

The background of the cover features several chemical structures and molecular models. At the top left, there is a complex molecule with a phenol group and a long chain. In the center, a transition state or reaction intermediate is shown with a central metal atom (likely Rhodium) coordinated by several ligands, including a cyclopentadienyl ring and a carbonyl group. To the right, a long, branched organic molecule is depicted. At the bottom left, a large, complex polycyclic molecule is shown. The overall theme is organometallic chemistry, with a focus on catalysis and molecular structure.
