Education for Tomorrow Michael Risku, Letitia Harding, 2013-02-11 Education for Tomorrow A Biocentric

Student Focused Approach to Education Reform Michael Risku University of the Incarnate Word USA and Letitia Harding University of the Incarnate Word USA There are many books on the market which discuss indigenous ways of knowing and bemoan western society's seeming lack of interest in anything other than scientific fact based knowledge Equally plentiful are the writings of critical theorists who consider today's public education system to be divisive and manipulated by those in power to ensure that their children have the educational advantages needed to maintain the elite hierarchical status quo Education for Tomorrow is unique in that it brings both of these approaches together first by examining the ways that indigenous people and women of all cultures acquire and pass on knowledge and the deleterious effects that enforced Eurocentric systems have had on that process The authors then turn to public schools to explore the influences both good and bad that today's programs have on the distribution of opportunities afforded to all children in the United States Finally they offer suggestions for a revolutionary education system which highlights the need for all students to have the encouragement and freedom to look critically and rationally at their lives and at their relationship with the natural world This can be achieved by looking back to the pedagogical methods of our indigenous ancestors and forward to a time when all children regardless of ethnic or socio economic heritage are taught in such a way that every aspect of their lives is addressed nurtured valued and enhanced *Hope, Help, Healing with Archangel Raphael and the Angels* Mary LaSota, Harriet Sternberg, 2007-05 In this book Hope Help Healing with Archangel Raphael and The Angels many comments and much information is given which is extremely important at this time in terms of very much needed hope both in the present and for the future Planet Earth and the individuals living on it need to know about Angels Archangels Spirit Guides and Ascended Masters in order to avail themselves of all the helpful hopeful healing protecting and guiding ways they have given in the past and about how all these offerings can be utilized now The Emerald Joy Healing Ceremonials the attunements and the messages are valuable because they come directly from Archangel Raphael himself his contributions benefiting us all The authors intensive and extensive research about past Golden Ages and the predicted Golden Age to come culminates in a last chapter which shows the cosmic role Planet Earth has played in the past and needs to play again This book has come forth at this time to offer words of hope help and healing to a world in its transformational period **Siberian Shamanism** Virlana Tkacz, 2015-09-17 An intimate account of an ancient shamanic ritual of Siberia Illustrated with vivid full color photographs throughout Details the many preparations and ritual objects as well as the struggles of the shamans to complete the ceremony successfully Near the radiant blue waters of Lake Baikal in the lands where Mongolia Siberia and China meet live the Buryats an indigenous people little known to the Western world After seventy years of religious persecution by the Soviet government they can now pursue their traditional spiritual practices a unique blend of Tibetan Buddhism and shamanism There are two distinct shamanic paths in the Buryat tradition Black shamanism which draws power from the earth and White shamanism which draws power from the sky In the Buryat Aga region Black and White shamans conduct rituals together for

the Buryats believe that they are the children of the Swan Mother descendants of heaven who can unite both sides in harmony Providing an intimate account of one of the Buryats most important shamanic rituals this book documents a complete Shanar the ceremony in which a new shaman first contacts his ancestral spirits and receives his power Through dozens of full color photographs the authors detail the preparations of the sacred grounds ritual objects and colorful costumes including the orgay or shaman s horns and vividly illustrate the dynamic motions of the shamans as the spirits enter them Readers experience the intensity of ancient ritual as the initiate struggles through the rites encountering unexpected resistance from the spirit world and the elder shamans uncover ancient grievances that must be addressed before the Shanar can be completed successfully Interwoven with beautiful translations of Buryat ceremonial songs and chants this unprecedented view of one of the world s oldest shamanic traditions allows readers to witness extraordinary forces at work in a ritual that culminates in a cleansing blessing from the heavens themselves **The Alexander**

Technique Penelope Easten,2021-04-19 Our entire human structure is built for movement for all aspects of life This book offers a new theoretical framework for understanding integrated movement based on the latest scientific models and practical explorations Presenting a new interpretation of how Alexander developed his work Easten covers twelve fundamentals of movement and shows how optimal movement is organised around sensory and spatial awareness and our focus and goals The book describes how to reawaken innate balanced movement possibilities Up to date scientific research is woven into Alexander s concepts to give a whole picture of how the human body feels perceives and self organises Clarifying the functional anatomy that underpins the Alexander technique this book explains how to utilize the power of the autonomic nervous system and spatial awareness to allow us to change old harmful movement habits and enable new body learning Written accessibly and supported by illustrations and video demonstrations of techniques this book is ideal for Alexander technique teachers and trainees movement educators and somatic therapists **The Osaro Theory** Efosa Osaro,2019-07-11

The Osaro Theory suggests that there is a variation between those who evolved in tropical conditions and those who evolved in a colder climate It is the author s belief that these environmental differences have altered not only the physiology but are also responsible for the biological and the behavioral differences between blacks whites and Asians The Emotional Reservoir is a phrase he coined based on the study of the enormous effect of the sun on the earth and how it affects human biology physiology and behavior According to his theory these environmental differences have numerous effects on human beings also on how the environment can dictate human intelligence This theory also suggests that the people who evolved out of sub Saharan Africa tend to possess more Emotional Reservoir than the Europeans and Asians who evolved in a colder environment and who tend to have a lesser Emotional Reservoir Furthermore this higher Emotional Reservoir is also responsible for certain behaviors that are detrimental to the growth and the stability of these groups which in turn cause behavioral pathologies and poor decision making **Indigenous, Modern and Postcolonial Relations to Nature** Angela

