*Sociocultural and Historical Contexts of African American English* Sonja L. Lanehart, 2001 This volume based on presentations at a 1998 state of the art conference at the University of Georgia critically examines African American English AAE socially culturally historically and educationally It explores the relationship between AAE and other varieties of English namely Southern White Vernaculars Gullah and Caribbean English creoles language use in the African American community e g Hip Hop women s language and directness and application of our knowledge about AAE to issues in education e g improving overall academic success To its credit since most books avoid the issue the volume also seeks to define the term AAE and challenge researchers to address the complexity of defining a language and its speakers The volume collectively tries to help readers better understand language

use in the African American community and how that understanding benefits all who value language variation and the knowledge such study brings to our society      *The Oxford Handbook of African American Language* Sonja Lanehart, 2015-05-04 The goal of *The Oxford Handbook of African American Language* is to provide readers with a wide range of analyses of both traditional and contemporary work on language use in African American communities in a broad collective. The Handbook offers a survey of language and its uses in African American communities from a wide range of contexts organized into seven sections: Origins and Historical Perspectives; Lects and Variation; Structure and Description; Child Language Acquisition and Development; Education; Language in Society; and Language and Identity. It is a handbook of research on African American Language (AAL) and as such provides a variety of scholarly perspectives that may not align with each other as is indicative of most scholarly research. The chapters in this book interact with one another as contributors frequently refer the reader to further elaboration on and references to related issues and connect their own research to related topics in other chapters within their own sections and the handbook more generally to create dialogue about AAL, thus affirming the need for collaborative thinking about the issues in AAL research. Though the Handbook does not and cannot include every area of research, it is meant to provide suggestions for future work on lesser studied areas, e.g., variation, heterogeneity in regional social and ethnic communities, by highlighting a need for collaborative perspectives and innovative thinking while reasserting the need for better research and communication in areas thought to be resolved.

**Language, Society, and Empowerment in Africa and Its Diaspora** Akinloyè Òjó, 2022-09-06 Africa's diversity is best illustrated linguistically. Thousands of endogenous and exogenous languages are linked to and central to the identity and reality of Africans. Language is a vital lens for analyzing these multifaceted challenges in Africa where a deeper understanding of the entire linguistic landscape is germane to understanding sociopolitical and cultural systems. Concentrating on instrumental and emblematic functions of language in Africa, *Language, Society, and Empowerment in Africa and Its Diaspora* argues for the critical value of African languages beyond functionality into philosophical consideration of their importance for African unity and advancement. Akinloyè calls for the development and empowerment of African languages to serve in various domains including the support of basic literacy and daily survival of their users. It propagates ways to empower African languages for African sociocultural and economic development in the twenty-first century. The author productively engages works by linguists and language pedagogues to provide an ardent case for the empowerment of African languages in the renewed era of globalization, the internet, and an emergent Global Africa. It posits and accentuates some of the notable modalities for empowering African languages in specialized domains for national and continental development.
