Orientalism, Poetry, and the Millennium Rosane Rocher, 1983 Life and works of a British scholar **The City and the Wilderness** Arash Khazeni, 2020-11-17 The City and the Wilderness recounts the journeys and microhistories of Indo Persian travelers across the Indian Ocean and their encounters with the Burmese Kingdom and its littoral at the turn of the nineteenth century As Mughal sovereignty waned under British colonial rule Indo Persian travelers and intermediaries linked to the East India Company explored and surveyed the Burmese Empire inscribing it as a forest landscape and Buddhist kingdom at the crossroads of South and Southeast Asia Based on colonial Persian travel books and narratives in which Indo Persian knowledge and perceptions of the wondrous edges of the Indian Ocean merged with Orientalist pursuits The City and the Wilderness uncovers fading histories of inter Asian crossings and exchanges at the ends of the Mughal world

Reorienting Orientalism Chandreyee Niyogi, 2006-04-14 Revised version of papers presented at the International Conference Rereading Orientalism held at Kolkata in August 2004 *Unfabling the East* Jürgen Osterhammel, 2019-11-19 During the long eighteenth century Europe's travelers scholars and intellectuals looked to Asia in a spirit of puzzlement irony and openness In this panoramic and colorful book Jürgen Osterhammel tells the story of the European Enlightenment's nuanced encounter with the great civilizations of the East from the Ottoman Empire and India to China and Japan Here is the acclaimed book that challenges the notion that Europe's formative engagement with the non European world was invariably marred by an imperial gaze and presumptions of Western superiority Osterhammel shows how major figures such as Leibniz Voltaire Gibbon and Hegel took a keen interest in Asian culture and history and introduces lesser known scientific travelers colonial administrators Jesuit missionaries and adventurers who returned home from Asia bearing manuscripts in many exotic languages huge collections of ethnographic data and stories that sometimes defied belief Osterhammel brings the sights and sounds of this tumultuous age vividly to life from the salons of Paris and the lecture halls of Edinburgh to the deserts of Arabia the steppes of Siberia and the sumptuous courts of Asian princes He demonstrates how Europe discovered its own identity anew by measuring itself against its more senior continent and how it was only toward the end of this period that cruder forms of Eurocentrism and condescension toward Asia prevailed Postcolonialism Diana Brydon, 2023-01-06 First published in 2004 This is Volume III of Postcolonialism part of a series of critical concepts in literary and cultural studies This edition includes part six on Orientalisms part seven on Thinking Working Through Race and part eight which covers Feminisms and Gender Analysis **The Scandal of Empire** Nicholas B. Dirks, 2009-07-01 The Scandal of Empire reveals that the conquests and exploitations of the East India Company were critical to England's development in the eighteenth century and beyond In this powerfully written critique Nicholas Dirks shows how the empire projected its own scandalous behavior onto India itself *Translating India* Rita Kothari, 2014-04-08 The cultural universe of urban English speaking middle class in India shows signs of growing inclusiveness as far as English is concerned This phenomenon manifests itself in

increasing forms of bilingualism combination of English and one Indian language in everyday forms of speech advertisement jingles bilingual movies signboards and of course conversations It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly but steadily rising activity of English translation from Indian languages Since the eighties this has led to a frenetic activity around English translation in India s academic and literary circles Kothari makes this very current phenomenon her chief concern in *Translating India* The study covers aspects such as the production reception and marketability of English translation Through an unusually multi disciplinary approach this study situates English translation in India amidst local and global debates on translation representation and authenticity The case of Gujarati a case study of a relatively marginalized language is a unique addition that demonstrates the micro issues involved in translation and the politics of language Rita Kothari teaches English at St Xavier s College Ahmedabad Gujarat where she runs a translation research centre on behalf of Katha She has published widely on literary sociology postcolonialism and translation issues Kothari is one of the leading translators from Gujarat Her first book a collaboration with Suguna Ramanathan was on English translation of Gujarati poetry *Modern Gujarati Poetry A Selection* Sahitya Akademi New Delhi 1998 Her English translation of the path breaking Gujarati Dalit novel *Angaliyat* is in press The Stepchild Oxford University Press She is currently working on an English translation of Gujarati short stories by women of Gujarat a study of the nineteenth century narratives of Gujarat and is also engaged in a project on the Sindhi identity in India

