Original Commentary On Acts:

Original Commentary on Acts J. W. McGarvey, 2009-10-27 Much the greater part of Acts may be resolved into a detailed history of cases of conversion and of unsuccessful attempts at the conversion of sinners If we extract from it all cases of this kind with the facts and incidents preparatory to each and immediately consequent upon it we will have exhausted almost the entire contents of the narrative All other matters are merely incidental The events of the first chapter were designed to prepare the apostles for the work of converting men the gift of the Holy Spirit to them and to others was to qualify them for it the admission of the Gentiles was an incident connected with the conversion of Cornelius and others after him the conference in the fifteenth chapter grew out of these conversions and the long account of Paul's imprisonment in Jerusalem Caesarea and Rome with his sea voyage and shipwreck constitute but the connected history of his preaching to the mob in Jerusalem to the Sanhedrin to Felix to Festus to Agrippa and to the Jews and Gentiles in Rome The episode in the twelfth chapter concerning the persecutions by Herod and his death is designed to show that even under such circumstances the word of God grew and multiplied All the remainder of the history consists unmistakably in detailed accounts of conversions Such being the work performed by the author we may readily determine his design by inquiring Why should any cases of conversion be put upon the record Evidently it was that men might know how conversions were effected and in what they consisted The cases which are recorded represent all the different grades of human society all the different degrees of intellectual and religious culture all the common occupations in life and all the different countries and languages of the then known world The design of this variety is to show the adaptation of the one gospel scheme to the conversion of all classes of men Excerpted from the Introduction

Original Commentary on Acts: The Classic Bible Commentary Concerning the New Testament Book of Acts J. W. McGarvey, 2018-08-08 J W McGarvey's superb commentary on the Acts of the Apostles is an example of New Testament analysis and discussion accomplished with expertise scholarship and lucidity As a scholar of the Bible McGarvey was struck by the lack of a reliable and authoritative readings of the Book of Acts Such an important work of Christian history Acts relates the early spread of the Christian faith through the Roman Empire and beyond had not received an organized and sequential analysis explaining to readers The overarching message of Acts is simply that the reason followers of Jesus Christ created an entirely new church distinct from Judaism is that the Jewish priesthood and temple rejected his teachings and principles The book depicts a time of rapid change the legal distinctions of Judaism and Christianity are discussed by St Luke as is the apparent contradiction of the Jews rejecting a messiah who was himself born a Jew

perpetual problem for Christianity The racial divide in Christianity demands continual study and research dedicated to finding answers in the history of the Bible The book of Acts provides the historical account of the early church s cultural diversity and the apostles leadership to spread the gospel all over the world in the first century Therefore it is critical to research the apostles leadership specifically Peter and Paul to the diversity of the early church following Pentecost in the book of Acts and to apply discovered leadership principles to modern day church **A History of the Christian Councils, from the Original Documents: To the close of the Council of Nicaea, A.D. 325** Karl Joseph von Hefele,1872

Stewart,2014-05-06 A Jesus Creed 2015 Book of the Year This work provides a new starting point for studying the origins of church offices Alistair Stewart a leading authority on early Christianity and a meticulous scholar provides essential groundwork for historical and theological discussions Stewart refutes a long held consensus that church offices emerged

from collective leadership at the end of the first century He argues that governance by elders was unknown in the first centuries and that bishops emerged at the beginning of the church however they were nothing like bishops of a later period The church offices as presently known emerged in the late second century Stewart debunks widespread assumptions and misunderstandings offers carefully nuanced readings of the ancient evidence and fully interacts with pertinent secondary scholarship
