Orientations Changing Stories:

Orientation by Disorientation Richard A. Spencer, 1980-01-01 Pittsburgh Theological Monograph Series General Editor Dikran Y Hadidian *Orientation Guide for Public Health Workers on the Navajo Reservation* University of California, Berkeley. School of Public Health, 1960 *Sexual Orientation and Transgender Issues in Organizations* Thomas Köllen, 2016-04-25 Over the last decade workforce diversity has attracted much scientific attention Given the shortage of literature on issues related to homosexual bisexual and transgender employees compared to other facets of workforce diversity this book opens up new perspectives on this issue Emphasis is placed on the equal consideration of gay lesbian bisexual and transgender issues Thus the predominance of lesbian and gay issues in LGBT research and practice will be contrasted by an explicit consideration of the unique experiences stressors and related needs of bisexual and transgender employees Contributions provide deeper insights into the differing experiences the whole spectrum of LGBT employees make in the workplace in different national and occupational contexts Furthermore the collection offers contextualized insights for evaluating and conceptualizing organizational initiatives aiming at a higher level of inclusion for LGBT employees

Documents of the LGBT Movement Chuck Stewart, 2018-05-25 Beginning from the First People through the influx of European settlers and the slave trade from Africa to the modern era this book presents and discusses documents that reflect pivotal moments in the LGBT rights movement in North America While most would think of the modern Gay Rights Movement as beginning in the 1960s in reality the issue of nonheterosexual human behavior within society and the campaign to achieve equality and acceptance have existed far earlier Beginning with the First People in the Americas and their acceptance of tribal members who did not conform to gender and sexual binary roles to the expansion west and establishment of the United States as a Republic to the contentious struggles for equality in the 20th and 21st centuries this reference traces the development of the Gay Rights Movement through the examination of primary source materials related to the incremental changes toward making America safe for all people These documents enable readers to reflect on pivotal moments in the LGBT rights and sexual equality movement in the past up to the achievement of marriage equality A modern chronology traces key events in the Gay Rights Movement across the last 70 years such as those during the World War II era the formation of the Mattachine Society in Los Angeles in the 1950s to the Stonewall Riot in New York in the late 1960s the elimination of the category of homosexuality as a mental disorder in 1973 the judgment in 2003 by the U S Supreme Court that laws criminalizing sodomy are unconstitutional and the legalization of same sex marriage in all U S states in 2015 [A Family and Friend's Guide to Sexual Orientation](#) Bob Powers, Alan Ellis, 2013-12-02 A Family and Friend s Guide to Sexual Orientation helps individuals and families to bridge the divide between gay and straight to heal wounds that often accompany individuals and families negative feelings about lesbians gay men bisexuals and transgendered persons Consisting of thirty stories by individuals who have come to accept and embrace their own sexuality twelve of the stories are by heterosexuals

who in addition to talking about their own sexuality speak of the homosexuality of a loved one The book also includes five personal stories from two families **Sexual Orientation Equality in Schools** Matthew Holt,2021-02-09 This book explores how to help teachers become better advocates for sexual orientation equality in secondary schools Examining this issue through the lens of qualitative emancipatory action research a group of Australian teachers embarked on a journey of teacher advocacy Critical theory has long highlighted teachers as key players in either challenging dominant social narratives or else perpetuating oppressive systems of power through traditional forms of education Despite this important role the life stories of teachers which contributed to the development of their beliefs and behaviours about sexual orientation are rarely considered in the development of anti discriminatory policy designing the curriculum and most importantly in teacher training This book suggests and frames a model for advocacy whereby teachers engage with their personal beliefs about sexual orientation with their role as a teacher and commit to advocacy through action by promoting student safety challenging heteronormative narratives and role modelling compassionate behaviours in their school environments *What is Orientation?* Werner Stegmaier,2019-08-19 The very first thing one does in all situations of life is orient oneself Decisions of orientation which are mostly made under uncertainty and the pressure of time largely determine subsequent decisions But what is orientation The problems of orientation are as old as humankind the word is used everywhere but the concept has never been thoroughly investigated The philosopher Werner Stegmaier comprehensively clarifies for the first time the conditions and structures of orientation including those of our sexual economic media political legal scientific artistic religious moral and ethical orientations He thereby establishes a new philosophical language and offers a philosophy for our time As if I unexpectedly slipped down into a deep vortex I am swirled around in a way that I can neither put a foot down nor swim to the surface Nonetheless I will work my way out Ren Descartes Philosopher As often as my speculation seems to lead me too far from the paved road of common sense I stand still and seek to orient myself I look back at the point from which we started and I seek to compare the two guideposts I have Moses Mendelssohn Philosopher A philosophical problem has the form I do not know my way about Ludwig Wittgenstein Philosopher The second O orientation as the repository of our genetic heritage cultural tradition and previous experiences is the most important part of the O O D A loop since it shapes the way we observe the way we decide the way we act John Boyd Military Strategist **Handbook of Psychology and Sexual Orientation** Charlotte Patterson,Anthony R. D'Augelli, Ph.D.,2013 The first authoritative summary of its kind in this area the Handbook of Psychology and Sexual Orientation is the primary resource for the many researchers including a new generation of investigators who are continuing to advance understanding in this field The volume editors along with other leading experts contribute an extraordinary review of contemporary psychological research and theory on sexual orientation in their specific fields of work **Women, Islamisms and the State** A. Karam,1997-12-08 The book provides theoretical insight and analysis of the power relations between women s activism Islamist thought and praxis and the Egyptian state 1970s to

