## **Sidney Keyes Collected Poems:**

**Collected Poems** Sidney Keyes, 2002 Including a wide variety of poems and dramatic monologues this collection of Sidney Keyes's work demonstrates the poet's mastery of literature Keyes was considered by some to be a prodigy writing strikingly even before his undergraduate years at Oxford His work illustrates his fusion of Romanticism and Continental style derived from his interest in such artists as Rilke Wordsworth Yeats Schiller and Klee His unique macabre pastoral landscapes wildly separate him from his contemporaries *The Collected Poems of Sidney Keyes* Sidney Keyes, 1988 [The Collected Poems of Sidney Keyes](#) Sidney Keyes, 1946 [The Collected Poems of Sidney Keyes](#) Sidney Arthur Kilworth Keyes, 1945

**The Alvarez Generation** William Wootten, 2020 Exploration of the generation of poets anthologized in A Alvarez's classic *The New Poetry* Thom Gunn Geoffrey Hill Ted Hughes Sylvia Plath and Peter Porter *British Poetry of the Second World War* L. Shires, 1985-06-03 **Language, Truth, and Literature** Richard Gaskin, 2013-04-18 According to the literary humanist works of imaginative literature have an objective meaning which is fixed at the time of their production and which is the same for all readers then and thereafter not subject to the vagaries of individual readers' responses Such works refer to the real world and make statements about that world which are of cognitive as well as aesthetic value the two kinds of value are indeed intimately connected Richard Gaskin offers a defence of literary humanism so understood against assault from two directions On the one hand some analytic aestheticians have argued that works of literature do not bear referentially on the world and do not make true statements about it others hold that such works do not make a contribution to knowledge others again allow that works of literature may have cognitive value but deny that this depends on their having truth or reference On the other hand reception theorists and deconstructionists have rejected the humanist's objectivist conception of literary meaning and typically take a pragmatist and anti-realist approach to truth and meaning This latter poststructuralist treatment of literature has often been accompanied by a radical politicization of its study In defending literary humanism

against these various forms of attack Gaskin shows that the reading and appreciation of literature is a cognitive activity fully on a par with scientific investigation and that we can and should engage in it disinterestedly for the sake of what can be learnt about the world and our place in it

Twentieth-Century War Poetry Philippa Lyon, 2004-10-28 Poets have written about wars throughout the 20th century questioning protesting and sometimes celebrating the nature and purpose of conflict Attracting an enthusiastic popular readership war poetry has often been seen as a way of remembering and re imagining wars Today war poems are not only part of our memorial culture on epitaphs and in Remembrance Day services but have inspired books and films and become studied widely around the world This Guide examines the genesis and development of the important genre of war poetry in the twentieth century focusing in particular on the role of the two world wars in the literary and cultural construction of a war poetry category Philippa Lyon draws upon a range of key historical and contemporary critical responses from poetic memoir and journalism to sophisticated academic criticism to demonstrate the rich diversity of expectations and evaluations elicited by the developing genre

**Culture in Camouflage** Patrick Deer, 2009-03-26 Examines how literary writers including Ford Madox Ford Siegfried Sassoon Wilfred Owen James Hanley Evelyn Waugh Graham Greene and others countered the war culture promoted by mass media war planners and military historians

**Poetry of the Second World War** Tim Kendall, 2024-09-25 The Second World War is now recognized as a watershed for British poetry The changes that arose were masked for some time by the enormous power and shock of the conflict itself and by the restrictions on poetry publishing consequent on paper rationing and the general business of wartime This anthology seeks to showcase not only the harrowingly beautiful poetry born from the conflict but also the radical changes to style and form that came from the epoch and altered the face of British poetry Featuring generous selections of famous poets including Dylan Thomas T S Eliot and W H Auden alongside works by civilians and soldiers the collection offers a symphony of different voices all connected in their shared experience of the Second World War Tim Kendall's introduction charts the history of the war poets reception explaining their relationship with their First World War predecessors and some of the reasons why they have never managed to reach such a wide audience The work of each poet is prefaced with a biographical account which allows poems to be read in their historical context and every poem is annotated with date of composition publication history and a gloss of words and allusions

*Wastepaper Modernism* Joseph Elkanah Rosenberg, 2021-04-16 From Henry James fascination with burnt manuscripts to destroyed books in the fiction of the Blitz from junk mail in the work of Elizabeth Bowen to bureaucratic paperwork in Vladimir Nabokov modern fiction is littered with images of tattered and useless paper that reveal an increasingly uneasy relationship between literature and its own materials over the course of the twentieth century *Wastepaper Modernism* argues that these images are vital to our understanding of modernism disclosing an anxiety about textual matter that lurks behind the desire for radically different modes of communication At the same time that writers were becoming infatuated with new technologies like the cinema and the radio

they were also being haunted by their own pages Having its roots in the late nineteenth century but finding its fullest constellation in the wake of the high modernist experimentation with novelistic form wastepaper modernism arises when fiction imagines its own processes of transmission and representation breaking down When the descriptive capabilities of the novel exhaust themselves the wastepaper modernists picture instead the physical decay of the book's own primary matter Bringing together book history and media theory with detailed close reading Wastepaper Modernism reveals modernist literature's dark sense of itself as a ruin in the making

**The Course of English Surrealist Poetry Since the 1930s** Rob Jackaman, 1989 This study proposes that there has been a revival of surrealist poetry and traces an uninterrupted thread of development in surrealism throughout 20th century English poetry
