental history, political science, and sociology. Chapter 25 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license. *Research Handbook on Communicating Climate Change* David C. What it Means to be a Herdsman Joachim Otto Habeck, 2005 In this book author Joachim Otto Habeck takes the reader to the tundra in the Far North of the Russian Federation describing and interpreting the practice of reindeer herding on the land His vivid account of the everyday life of Komi reindeer herders and their family members as they interact with their bosses the town the market and oil companies reveals both the reach of their agency and its limitations Through a meticulous analysis of each of these domains Habeck shows how public discourse about reindeer husbandry as a traditional life style derives from outside the Komi reindeer herding communities yet it has powerful effects on the local actors ability to frame their own existence He argues that the concept of tradition despite its many positive connotations places Komi reindeer herders in a golden cage which leaves no space for acknowledging their drive to innovation and flexibility

Archaeology Barry W. Cunliffe, Wendy Davies, Colin Renfrew, 2002 Twenty six leading scholars from around the world have come together to celebrate the strengths the energies and the sheer intellectual excitement of their discipline They unashamedly proclaim that over the last hundred years archaeology has transformed itself from a genteel antiquarian pursuit deeply rooted in the classical tradition to a rigorous and demanding discipline spanning the humanities and the sciences yet at the same time one widely accessible to the public at large The contributors show how our understanding of the past has changed reveal the exciting ideas under current debate and offer their visions of the future The result is a remarkable overview of world archaeology focusing on new and unexpected themes at the cutting edge of the discipline

Red Ties and Residential Schools Alexia Bloch, 2016-03-22 In this book Alexia Bloch examines the experiences of a community of Evenki an indigenous group in central Siberia to consider the place of residential schooling in identity politics in contemporary Russia Residential schools established in the 1920s brought Siberians under the purview of the Soviet state and Bloch demonstrates how in the post Soviet era a time of jarring social change these schools continue to embody the salience of Soviet cultural practices and the spirit of belonging to a collective She explores how Evenki intellectuals are endowing residential schools with new symbolic power and turning them into a locus for political mobilization In contrast to the binary model of oppressed oppressor underlying many accounts of state indigenous relations Bloch s work provides a complex picture of the experiences of Siberians in Soviet and post Soviet society Bloch s research conducted in a central Siberian town during the 1990s is ethnographically grounded in life stories recorded with Evenki women surveys of households navigating histories of collectivization and recent rampant privatization and in residential schools and in museums both central to Evenki identity politics While considering how residential schools once targeted

marginalized reindeer herders especially young girls for socialization and assimilation Bloch reveals how class region and gendered experience currently influence perspectives on residential schooling The analysis centers on the ways vehicles of the Soviet state have been reworked and still sometimes embraced by members of an indigenous community as they forge new identities and allegiances in the post Soviet era **The Conquest of the Russian Arctic** Paul R.

Josephson,2014-06-09 Spanning nine time zones the Russian Arctic was mostly unexplored before the twentieth century Paul Josephson describes the massive effort under Stalin to assimilate the Arctic into the Soviet empire effects still being felt today as Putin redoubles efforts to secure the Arctic which he sees as key to Russia s economic and military status The Woman in the Shaman's Body Barbara Tedlock, Ph.D.,2005-12-27 A distinguished anthropologist who is also an initiated shaman reveals the long hidden female roots of the world s oldest form of religion and medicine Here is a fascinating expedition into this ancient tradition from its prehistoric beginnings to the work of women shamans across the globe today Shamanism was not only humankind s first spiritual and healing practice it was originally the domain of women This is the claim of Barbara Tedlock s provocative and myth shattering book Reinterpreting generations of scholarship Tedlock herself an expert in dreamwork divination and healing explains how and why the role of women in shamanism was misinterpreted and suppressed and offers a dazzling array of evidence from prehistoric African rock art to modern Mongolian ceremonies for women s shamanic powers Tedlock combines firsthand accounts of her own training among the Maya of Guatemala with the rich record of women warriors and hunters spiritual guides and prophets from many cultures and times Probing the practices that distinguish female shamanism from the much better known male traditions she reveals The key role of body wisdom and women s eroticism in shamanic trance and ecstasy The female forms of dream witnessing vision questing and use of hallucinogenic drugs Shamanic midwifery and the spiritual powers released in childbirth and monthly female cycles Shamanic symbolism in weaving and other feminine arts Gender shifting and male female partnership in shamanic practice Filled with illuminating stories and illustrations The Woman in the Shaman s Body restores women to their essential place in the history of spirituality and celebrates their continuing role in the worldwide resurgence of shamanism today Reindeer herder's thinking Kirill Istomin,Mark Dwyer,2021-11-19 This book is based on more than a decade of anthropological fieldwork and scholarship among Komi and Nenets nomadic reindeer herders of North eastern Europe and North western Siberia Focused on herding techniques and the way of life of arctic nomads the authors cogitate the unique attributes of reindeer herding and how they influence the herder s cognitive skills Two central cognitive abilities are explored the ability to find their way in expansive and homogenous arctic tundra terrain often in extreme weather conditions and navigating with neither maps nor navigation equipment and the ability to decipher and predict reindeer behaviour This book acknowledges and reviews current theories and models of human cognition developed in cognitive science The authors build bridges between cognitive science and anthropology by presenting further case studies that reveal and demystify cognitive

