

Looking Back On My Life-2

**So I look back on my life
trying to find a happy moment
to block out the pain
to have something to think about
well they yell
yell about me
yell about my mistake
yell about my life
he blames me**

**she blames him
I blame them
But I can't think of a moment
not of one time I was happy
all I remember is pain
tears
stress
depression
suicidal thoughts
anger
why? Why was I never happy?**

**Why was I always crying?
Why was I always stressed?
Why was I always depressed?
why was i always anger?
Why was I always thinking suicidal thoughts?**

family who had to put up with me through the good times and the bad To everyone that I have met along the way while I was following my life s path And most of all to God whose help has given me the desire for knowledge and the courage to follow my heart Without that I would not have accomplished the things I ve done *Getting to know God* Andrés

New Understandings of Twin Relationships Barbara Klein,Stephen A. Hart,Jacqueline M. Martinez,2020-12-23 *New Understandings of Twin Relationships* takes an experience based approach to exploring how twin attachment and estrangement are critical to understanding the push and pull of closely entwined personal relationships Based on the research expertise of each of the authors all identical twins in their own right and vignettes from twins across the globe this book describes the inner workings of the twin world showing how the twin world creates experiences that are often more intense and intricately textured than those in the singleton world Chapters debunk myths surrounding twinship and analyze the developmental stages of the twin relationship as well as the effect of being a twin on one s mental health from different perspectives The authors articulate how attachment separation anxiety loneliness estrangement and the subjective experience of the twin and non twin other impact behavior thinking and feeling Through its careful study of the many psychological challenges that twins face throughout their lifetime this text will help psychologists scholars clinicians and twins themselves attain a deeper understanding of all interpersonal relationships *My Life- My War- World War 2* Stanley B. Loomis,2010 Wars are started by a person or persons and are usually a quest for power for a person or a group of people

and they don't really care how many people are killed nor how many families are losing a father mother or brothers or whole families and their relatives Sometimes it is necessary to start a war by a peaceful nation against countries that are harming and have the publically displayed their intentions to extend their borders by taking land from established country's land and people This I would consider declaring a war to be the only necessary solution to the problem but still a war with people getting maimed and killed In World War One Germany was the problem once again lust for power I wasn't even thought of at that period of time in fact I hadn't even arrived on the scene at that point of time But think about it for a moment there's not one inch of land that has increased in size in those thousands of years of civilization and wars I was a training in Camp Blanding in Florida we could look in any direction and there was a sign posted in large letters Kill or Be Killed Kill or Be Killed We were just 18 or 19 year old kids think about it Kill or Be Killed what an education but necessary to imprint it inside our young brains It gave us young kids a reason to become killers hesitate for a second and you're dead Back then in training we used to repeat over and over was that wars were necessary to Decrease The Surplus Population It is most certainly a true statement
