GORDON TULLOCK

Edited and with an Introduction by
CHARLES K. ROWLEY

Organization Of Enquiry The Organization Of Enquiry V 3 Selected Works Of Gordon Tullock S

Peter Newman

Organization Of Enquiry The Organization Of Enquiry V 3 Selected Works Of Gordon Tullock S:

The Organization of Inquiry Gordon Tullock, 2005 The Organization of Inquiry the third volume in Liberty Fund's The Selected Works of Gordon Tullock was originally published by Duke University Press in 1966 This is a treatise by one of the most stalwart practitioners of the scientific method in political economy Gordon Tullock Charles K Rowley Duncan Black Professor of Economics at George Mason University writes in his introduction to this book From a purely technical perspective this book stands out as his Tullock's best written single authored work The book sets out his own views on scientific method views that he would faithfully reflect in all of his subsequent scholarship In this book Tullock focuses attention on the organization of science raising important questions about scientific inquiry and specifically about the problems of science as a social system Tullock poses such questions as how do scientists engage in apparently cooperative contributions in the absence of hierarchic organization and why are scientific contributions worthy for the most part of the public's trust Throughout The Organization of Inquiry he sets out to answer these questions and many more through a pioneering exploration of the interrelationship between economics and the philosophy of science much of which defied then conventional wisdom Anyone interested in any scientific endeavor will find the combination of Tullock's powerful logic his sharp forensic skills and his barbed wit completely elucidating and helpful to their pursuits Gordon Tullock is Professor Emeritus of Law at George Mason University where he was Distinguished Research Fellow in the Center for Study of Public Choice and University Professor of Law and Economics He also taught at the University of South Carolina the University of Virginia Rice University Virginia Polytechnic Institute and State University and the University of Arizona In 1966 he founded the journal that became Public Choice and remained its editor until 1990 Charles K Rowley was Duncan Black Professor of Economics at George Mason University and a Senior Fellow of the James M Buchanan Center for Political Economy at George Mason University He was also General Director of the Locke Institute

Legal Origins and the Efficiency Dilemma

Nuno Garoupa, Carlos Gómez Ligüerre, Lela Mélon, 2016-12-08 Economists advise that the law should seek efficiency More recently it has been suggested that common law systems are more conducive of economic growth than code based civil law systems This book argues that there is no theory to support such statements and provides evidence that rejects a one size fits all approach Both common law and civil law systems are reviewed to debunk the relationship between the efficiency of the common law hypothesis and the alleged inferiority of codified law systems Legal Origins and the Efficiency Dilemma has six aims explaining the efficiency hypothesis of the common law since Posner's 1973 book summarizing the legal origins theory in the context of economic growth debunking their relationship discussing the meaning of common law and the problems with the efficiency hypothesis by comparing laws across English speaking jurisdictions illustrating the shortcomings of the legal origins theory with a comparative law and economics analysis and concluding there is no theory and evidence to support the economic superiority of common law systems Based on previous pieces by the authors this book expands their

work by including new areas of analysis such as trusts detailing previous analysis such as French law versus common law in the areas of contract property and torts and updating for recent developments in the academic discourse This volume is of interest to academics and students who study microeconomics comparative law and foundations of law as well as legal policy analysts

The Oxford Handbook of Law and Economics Francesco Parisi, 2017-04-04 Covering over one hundred topics on issues ranging from Law and Neuroeconomics to European Union Law and Economics to Feminist Theory and Law and Economics The Oxford Handbook of Law and Economics is the definitive work in the field of law and economics The book gathers together scholars and experts in law and economics to create the most inclusive and current work on law and economics Edited by Francisco Parisi the Handbook looks at the origins of the field of law and economics tracks its progression and increased importance to both law and economics and looks to the future of the field and its continued development by examining a cornucopia of fields touched by work in law and economics The uniqueness of its breadth depth and convenience make the volume essential to scholars students and contributors in the field of law and economics