mechanisms Axiomatically they challenge the field of anthropology by demonstrating fundamental weaknesses and debunking anthropological theories that ignore cognitive facts The authors advocate that the field of anthropology should no longer isolate itself from other scientific disciplines since in doing so its marginalisation will amplify and its relevance diminish This book exemplifies the contribution of anthropology to building greater understanding of human cognition However this can only be achieved through embracing advancements made in other disciplines rather than ignoring their existence

Living with Koryak Traditions Alexander D. King, 2011 An examination of the globalization of culture and the invention of tradition and what it means to modern Koryak people living in post Soviet Siberia *Reindeer and Caribou* Morten Tryland, Susan Kutz, 2018-11-09 This book is a comprehensive presentation of health and diseases in reindeer and caribou or just Rangifer a key Circumarctic species with broad social and ecological value It is an essential reference for anyone interested in the biology and health of wild or semi domesticated reindeer and caribou and is more broadly relevant for those with interests in other species of free ranging and captive cervids Beginning with a general introduction to Rangifer as a species it then focuses on Rangifer health as a concept and describes the determinants of health at an individual and population level Chapters cover a range of topics from nutrition and feeding to stress non infectious and infectious diseases meat hygiene capture and restraint diagnosis and treatment of health issues and finally potential impacts of climate change on health of Rangifer Reindeer and Caribou Health and Disease compiles extensive research and experience based information on issues ranging from drug doses for chemical immobilization blood chemistry values and raising an orphaned calf In addition it contains hundreds of high quality colour illustrations that contribute to its value as a diagnostic resource for recognizing various parasites pathogens and signs of disease both in live and dead animals Each chapter is followed by a comprehensive list of references and a list of contact information for all the contributors identifying world experts in the different areas of health for this circumpolar and fascinating species This book is compulsory reading and an indispensable resource for anyone dealing with health in reindeer and caribou including veterinarians wildlife biologists and managers reindeer herders game ranchers zoological husbandry personnel and students with wildlife health *Nomadic and Indigenous Spaces* Judith Miggelbrink, Joachim Otto Habeck, Nuccio Mazzullo, Peter Koch, 2016-05-06 This volume is devoted to aspects of space that have thus far been largely unexplored How space is perceived and cognised has been discussed from different stances but there are few analyses of nomadic approaches to spatiality Nor is there a sufficient number of studies on indigenous interpretations of space despite the importance of territory and place in definitions of indigeneity At the intersection of geography and anthropology the authors of this volume combine general reflections on spatiality with case studies from the Circumpolar North and other nomadic settings Spatial perceptions and practices have been profoundly transformed by new technologies as well as by new modes of social and political interaction How do these changes play out in the everyday lives identifications and political projects of nomadic and indigenous people This question has been broached

from two seemingly divergent stances spatial cognition on the one hand and production of space on the other Bringing these two approaches together this volume re aligns the different strings of scholarship on spatiality making them applicable and relevant for indigenous and nomadic conceptualizations of space place and territory
