Look Of The West Across The Plains:

Landscapes and Landforms of Western Canada Olav Slaymaker, 2016-12-01 This is the only book to focus on the geomorphological landscapes of Canada West It outlines the little appreciated diversity of Canada's landscapes and the nature of the geomorphological landscape which deserves wider publicity Three of the most important geomorphological facts related to Canada are that 90% of its total area emerged from ice sheet cover relatively recently from a geological perspective permafrost underlies 50% of its landmass and the country enjoys the benefits of having three oceans as its borders the Arctic Pacific and Atlantic oceans Canada West is a land of extreme contrasts from the rugged Cordillera to the wide open spaces of the Prairies from the humid west coast forests to the semi desert in the interior of British Columbia and from the vast Mackenzie river system of the to small steep cascading streams on Vancouver Island The thickest Canadian permafrost is found in the Yukon and extensive areas of the Cordillera are underlain by sporadic permafrost side by side with the never glaciated plateaus of the Yukon One of the curiosities of Canada West is the presence of volcanic landforms extruded through the ice cover of the late Pleistocene and Holocene epochs which have also left a strong imprint on the landscape The Mackenzie and Fraser deltas provide the contrast of large river deltas debouching respectively into the Arctic and Pacific oceans

around the world. 169 days later, he came back with a world record. Julian Sayarer, 2014-06-05 Julian Sayarer grew up riding a bicycle Working as a bike courier in London he learned the world record for a circumnavigation by bike had been broken and that cycling into the sunset had been bought by banks and big business Determined to do things differently Julian set out to take back the record for the people Life Cycles is his story of that record riding 110 miles every 24 hours for 6 months on only 8 84 a day a route through jungles snow and 20 different countries He found himself stranded without money

in the deserts of Kazakhstan held up by insurrections in northwest China and sleeping under motorway bridges in America's Deep South Taken by life on the road and a spirit of adventure he loved every minute of it A tale of excitement and world politics by bicycle travelling at 12mph Julian found that the Tartars of Central Asia aren't so different to the trailer families of Louisiana This book is a reminder that the world is out there and it's waiting for us This is a very inspiring tale that says a lot about the human race its hopes and expectations and there is even a bit about the bicycle especially spoke breakages Mike Burrows Designer of Chris Boardman's 1992 Olympic winning bicycle Cavalcade of American Writing Gunnar Horn,1961

Professional Paper - United States Geological Survey Geological Survey (U.S.),1918 **Promptings and Provocations** Ken Rookes,2011 **Hard Road West** Keith Heyer Meldahl,2020-03-04 The dramatic journeys of the 19th century Gold Rush come to life in this geologist's tour of the American West and the events that shaped the land In 1848 news of the discovery of gold in California triggered an enormous wave of emigration toward the Pacific The dramatic terrain these settlers crossed is so familiar to us now that it is hard to imagine how frightening even godforsaken its sheer rock faces and barren deserts once seemed to them Hard Road West brings their perspective vividly to life weaving together the epic overland journey of the covered wagon trains and the compelling story of the landscape they encountered Taking readers along the 2 000 mile California Trail Keith Meldahl uses settler's diaries and letters as well as his own experiences on the trail to reveal how the geology and geography of the West shaped our nation's westward expansion He guides us through a landscape of sawtooth mountains following the meager streams that served as lifelines through an arid land all the way to California itself where colliding tectonic plates created breathtaking scenery and planted the gold that lured travelers west in the first place Alternates seamlessly between vivid accounts of the 19th century journey and lucid explanations of the geological events that shaped the landscape traveled Library Journal Journal of Landsborough's Expedition from Carpentaria William Landsborough,2019-12-16 William Landsborough's Journal of Landsborough's Expedition from Carpentaria presents a vivid account of his 1861 expedition into Australia's uncharted territories marked by meticulous observations of landscape flora and fauna as well as interactions with the Indigenous peoples The text is characterized by an engaging narrative style that balances an empirical approach with a rich descriptive prose reflecting the burgeoning spirit of exploration during the Victorian era Landsborough's journal not only documents the geographic discoveries but also serves as a testament to the challenges and triumphs faced by early explorers adding depth to our understanding of colonial ambitions and the complex relationship between settlers and native communities Landsborough a Scottish born explorer was significantly influenced by the urgencies of harnessing Australia's potential in the mid 19th century His adventurous spirit and dedication to exploration were shaped by the fervent nationalistic pride prevalent amongst imperial British figures Prior to this expedition Landsborough had amassed considerable experience traversing the Australian landscape which informed his methodological approach to documenting his journeys and encounters in the journal thereby solidifying his place in

Australian exploration history This book is an essential read for historians students of exploration and anyone interested in Australia s narrative Landsborough s candid reflections and detailed descriptions offer invaluable insights into the era s cultural and environmental complexities The journal serves not only as a historical document but also as an exploration of human resilience and curiosity in the face of the unknown Readers will find themselves transported to the rugged landscapes and tumultuous journeys of 19th century Australia making it a compelling addition to any literary collection **Technical Bulletin** ,1958