Essays in the History of Linguistics E. F. K. Koerner, 2004-01-01 The present volume follows the author s tradition of bringing together at certain intervals selections of articles which more often than not had previously been published in not easily accessible places or which had not been published before These papers do not typically represent mere reprints but in most instances thoroughly revised versions This volume contains twelve articles organized under three headings Programmatic Papers in the History of Linguistics Studies in Linguistic Historiography and Sketches historiographical and auto biographical plus as an appendix a complete list of Zellig Harris writings as an illustration of Koerner s penchant for and belief in the importance of good bibliographies as a basis for historical research While the first two sections which take up the bulk of the volume either show the author as an historian engage or demonstrate his work as a historiographer of 19th and 20th century linguistics the third section is much shorter and less heavy going Indexes of Biographical Names and of Subjects Terms Languages round out the volume which also contains a number of portraits of linguists and other illustrations

Shaping the Sciences of the Ancient and Medieval World Agathe Keller, Karine Chemla, 2024-05-14 This book contributes to a worldwide history of textual criticism and critical editions of ancient scientific texts It first looks at ancient editorial practices and at their impact on modern editions Contributions analyze how through time the perception of what a text was may have changed and influenced how scholarly texts were made accessible The second section looks at the historical political and social contexts within which editions and translations of ancient scientific texts were produced Finally the last two parts examine the

specificities of editions and translations that bore on scholarly documents Not only is there a focus on how the elements specific to scientific texts such as diagrams and numbers were treated but case studies analyzing the specific work carried out to edit mathematical and astronomical texts of the past are also offered to the reader The scholarship displayed in this work lays the foundation for further studies on the history of critical editions and raises questions to those who make scholarly translations and critical editions today

Colonialism and Culture Nicholas B. Dirks, 2025-10-01 Colonialism and Culture edited by Nicholas B Dirks is an insightful exploration of the intricate relationship between colonialism and cultural transformation The book features contributions that reflect how colonialism reshaped cultural identities and expressions across the globe and how it remains a potent force defining both historical and contemporary landscapes Drawing on cases from different historical periods and geographic locations the essays examine how colonial powers imposed and justified their dominance through cultural means such as transforming local cultures into rigid categories of the other The impact of this cultural hegemony extended beyond the local to influence metropolitan societies altering notions of race nationality and power even in the colonizers homelands Essays delve into various aspects such as the role of missionary work in the Philippines peasant resistance in Southeast Asia labor practices in colonial Kenya and the conceptualization of time and development in colonial India The work encourages a reconsideration of colonialism not just as a historical occurrence but as an active component in the configuration of modern cultural and social institutions Engaging with the intersection of power and culture the book challenges readers to rethink traditional narratives of empire and its legacy offering new insights into the ongoing global implications of colonial structures

Historiography: Politics Robert M. Burns, 2006 This collection aims to enable the reader to disentangle some of the ambiguities and confusions which have characterized the use of the term historiography

The Bloomsbury Handbook of Postcolonial Print Cultures Toral Jatin Gajarawala, Neelam Srivastava, Rajeswari Sunder Rajan, Jack Webb, 2023-08-10 The texts that make up postcolonial print cultures are often found outside the archival catalogue and in lesser examined repositories such as personal collections the streets or appendages to established collections This volume examines the published and unpublished writing magazines pamphlets paratexts advertisements cartoons radio and street art that serve as the intellectual forces behind opposition to colonial orders as meditations on the futures of embryonic nation states and as visions of new forms of equality The print cultures examined here are necessarily anti institutional they serve as a counterpoint to the colonial archive and relatedly to more traditional genres and text formats coming out of large scale publishers This means that much of the primary material analyzed in this book has not been scrutinized before Many of these print productions articulate collective liberation projects with origins in the grassroots They include debates around the shape of the postcolonial nation and the new state formation that necessarily draw on a diverse and contentious public sphere of opinion Their rhetoric ranges from the reformist to the revolutionary Reflecting the diversity indeed the disorderliness of postcolonial print cultures this book covers local national and

