Organized Groups In British National Pol:

Organized Labour and Pressure Politics David Kwavnick, 1972 An examination of the relations between the Canadian Labour Congress and the Canadian government *Political Oppositions in Western Democracies* Robert A. Dahl, 1966-03-11 The idea that the opposition has a right to organize and to appeal for votes against the government in elections and in parliament is one of the most important milestones in the development of democratic institutions Mr Dahl and nine collaborators analyze the role of the opposition in Austria Belgium France Germany Great Britain Italy the Netherlands Norway Sweden and the United States In introductory and concluding chapters Dahl compares the patterns of opposition in these countries and makes predictions for the future He carries forward on the basis of this evidence the theory of a pluralistic society he has explored in earlier books such as *Who Governs* Mr Dahl is Sterling Professor of Political Science at Yale University His collaborators are Samuel Barnes Hans Daalder Frederick Engelmann Alfred Grosser Otto Kirchheimer Val R Lorwin Allen Potter Stein Rokkan and Nils Stjernquist This stately volume is distinguished by several unusual features First it straightforwardly focuses on a crucial issue of Comparative Politics without being vitiated by the familiar behaviorist semantics and jargon Secondly contrary to the ubiquitous trend in this country flooded by discussion more journalistic than scientific on the emergent states it centers on constitutional democracy in Western Europe a region which for a decade and more had been badly neglected by the rampant computerizers Thirdly for the ten countries under discussion Professor Dahl was fortunate to enlist the services of genuine experts the majority of whom are specialists in their field On the whole the volume is one of the major contributions to Comparative Politics that have appeared in this country for some time The study of the issue as such as well as of the individual reviews is highly rewarding Karl Loewenstein *The Annals* *British Political Facts 1900-1968* NA NA, 2015-12-25 *British Political Facts* David Butler, Anne Sloman, 1969-09-01 *The British Study of Politics in the Twentieth Century* Jack Hayward, Brian Barry, Archie Brown, 2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations *The Legislative Process in Great Britain* S. A. Walkland, 2021-11-21 Originally published in 1968 this book deals with the process of public legislation in modern Britain at the time not in terms of constitutional formulae but by a realistic appraisal of the relationships between the political institutions and forces which gave the process its shape It concentrates particularly on the procedures and conventions which operated at the preparatory stages of legislation and established that legislation was almost exclusively a governmental function Parliament playing only a minor role It is particularly concerned to stress the extent to which consultation by the government with pressure groups was now a major feature of the legislative process and concludes that subordinate departmental legislation developed as a result of collaboration between pressure groups and Civil Servants was the most characteristic and important stage of the legislative process in Britain The book brought together the conclusions of

recent scholarship in this field and the result is a balanced perspective of an important decision making process of British government at the time Today it can be read in its historical context **Half a Century of British Politics** Lynton J. public representation and public policy **Political Elites** Geraint Parry, 2024-10-31 Elites have been described both as the bulwarks of democracy and its very antithesis Political Elites first published in 1969 reviews the literature on the role of elites in politics It deals with both the classic elite theorists Mosca Pareto Michels Burnham and C Wright Mills and with many of the empirical and theoretical works on elites by modern political scientists and sociologists It seeks to clarify the central terms of elite discourse some of which have entered the everyday political vocabulary elitism power elite establishment elite consensus iron law of oligarchy and mass It explores the ways in which the descriptions of power relationships can subtly be infiltrated by the values of the observers For this ECPR Classics edition Professor Parry has added an introduction reviewing significant new developments in elite political science **The Politics of the Rope** Neville Twitchell, 2012 The campaign to abolish capital punishment 1955 1969 Britain Faces Europe Robert L. Pfaltzgraff, Jr., 2016-11-11 Transformations of thought among British foreign policy makers since World War II have motivated this new study For the first time in its history during the postwar decade Britain began to abandon its world power outlook and to turn toward a European consensus substituting regional interests for its global perspective The author asks How does a people so attuned to worldwide interests and commitments reconcile itself to such drastically altered circumstances as those that followed World War II How does a people that has historically viewed with hostility the unification of continental Europe develop as a top foreign priority participation in the European integration movement The book focuses on the response of the British Government to changing international and domestic forces including elite groups at home Britain Faces Europe is the first book to examine both the development of British policy and the evolution of attitudes in the British private sector toward European integration between 1957 and 1967 Drawing on public documents and interviews the author traces the movement of British policy toward a more European outlook Investigating publications of interest groups such as the National Farmers Union the Trades Union Congress the Confederation of British Industry and such Europe oriented groups as Federal Union and the United Kingdom Council for Europe the author traces the development of support for Common Market membership in the private sector Developing attitudes in representative British newspapers and journals and those of parliamentary parties are described Publications and statements of anti European organizations and public opinion polls are also examined Important elements of the study for all students and observers of world affairs are its examination of British expectations from European integration and its assessment of the British Common Market case from propositions about integration drawn from theoretically oriented literature The book is an innovation in approach in that other studies have focused almost exclusively on descriptions of official policy without major reference to either the private sector or theories of integration at the international level **British Politics and European Unity** Robert J. Lieber, Professor Robert J Lieber, 1970-01-01 *A Treatise on Social Theory* Walter Garrison Runciman, 1997-08-28 In this concluding volume of his trilogy on social theory W G Runciman applies to the case of twentieth century English society the methodology distinguishing reportage

explanation description and evaluation and theory of the preceding two volumes Volume III shows how England's capitalist mode of production liberal mode of persuasion and democratic mode of coercion evolved in the aftermath of the First World War from what they had been since the 1880s but then did not in turn evolve significantly following the Second World War The explanation rests on an analysis of the selective pressures favouring some economic ideological and political practices over others in an increasingly complex environment neither predictable nor controllable by policy makers This is supported by a graphic account of the changes themselves and how they were experienced by different segments of English society

Urban Political Analysis Professor Patrick Dunleavy, 1980-01-01 Mutualism and Health Care Martin Gorsky, John Mohan, Tim Willis, 2013-07-19 Mutualism and health care newly available in paperback presents the first comprehensive account of a major innovation in hospital funding before the NHS The voluntary hospitals which provided the bulk of Britain's acute hospital services diversified their financial base by establishing hospital contributory schemes Through these working people subscribed small regular amounts to their local hospitals in return for which they were eligible for free hospital care The book evaluates the extent to which the schemes were successful in achieving comprehensive coverage of the population funding hospital services and broadening opportunities for participation in the governance of health care and for the expression of consumer views It then explores why the option of funding the post war NHS through mass contribution was rejected and traces the transformation of the surviving schemes into health cash plans This is a substantial investigation into the attractions and limitations of mutualism in health care It is highly relevant to debates about organisational innovations in the delivery of welfare services **The Qualifying Associations** Geoffrey Millerson, 2013-08-21 This is Volume XII of eighteen in a series on the Sociology of Work and Organisation First published in 1964 this study looks at one important aspect of professionalism the way to professional status through organization It describes the Qualifying Association a type of organization which attempts to qualify individuals for practice in a particular occupation **Social Science and Political Theory** W. G. Runciman, 1969-05-02 This 1969 study considers the relation of sociology to political philosophy and extends traditional political philosophy in the direction of contemporary developments
