Oriental Asia Themes Towards A Geography:

South East Asia in the World-Economy Chris J. Dixon,1991-07-26 South East Asia has for many centuries occupied a pivotal position in the wider Asian economy linking China and the Far East with India and the Middle East and since the early 1500s the region has also played a major role in the world economy South East Asia in the World economy is a textbook survey of the area s interaction with these wider regional and international structure Professor Chris Dixon demonstrates how this region s role has undergone frequent and profound change as a result of the successive emergency and dominance of mercantile industrial and finance capital He shows how the region has developed as a supplier of luxury product such as spices as a producer of bulk primary products and how since the mid 1960s it has become a major recipient of investment and a favoured location for European and American markets The author examines how these phases in the evolution of the international economy have been reflected in the relations of evolution of the production and in the spatial pattern of economic activity He also discusses how the progressive integration of South East Asia in the world economy has established the dominance of a small number of core areas and produced a pattern of uneven development throughout the region In a concluding chapter Chris Dixon explores the prospects for South East Asia in the 1990s in the light of the restructuring of the world economy

Geographers Geoffrey Martin,2015-12-14 Geographers is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers independent thinkers and scholars Each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas Each study includes a select bibliography and a brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date Published under the auspices of the International Geographical Union

The Shaping of America: A Geographical Perspective on 500 Years of History D. W. Meinig,1986-01-01 Volume one examines how an immense diversity of ethnic and religious groups ultimately created a set of distinct regional societies Volume two emphasizes the flux uncertainty and unpredictability of the expansion into continental America showing how a multitude of individuals confronted complex and problematic issues

The Making of Southeast Asia Amitav Acharya,2013-02-15 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of

imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world

Development Issues in Marginal Regions R.B. Singh, 2019-03-04 Rapid population growth demand for increased food resources and other political economic and social stresses have all contributed to building up pressure for development of marginal regions in both developed and developing countries Ecological issues are also adding up to and increasing marginalization of regions and social groups due to the pressure on natural resources Broadly speaking marginal regions are perceived in concepts of centre periphery fringes and boundaries and frontiers In developing countries marginal regions are the combined effects of ecological economic and social factors For understanding the above complex issues the Study Group on Development Issues in Marginal Regions was established in August 1992 at the Washington International Geographical Congress [Catalog of Copyright Entries. Third Series](#) Library of Congress. Copyright Office, 1975

Mythical Space, Cosmology, and Landscape Jai Pal Singh, Mumtaz Khan, 2002 [The Quest for Identity](#) Amitav Acharya, 2000 The book seeks to provide an understanding of Southeast Asia as a region the problems of statehood faced by the individual countries and the search for regional order peace and stability It also explores Southeast Asia's adaptation to the changing world order and long term changes in terms of economic political and security implications

The Safford Valley Grids William Emery Doolittle, James A. Neely, Karen R. Adams, 2004 Crisscrossing Pleistocene terrace tops and overlooking the Gila River in southeastern Arizona are acres and acres of rock alignments that have perplexed archaeologists for a century Well known but poorly understood these features have long been considered agricultural but exactly what was cultivated how and why remained a mystery Now we know Drawing on the talents of a

team of scholars representing various disciplines including geology soil science remote sensing geographical information sciences GISc hydrology botany palynology and archaeology the editors of this volume explain when and why the grids were built Between A D 750 and 1385 people gathered rocks from the tops of the terraces and rearranged them in grids of varying size and shape averaging about 4 meters to 5 meters square The grids captured rainfall and water accumulated under the rocks forming the grids Agave was planted among the rocks providing a dietary supplement to the maize and beans that were irrigated on the nearby bottom land a survival crop when the staple crops failed and possibly a trade commodity when yields were high Stunning photographs by Adriel Heisey convey the vastness of the grids across the landscape *Tropical Asian Streams* David Dudgeon,1999-01-01 This book deals with the ecology of rivers and streams in the Oriental Region and describes the composition of their unique fauna especially the diverse array of animals which live on and among the bottom sediments Dichotomous keys are provided as an aid to the identification of these animals and the book is illustrated by over 100 pages of line drawings and maps Special emphasis is given to the impact of human activities on streams and rivers and the book concludes with a discussion of conservation and management options for these endangered habitats