transnational cultures from Asia Africa Europe and the Americas Its wide ranging essays offer a nuanced and taken together a definitive though that is not to say comprehensive or systematic study of a global phenomenon postcolonial print cultures as a distinct literary field The chapters recover the efforts of writers readers and publishers to produce a postcolonialism from below and thereby offer a range of fresh perspectives on the meaning and history of postcolonialism **India and Europe** Wilhelm Halbfass,2017-01-01 This book explores the intellectual encounter of India and the West from pre Alexandrian antiquity until the present It examines India s role in European philosophical thought as well as the reception of European philosophy in Indian t Decentering Translation Studies Judy Wakabayashi,Rita Kothari,2009 This book foregrounds practices and discourses of translation in several non Western traditions Translation Studies currently reflects the historiography and concerns of Anglo American and European scholars overlooking the full richness of translational activities and diverse discourses The essays in this book which generally have a historical slant help push back the geographical and conceptual boundaries of the discipline They illustrate how distinctive historical social and philosophical contexts have shaped the ways in which translational acts are defined performed viewed encouraged or suppressed in different linguistic communities The volume has a particular focus on the multiple contexts of translation in India but also encompasses translation in Korea Japan and South Africa as well as representations of Sufism in different contexts

Exoticism in the Enlightenment George Sebastian Rousseau,Roy Porter,1990 **Making British Indian Fictions A.** Malhotra,2012-06-18 This book examines fictional representations of India in novels plays and poetry produced between the years 1772 to 1823 as historical source material It uses literary texts as case studies to investigate how Britons residing both in the metropole and in India justified confronted and imagined the colonial encounter during this period Tradition and Reflection Wilhelm Halbfass,1991-01-01 This book examines above all the relationship between reason and Vedic revelation and the philosophical responses to the idea of the Veda It deals with such topics as dharma karma and rebirth the role of man in the universe the motivation and justification of human actions the relationship between ritual norms and universal ethics and reflections on the goals and sources of human knowledge Halbfass presents previously unknown materials concerning the history of sectarian movements including the notorious Thags thaka and relations between Indian and Iranian thought The approach is partly philosophical and partly historical and philological to a certain extent it is also comparative The author explores indigenous Indian reflections on the sources the structure and the meaning of the Hindu tradition and traditional philosophical responses to social and historical realities He does not deal with social and historical realities per se rather basing his work on the premise that to understand these realities the reflections and constructions of traditional Indian theorists are no less significant than the observations and paradigms of modern Western historians and social scientists he explores the self understanding of such leading thinkers as Sankara Kumarila Bhartrhari and Udayana

Language and Earth Bernd Naumann,Frans Plank,Gottfried Hofbauer,1992-04-09 In former times the study of language

was rarely pursued in isolation and many of the other intellectual concerns that used to be intertwined with language study have long been on the record of historians of linguistics The present volume is the first to probe into an association of linguistics that has so far been neglected that with the study of the earth The relations between linguistics and geology were intimate and manifold as both sciences were emerging in the 18th and 19th century Highlighted in the contributions to this volume are biographical and institutional contacts the joint interest in origins and very early developments and in the proper methods of acquiring knowledge about these common structural and evolutionary concepts and analogous problems in the classification of domains as fuzzy as languages and rocks Empires of Complaints Robert Travers,2022-09-15 Travers explores how Mughal political and legal culture shaped and was reshaped by the British colonial state in Bengal **A World Atlas of Translation** Yves Gambier,Ubaldo Stecconi,2019-02-15 What do people think of translation in the different historical cultural and linguistic traditions of the world How many uses has translation been put to How distant from one another are the concepts of translation found in the different traditions These are some of the questions A World Atlas of Translation addresses Its twenty one reports give us pictures taken from the inside both from traditions that are well represented in the literature and from the many that for now are not But the Atlas is not content with documenting no map is this innocent In fact the wealth of information collected and made accessible by its reporters can be useful to gauge the dispersion of translation concepts across traditions As you read its reports the Atlas will keep asking How far apart do these concepts look to you Finally and more ambitiously the reports can help us test the hypothesis that a cross cultural notion of translation exists In this respect the Atlas is mostly a proof of concept It hopes to encourage further fact based research in quest of a robust and compelling unifying notion of translation