1990s Contemporary feminist debates among women's NGOs are examined and the different perceptions of gender roles among Islamist men and women are presented and contrasted Three feminist streams are identified as both shaping and being shaped by the dynamics of interaction between political Islam and state regimes **Linguistic Change & Contact**

Kathleen Ferrara,1988 *The Good News about Conflict* Jenell Paris,2016-07-01 Conflict over homosexuality in Christian churches is only intensifying We can do better We have to do better The stakes are too high to do otherwise Conflicts are difficult and ugly but the good news reaches even here It is possible to have healthy conflict to disagree and struggle together in ways that make us better and that make the church stronger By looking deeply into the nature of religious conflict we can cultivate practices and values that will mature our abilities as peacemakers and strengthen our faith and our churches **Linguistic Change & Contact**,1988 The Cognitive Psychology of Climate Change Patrik Sörqvist,John E. Marsh,2019-09-19 Climate change is one of society's great challenges The scientific community agrees that human activity is to a large degree responsible for these changes and efforts to promote more sustainable behaviors and lifestyles often backfire People travel for longer distances when driving a vehicle that uses a sustainable energy source they purchase organic food as a means to be environmentally friendly without necessarily reducing other means of consumption and those who deliberately change their behavior to be more environmentally friendly in one area often start behaving environmentally irresponsibly in another Environmentally harmful behavior and decision making often have their roots in cognitive biases and cognitive inabilities to properly understand climate change issues to understand the effects of one's own behavior on the environment and other means by which thinking and reasoning about climate change issues are biased **The Triumph of Love** Eric Reitan,2017-07-31 Recent years have witnessed an astonishing cultural and legal shift when it comes to homosexuality and same sex marriage Many Christians see these changes as a defeat for Christian values often painting Christian opponents as sell outs to secular culture But can there be a genuinely Christian case for same sex marriage This book makes that case While sensitive to scriptural issues it focuses on a question that cannot be answered by Scripture alone What does love for our gay and lesbian neighbors demand This question calls us to pair theological philosophical and scriptural reflection with something else attention to gay and lesbian lives We must attend to the psychological research and more importantly to the stories our gay and lesbian neighbors tell us about themselves and their experience Love does not permit us to plug our ears with Bible verses While this book argues that Christian love calls us to make same sex marriage available the deeper conclusion is that Christian values prevail when we wrestle with these questions in a spirit of love love for those with whom we disagree and love for those most affected by the decisions we reach **Gender Equality & Inequality: Individuals Who Have Fought For Orientation-Related Rights** Gr. 6-Adult Taryn McKenna,2020-12-01 This is the chapter slice Individuals Who Have Fought For Orientation Related Rights Gr 6 Adult from the full lesson plan Gender Equality Inequality Understand the history of inequality and persecution that surrounds gender and sexual

Conversations about Psychology and Sexual Orientation Janis S. Bohan,Glenda M. Russell,1999-08-01 Psychology s approach to sexual orientation has long had its foundation in essentialism which undergirds psychological theory and research as well as clinical practice and applications of psychology to public policy issues It is only recently that psychology as a discipline has begun to entertain social constructivism as an alternative approach Based on the belief that thoughtful dialogue can engender positive change Conversations about Psychology and Sexual Orientation explores the implications for psychology of both essentialist and social constructionist understandings of sexual orientation The book opens with an introduction presenting basic theoretical frameworks followed by three application sections dealing with clinical practice research and theory and public policy In each the discussion takes the form of a conversation as the authors first consider essentialist and constructionist approaches to the topic at hand These thoughts in turn are followed by responses from distinguished scholars chosen for their expertise in a particular area By providing an array of comments and thoughtful responses to topics surrounding psychology s approaches to sexual orientation this valuable study sheds new light on the contrasting views held in the field and the ways in which essentialist and constructionist understandings may be applied to specific practices and policies
