Prokofieff, 2013 2 lectures by Sergei O Prokofieff Bologna March 31 April 8 2011 A special conference took place in Bologna in spring 2011 marking the hundredth anniversary of a unique lecture Steiner delivered to a philosophically trained audience in the same city In his key exposition Steiner had given a concise description of the spiritual scientific theory of knowledge as well as a brief outline of the anthroposophic path of training In his contribution to the 2011 congress Prokofieff tackles two principal aspects On the one hand he describes how Steiner s Bologna lecture contained the essential foundations for a new science of the human ego the human I On the other hand Prokofieff states that Steiner was the first person to transform this theory into a practical path of knowledge following it to its very conclusion Thus the words of Steiner s lecture were based entirely on personal experience Together with a transcript of Steiner s full Bologna lecture Prokofieff s lecture is reproduced here in an expanded version In addition this volume features Steiner s important summaries of essential points in which he develops and connects some of his key thoughts with further aspects of Anthroposophy especially in relation to their Christological foundations      Theosophical Essays Annie Besant, 1895      **The Theosophical Quarterly** , 1894      *Handbook of the Theosophical Current* , 2013-01-08 Few religious currents have been as influential as the Theosophical Yet few currents have been so under researched and the Brill Handbook of the Theosophical Current thus represents pioneering research A first section surveys the main people and events involved in the Theosophical Society from its inception to today and outlines the Theosophical worldview A second substantial section covers most significant religions to emerge in the wake of the Theosophical Society Anthroposophy the Point Loma community the I AM religious activity the Summit Lighthouse Movement the New Age theosophical UFO religions and numerous others Finally the interaction of the Theosophical current with contemporary culture including gender relations art popular fiction

historiography and science are discussed at length      **Theosophy across Boundaries** Hans Martin Krämer, Julian Strube, 2020-11-01 Theosophy across Boundaries brings a global history approach to the study of esotericism highlighting the important role of Theosophy in the general histories of religion science philosophy art and politics The first half of the book consists of seven perspectives on the activities of the Theosophical Society in very different regional contexts ranging from India Vietnam China and Japan to Victorian Britain and Israel shedding new light on the entanglement of Western and Oriental ideas around 1900 The second half explores specific cultural influences that Theosophy exerted in the spheres of literature art and politics using case studies from Sri Lanka Burma India Japan Ireland Germany and Russia The examples clearly show that Theosophy was part of a truly global movement thus providing an outstanding example of the complex entanglements of the global religious history of the nineteenth and early twentieth centuries      *Excluded Ancestors, Inventible Traditions* Richard Handler, 2000-11-16 History making can be used both to bolster and to contest the legitimacy of established institutions and canons Excluded Ancestors Inventible Traditions seeks to widen the anthropological past and in doing so to invigorate contemporary anthropological practice In the past decade anthropologists have become increasingly aware of the ways in which participation in professional anthropology has depended and continues to depend on categorical boundaries of race class gender citizenship institutional and disciplinary affiliation and English language proficiency Historians of anthropology play a crucial role interrogating such boundaries as they do they make newly available the work of anthropologists who have been ignored Excluded Ancestors Inventible Traditions focuses on little known scholars who contributed to the anthropological work of their time such as John William Jackson the members of the Hampton Folk Lore Society Charlotte Gower Chapman and Lucie Varga In addition essays on Marius Barbeau and Sol Tax present figures who were centrally located in the anthropologies of their day A final essay analyzes notions of the canon and considers the place of a classic ethnographic area highland New Guinea in anthropological canon formation      *Recycled Lives* Julie Chajes, 2019-01-02 A sizeable minority of people with no particular connection to Eastern religions now believe in reincarnation The rise in popularity of this belief over the last century and a half is directly traceable to the impact of the nineteenth century s largest and most influential Western esoteric movement the Theosophical Society In Recycled Lives Julie Chajes looks at the rebirth doctrines of the matriarch of Theosophy the controversial occultist Helena Petrovna Blavatsky 1831 1891 Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life In particular she explores Blavatsky s readings and misreadings of Spiritualist currents scientific theories Platonism and Hindu and Buddhist thought These in turn are set in relief against broader nineteenth century American and European trends The chapters come together to reveal the contours of a modern perspective on reincarnation that is inseparable from the nineteenth century discourses within which it emerged and which has shaped how people in the West tend to view reincarnation today      **The Theosophical Society** Jeffrey D. Lavoie, 2012

Classic Collection. The Complete Works of H. P. Blavatsky. Works of Henry S. Olcott. Illustrated** H. P. Blavatsky, Henry S. Olcott, Fyodor Dostoyevsky, 2025-02-26 Theosophy is a religion established in the United States during the late 19th century It was founded primarily by the Russian Helena Blavatsky and draws its teachings predominantly from Blavatsky s writings Categorized by scholars of religion as both a new religious movement and as part of the occultist stream of Western esotericism it draws upon both older European philosophies such as Neoplatonism and Asian religions such as Hinduism and Buddhism At a meeting of the Miracle Club in New York City on 7 September 1875 Blavatsky Olcott and Judge agreed to establish an organisation with Charles Sotheran suggesting that they call it the Theosophical Society Prior to adopting the name Theosophical they had debated various potential names among them the Egyptological Society the Hermetic Society and the Rosicrucian Society The term was not new but had been previously used in various contexts by the Philaletheians and the Christian mystic Jakob Böhme Etymologically the term came from the Greek theos god s and sophia wisdom thus meaning god wisdom divine wisdom or wisdom of God The term theosophia appeared in both Greek and Latin in the works of early church fathers as a synonym for theology In her book *The Key to Theosophy* Blavatsky said that the term Theosophy had been coined by the Alexandrian philosophers especially Ammonius Saccas Contents H P

Hanegraaff,2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement
