Media Competition and Coexistence John W. Dimmick, 2002-12-18 This volume considers how media firms as well as entire industries exist and persist over time despite what often seems to be intense competition for such resources as audiences and advertisers Addressing competition within and among media organizations and industries including broadcasting cable and the Internet author John W Dimmick studies the media industries through the niche theory lens developed by bioecologists to explain competition and coexistence He examines the targets of the different media audience advertisers money and how they compete using examples from a variety of studies Each chapter incorporates relevant economic constructs into the analytic framework This approach includes the use of economics of scale to explain selection and firm mortality in newspapers and movie theaters the application of the transaction costs concept to explicate the rise of advertising agencies the employment of the strategic group concept in analyzing the niche breadth strategy and the measurement of gratifications utilities A comprehensive overview of the determinants of media competition and coexistence Media Competition and Coexistence The Theory of the Niche offers unique insights for scholars students researchers and practitioners in media economics management and business

Continuities in Sociological Human Ecology Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell's College of Agriculture and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley's Human Ecology Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell's Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call's very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints

Dynamic Capabilities Bart Nooteboom, 2022-08-11 The development of salient ideas and publications on dynamic capabilities is given extended by ideas

outside the literature of strategic management Dynamic capability is presented as an interdisciplinary subject to which knowledge is central Diversity of knowledge is treated in terms of cognitive distance limited through organisational focus To deal with diversity development and uncertainty evolutionary theory and the notion of entropy are used The relation between individual and organisational knowledge is modelled with the notion of a script and linguistic ideas The governance of collaborative relations for innovation is discussed including trust which are also dynamic capabilities

Darwinism and Evolutionary Economics John Laurent, John Nightingale, 2001-01-01 This outstanding collection of essays by leading scholars helps explain how evolutionary economics has come of age They show how evolutionary economics offers a progressive and diverse research agenda built on strong foundations These are essays of lasting value J Stanley Metcalfe University of Manchester UK Darwinism is fast becoming an orthodoxy of modern thought a framework within which a wide range of knowledge communities conduct their discourse Ever since its formation Darwinian theory has experienced a close though not always comfortable association with economics Evolutionary economists now appear to show little concern for the consistency of knowledge in their embrace of Darwinism Darwinism and Evolutionary Economics brings together contributions from eminent authors who building on Darwin's own insights and on developments in evolutionary theory offer challenging views on how economics can use evolutionary ideas effectively This collection of critical essays provides a thorough examination of the application of Darwinian theory to economic thought and will appeal to evolutionary economists and all those with an interest in Darwin innovation and evolutionary science

Process Philosophy Bart Nooteboom, 2021-03-31 The book analyses and compares a variety of processes of change in evolution learning and innovation language and meaning self and society and ethics and morality Taking a realistic approach the book is inspired by pragmatic philosophy in particular that of Dewey Nietzsche Wittgenstein and Heidegger and employs insights from economics sociology anthropology and social psychology The book aims to give a coherent synthesis of ideas about change and aims to see how one can take a process view of various features of humanity such as knowledge relations between people language and morality and how vice versa that might contribute to process philosophy

The Ethnographer's Method Alex Stewart, 1998-06-17 Helping ethnographers devise a clearly articulated explanation of their methods this book argues that norms about discussing methods in ethnographies are underdeveloped The book considers what ought to be normative in methods discussions within ethnography from the research design to the end product

Modern Organizations Ali Farazmand, 2002-07-30 Farazmand and his contributors examine modern organization theory and behavior They view organization in two ways As an organization of society into public private and nonprofit sectors and they examine the power structure and those power elites who determine policy choices and outcomes They also look at organizing activity such as creating institutional arrangements to perform certain functions or tasks as well as organizational entities of all sizes Using a balanced approach to analyze modern organizations managerial expectations and individual citizen expectations and demands the book presents a succinct analysis of theoretical and conceptual perspectives on modern organizations their management and their interactions with other organizations in an environment that is becoming increasingly global and integrated worldwide Although all organizations are covered the emphasis is placed mainly on public organizations The book also addresses key issues of organizational change reform and reorganization of governments in both theoretical and empirical ways A key text and handbook for scholars students researchers and practitioners of public administration and the management of nonprofit organizations

The Business Model Innovation Process Yariv Taran, Harry Boer, Christian Nielsen, 2021-11-21 Business Model Innovation Process Preparation Organization and Management examines a range of critical questions that merit thoughtful interdisciplinary consideration such as Why do business models and their innovation in particular matter today How can the process of business model innovation be understood organized and managed adequately under increasingly volatile uncertain complex and ambiguous technological business and geo political conditions What should decision making and risk management look like under these conditions with managers whose rationality is bounded The book offers a detailed account of the relatively unknown process of business model innovation by looking into the intersection of strategic operations and innovation management organizational design decision making and performance management In doing so this book addresses fundamental issues and introduces new ideas and theoretical perspectives In envisioning and thinking about various potential scenarios of business model innovation and understanding how to organize for each of these under different conditions the book provides original arguments and suggestions for practitioners For that purpose the book also offers many compelling real life examples of business models and their innovation Combining theory and practice this book is an essential read for researchers and academics of business model innovation as well as strategic

management digital transformation innovation management and organizational change It will also be of direct interest to practitioners and business leaders seeking new perspectives to increase their competitive advantage An Autecological Theory of the Firm and its Environment Colin Jones,Gimme Walter,2017-06-30 The process of firm level adaptation and survival have historically been of great interest to researchers of firms However these researchers have previously been denied an ecological framework within which to study the processes through which individual firms respond to and indeed modify their individual environments This book remedies this situation providing the first comprehensive introduction to organisational autecology or the study of individual firms and the environments they interact with and typically modify to ensure their survival In addition to establishing the theoretical and philosophical foundations of organisational autecology the empirical application of this new approach is demonstrated and its future application to the domain of organisational studies is contemplated Long-run Economics Norman Clark,Calestous Juma,2013-11-07 A major problem of conventional economic theory as applied to long run economic change is its unduly narrow and static character which compromises its capacity to handle conceptually a social process inherently systemic complex and dynamic At the same time there is a growing realization in relevant government and industrial circles reinforced by the example of Japan that effective economic policy making needs a strategic and therefore a technological content Long Run Economics suggests a more realistic conceptual framework for the analysis of economic and technological change Borrowing from other disciplines such as sociology psychology and biology the authors develop a model that is evolutionary and systemic in character Special emphasis is given to the role of information flows in the innovative process while the overall argument is illustrated by two case studies photovoltaics and fuel ethanol Finally the book stresses the strategic importance of science and technology policy and the role of appropriate institutions in facilitating long run economic change

The Top Books of the Year Organizational Systematics Taxonomy Evolution Classification The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