Capitalist Alternatives Paul Dragos Aligica, Vlad Tarko, 2014-11-20 The book's objective is to explore the challenge of thinking methodically in a theoretically and empirically informed way about alternative forms of capitalism What are the most effective ways to conceptualize the existing models of capitalism that have captured the public imagination and are currently floating around in the public debate How can one mobilize empirical analysis and theory in thinking about the realm of possibilities and about the future of economic order but avoid the twin perils of scientism and historicism This book is an attempt to respond to these and related challenges First it delves into the substantive aspect of the debate taking a closer look at a set of particular forms and models of capitalism that are currently discussed both in mass media and in academic circles as plausible or at least possible alternatives to the status quo Crony State Regulatory and Entrepreneurial Capitalisms By elaborating and clarifying those models it engages in a heuristic exercise that leads to a better understanding of the task of conceptualizing and assessing in a theoretically informed way the diversity of forms of capitalism Second the book takes a step further looking at the epistemic theoretical and methodological dimensions of the discussion What is involved more precisely in our classifying and theorizing of capitalist systems and their historical evolution What is the epistemic basis for building plausible conjectures about the future evolution of an economic system What are the logical and methodological parameters of our endeavors that deal with economic systems or with the problem of continuity and change in comparative economic systems Offering an original approach to the problem of alternative forms of capitalism this book will be of great interest to scholars working in the field of comparative political economy

[Towards an Economics of Natural Equals](#) David M. Levy, Sandra J. Peart, 2020-01-02 Explores how the Virginia School developed an economics for natural equals in which consent is critical for policy

Research Handbook on Austrian Law and Economics Todd J. Zywicki, Peter J. Boettke, 2017-12-29 The original contributions to the Research Handbook provide an introduction to the application of

Austrian economics to law The book begins with chapters on the methodology of law and economics Further chapters discuss key concepts in Austrian economics dynamic competitive processes spontaneous order subjective value entrepreneurship and the limited nature of individual knowledge as they relate to topics in evolutionary law social rules self governance dispute resolution and basic law torts antitrust civil procedure business and family law **Dictionary Catalog of the Department Library** United States. Department of the Interior. Library,1969 **The British National Bibliography** Arthur James Wells,2006 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1969 **Guide to Reprints** ,2009 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 *Choice* ,2005 **United States Political Science Documents** ,1993 **The Need for Humility in Policymaking** Stefanie Haeffele,Anne Hobson,2019-08-22 Regulations impact a wide array of market and social activities that influence our daily lives Regulations are attempts to correct perceived market failures caused by information asymmetries externalities and principal agent problems and to provide public goods which would otherwise be underprovided Government actors are responsible for identifying these issues weighing the costs and benefits of intervention and designing and implementing regulations to improve society Good regulations help mitigate issues in the economy without inciting new problems and without the costs exceeding the benefits of intervention This requires intensive analysis and an awareness of the complexities of social life Our society is complex and dynamic where people face knowledge and incentive problems whether in the market politics or civil society By examining this complex reality we can better understand why regulations arise and persist and the challenges of reform We argue that this approach to policymaking and policy analysis requires humility an acknowledgment of the challenges we face when intervening in our society This volume intends to cultivate an appreciation for the complexity of human decision making and the incentives that drive human behavior By examining specific policy changes it will delve into the effects of and lessons learned from regulations in financial markets computer and internet governance and health care innovation and delivery This volume will be of interest to students scholars and policymakers who seek to understand the complexities of regulation in a dynamic social world *Paperbound Books in Print* ,1992 **American Book Publishing Record** ,1987 **The New Palgrave Dictionary of Economics and the Law** Peter Newman,2016-04-30 A great deal of economics is about law the functioning of markets property rights and their enforcement financial obligations and so forth yet these legal aspects are almost never addressed in the academic study of economics Conversely the study and practice of law entails a significant understanding of economics yet the drafting and administration of laws often ignore economic principle The New Palgrave Dictionary of Economics and the Law is uniquely placed by the quality breadth and depth of its coverage to address this need for building bridges Drawn from the ranks of academics professional lawyers and economists in eight countries the 340 contributors include world experts in their fields Among them are Nobel laureates in economics and eminent legal scholars First published in 1998 and now available in paperback for the first time The New Palgrave Dictionary of Economics and the

Law has established itself as a classic reference work in this important field **Whitaker's Books in Print** ,1998

Reader's Guide to the Social Sciences Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense
