Lost Souls of Horror and the Gothic Elizabeth McCarthy, Bernice M. Murphy, 2016-10-24 In recent years horror and gothic themes have penetrated mainstream popular culture in a manner unseen since the horror boom of the 1970s. Primetime television viewers who before might not have shown interest in such late night fare now happily settle down after dinner to watch zombie or serial killer shows. This collection of 54 biographical essays examines many overlooked and underrated figures who have played a role in the ever expanding world of horror and gothic entertainment. The contributors push the boundaries of how we define these terms bringing into the discussion such diverse figures as singer songwriter Tom Waits, occultist Dion Fortune, author Charles Beaumont, historian and bishop Gregory of Tours, and video game designer Shinji Mikami.

Grotesque and Performance in the Art of Aubrey Beardsley Evangelhia Stead, 2024-10-11 If I am not grotesque I am nothing. This insightful study illuminates previously unexplored aspects of Aubrey Beardsley's relationship to the grotesque and his use of media, particularly his manipulation of the periodical press. For the first time and with keen intelligence, Evangelhia Stead fully reveals the aesthetic importance of Beardsley's *Bon Mots* vignettes, as well as the relationship between Darwinism, his innovative foetus motif, and Decadence itself. Beautifully illustrated throughout, the book calls on histories of culture and aesthetics to show how the artist reworked traditional imagery and manipulated it beyond recognition, revealing for instance the influence of cathedral grotesques on Beardsley's own grotesque performances. Stead also demonstrates his major impact on Italian, French, American, and German creative minds through the periodical press. Rich in original thought and detailed comparative analysis, this book is an invigorating and enlightening read for scholars of Aubrey Beardsley as well as for anyone interested in nineteenth century visual culture, art history, art criticism, print culture, illustration, grotesque iconography, and cultural history.

Caverns of Night William B. Thesing, 2000 An exploration of the aesthetic challenges of representing Western European and American coal mining experiences in art, literature, and film. It features 19 essays offering critical analyses of topics such as gender, class, and ethnicity as portrayed in 19th and 20th century works.

Looking Out Peter Lord, 2023-07-06 The six sequential essays in this collection provide a narrative of a century and a half of Welsh painting, written with an emphasis on issues of social class and national identity. Through his earlier writing, Peter Lord has contributed to the establishment of an historical tradition of Welsh painting, but because it does not feature in the wider story of Western art history as presently told, the work revealed continues to be perceived as marginal, existing in isolation from ideas and movements in other countries. These essays break new ground by discussing the concerns of Welsh painters not only in domestic terms but also in the context of the ways in which artists in other parts of Europe and in the United States reacted to the common underlying causes of those concerns. The author challenges the idea that the work of Welsh painters is relevant only to the evolution of their own communities and, through confident and detailed

analysis validates their pictures also in terms of the arts of other Western cultures

Visual Rhetoric and the Eloquence of Design Leslie Atzmon, 2011-03-11 The essays in VISUAL RHETORIC AND THE ELOQUENCE OF DESIGN foreground the rhetorical functions of design artifacts Rhetoric normally understood as verbal or visual messages that have a tactical persuasive objective a speech that wants to convince us to vote for someone or an ad that tries to persuade us to buy a particular product becomes in Visual Rhetoric and the Eloquence of Design the persuasive use of a broad set of meta beliefs Designed objects are particularly effective at this second level of persuasion because they offer audiences communicative data that reflect and also orchestrate a potentially broad array of cultural concerns Persuasion entails both the aesthetic form and material composition of any object
