Functional and Phylogenetic Ecology in R Nathan G. Swenson, 2014-03-26 *Functional and Phylogenetic Ecology in R* is designed to teach readers to use R for phylogenetic and functional trait analyses Over the past decade a dizzying array of tools and methods were generated to incorporate phylogenetic and functional information into traditional ecological analyses Increasingly these tools are implemented in R thus greatly expanding their impact Researchers getting started in R can use this volume as a step by step entryway into phylogenetic and functional analyses for ecology in R More advanced users will be able to use this volume as a quick reference to understand particular analyses The volume begins with an introduction to the R environment and handling relevant data in R Chapters then cover phylogenetic and functional metrics of biodiversity null modeling and randomizations for phylogenetic and functional trait analyses integrating phylogenetic and functional trait information and interfacing the R environment with a popular C based program This book presents a unique approach through its focus on ecological analyses and not macroevolutionary analyses The author provides his own code so that the reader is guided through the computational steps to calculate the desired metrics This guided approach simplifies the work of determining which package to use for any given analysis Example datasets are shared to help readers practice and readers can then quickly turn to their own datasets

The transcendental imagination Charles E. Winqvist, 2013-12-01 The transcendental imagination is a philosophical conception used in this essay to illuminate the ontological significance of the continuing proclamation of the Word of God It has become necessary for theology to respond to the growth of secularization and the impoverishment of religious language in contemporary experience by initiating foundation al inquiry into the meaning and possibility of theological reflection The following essay is intended to be a preliminary step toward an understanding of theology and religious discourse as they are intimately bound to the realization of possibilities in the life of the church There are many people to whom I am indebted for my understanding of theology and for the development of this book I here would like to express my appreciation and gratitude to Professor George Guthrie for introducing me to foundational questions in the study of philosophy during my student years at the University of Toledo to Professors Schubert Ogden and David Tracy for their careful reading and criticism of this manuscript and especially to my advisor Professor Langdon Gilkey for his encouragement criticisms and suggestions during my graduate

study at the Divinity School The University of Chicago Most importantly I want to thank my wife Anna to whom this book is dedicated for sharing with me her strength creativity and love *Being Another Way* Dustin Klinger,2024-09-30 In *Being Another Way* Dustin Klinger recounts the history of how medieval Arabic philosophers in the Islamic East grappled with the logical role of the copula to be an ambiguity that has bedeviled Western philosophy from Parmenides to the analytic philosophers of today Working from within a language that has no copula a group of increasingly independent Arabic philosophers began to critically investigate the semantic role that Aristotle for many centuries their philosophical authority invested in the copula as the basis of his logic Drawing on extensive manuscript research Klinger breaks through the thicket of unstudied philosophical works to demonstrate the creativity of postclassical Islamic scholarship as it explored the consequences of its intellectual break with the past Against the still widespread view that intellectual ferment all but disappeared during the period he shows how these intellectuals over the centuries developed and refined a sophisticated philosophy of language that speaks to core concerns of contemporary linguistics and philosophy **Immutable** Karen Wiesner,2020-01-30 When mankind realized Earth would become uninhabitable Humans built space habitations Their first allies arrived in 2073 and shared their technology to power ships through space corridors that fold space and time Only 58 years into their struggle for survival an enemy emerges In the wake of this threat an organic menace is only beginning to be recognized ensuring the annihilation of every living thing if together they can't find a way to stop it Spacefaring liveship the Aero is on a routine mission to the far flung regions of the galaxy when they receive a distress call from their oldest space habitation outside the Sol System The structure has been brutally attacked inhabitants kidnapped or outright killed The crew aboard the Aero including Astoria Bertolotti librarian and planet cataloger and Raze Salen mankind's emissary search for clues to explain the unprecedented tragedy After several more similar distress calls from other habitations the savage pieces of the mystery begin to emerge and point to the culpability of humanity's short sightedness and desperation when they first began seeking out alternate spaces in the galaxy to call home In the midst of the imminent threat of war Raze and Tori present the immutable evidence of wrongdoing both intentional and inadvertent to their government as well as to their strongest and weakest allies who may have no choice but to desert them in yet another hour of dire need *Creative Music Making* William L Cahn,2016-05-06 Most musicians focus on learning technique learning how to play an instrument rather than on developing an individual unique voice *Creative Music Making* focuses on the creative development of musicians from all levels of experience and in all styles of music Based on the author's experience leading workshops for performers around the world the easy to follow exercises in this text will enable any musician from beginner to professional to improve creativity and self expression *Creative Music Making* will open the ears of all musicians vocalists or instrumentalists in classical popular or jazz styles to a world of new possibilities *Climate Change and Socio-political Violence in Sub-Saharan Africa in the Anthropocene* Jean Chrysostome K. peace ecology to the understanding and practice of environmental and conventional peacebuilding It integrates environmental questions and factors that drive socio political violence and climate change induced violence in Sub Saharan Africa in the Anthropocene It demonstrates how international peace and global security are no longer solely grounded in conventional peacebuilding that has evolved from liberal to democratic peace theories but rather in the complex critical and synergic relations between peace studies and environmental studies It provides a pluridisciplinary body of knowledge that emphasises the need for food security social climate social good social capital and sustainable development at the age of climate change and climate wars It underscores the potential of peace ecology to reduce the Earth systems vulnerability to mitigate anthropogenic global warming s consequences on humanity the ecosystem and biodiversity It yields various models of peacebuilding conflict sensitive and climate sensitive adaptation strategies to enhance the African Region s security and stability Finally this volume argues that planetary boundaries framework remains the safer space within which human and sustainable development can be pursued and attained and future generations to thrive A comprehensive and international response to socio political violence and climate change induced violence should take into account the vulnerability of individual countries regions and the global world in order to achieve the dreams of a better future that makes this book a cutting edge scholarly work *The Tragedy of Finitude* Jos de Mul,2004-01-01 The author then elaborates a systematic reconstruction of Dilthey s ontology of life In the final section of the book Dilthey s hermeneutic ontology is confronted with the works of Heidegger Gadamer and Derrida and its relevance in current philosophical debate is evaluated Jacket