Roothaan,2019-05-23 Indigenous Modern and Postcolonial Relations to Nature contributes to the young field of intercultural philosophy by introducing the perspective of critical and postcolonial thinkers who have focused on systematic racism power relations and the intersection of cultural identity and political struggle Angela Roothaan discusses how initiatives to tackle environmental problems cross nationally are often challenged by economic growth processes in postcolonial nations and further complicated by fights for land rights and self determination of indigenous peoples For these peoples survival requires countering the scramble for resources and clashing with environmental organizations that aim to bring their lands under their own control The author explores the epistemological and ontological clashes behind these problems This volume brings more awareness of what structurally obstructs open exchange in philosophy world wide and shows that with respect to nature we should first negotiate what the environment is to us humans beyond cultural differences It demonstrates how a globalizing philosophical discourse can fully include epistemological claims of spirit ontologies while critically investigating the exclusive claim to knowledge of modern science and philosophy This book will be of great interest to students and scholars of environmental philosophy cultural anthropology intercultural philosophy and postcolonial and critical theory

Prosperity in place Food and Agriculture Organization of the United Nations ,International Institute for Economic Development,2020-04-01 Future generations are shaped by the opportunities afforded now to youth Yet youth defined here as those between 15 24 years of age make up close to half the world s unemployed Rural rates of unemployment are particularly high This is especially so for young women United Nations figures class 75 percent of youth as underutilised By this they mean unemployed in irregular informal jobs or outside of formal education and training Underutilised youth are a missed opportunity This report is written for the leaders of Forest and Farm Producer Organisations FFPOs In rural areas FFPOs are often the major or sometimes only employers Set up to pursue the values of their members FFPOs contribute to rural prosperity namely a negotiated vision of that which people value and have reason to value in line with the common good All people have their own vision of what prosperity looks like and that is why a negotiation of a collective vision is important so that the perceptions of different groups of people such as youth are taken into account **Becoming Nature** Tamarack Song,2016-03-17 A step by step guide to animal communication connecting with your primal mind and immersing yourself in Nature Includes exercises for learning how to become invisible within Nature sense hidden animals and communicate with wild animals and birds Explains how to approach wild animals and form friendships with them Details the intuitive awareness of our hunter gatherer ancestors and their innate oneness with Nature Animals and plants are in constant communication with the world around them To join the conversation we need only to connect with our primal mind and recognize that we too are Nature Once in this state we can communicate with animals as effortlessly as talking with friends The songs of birds and the calls of animals start to make sense We begin to see the reasons for their actions and discover that we can feel what they feel We can sense the hidden animals around us then get close enough to look into their eyes and touch them Immersed in

Nature we are no longer intruders but fellow beings moving in symphony with the Dance of Life In this guide to becoming one with Nature Tamarack Song provides step by step instructions for reawakening the innate sensory and intuitive abilities that our hunter gatherer ancestors relied upon abilities imprinted in our DNA yet long forgotten Through exercises and experiential stories the author guides us to immerse ourselves in Nature at the deepest levels of perception which allows us to sense the surrounding world and the living beings in it as extensions of our own awareness He details how to open our minds and hearts to listen and communicate in the wordless language of wild animals and plants He explains how to hone our imagining skill so we can transform into the animal we are seeking along with becoming invisible by entering the silence of Nature He shows how to approach a wild animal on her own terms which erases her fear and shyness Allowing us to feel the blind yearning of a vixen Fox in heat and the terror of a Squirrel fleeing a Pine Marten the practices in this book strip away everything that separates us from the animals They enable us to restore our kinship with the natural world strengthen our spiritual relationships with the animals who share our planet and discover the true essence of the wild within us

Radical Wholeness Philip Shepherd, 2017-11-21 There are qualities we all yearn to experience in our lives peace simplicity grace connection clarity Yet these qualities evade us because each of them arises from an experience of wholeness and we live in a culture that enforces divisions within each of us In Radical Wholeness Philip Shepherd shows the countless ways in which we are persuaded to separate from the body and live in the head Disconnected from the body s intelligence we also disconnect from the wholeness

of the present This schism within us is the primary source of stress not just in our personal lives but for the systems of the planet Drawing from neuroscience anthropology physics the arts myth personal stories and his experiences helping people around the world to experience wholeness Philip Shepherd illuminates what true wholeness means and offers practices designed to help readers soften into the intelligence of the body Radical Wholeness is a call to action to recover wholeness and experience a new way of being

Redefining Prosperity Isabelle Cassiers,2014-08-27 Society today faces a difficult contradiction we know exactly how the physical limits of our planet are being reached and exactly why we cannot go on as we have before and yet collectively we seem unable to reach crucial decisions for our future in a timely way This book argues that our definition of prosperity which we have long assimilated with the idea of material wealth may be preventing us from imagining a future that meets essential human aspirations without straining our planet to the breaking point In other words redefining prosperity is a necessary and urgent task This book is the fruit of a long debate among 15 scholars from diverse fields who worked together to bring the depth and nuance of their respective fields to questions that affect us all The result is a rich transdisciplinary work that illuminates the philosophical and historical origins of our current definition of prosperity identifies the complex processes that gave rise to the problems we face today elucidates the ways in which our contemporary environmental social nutritional economic political and cultural crises are interconnected and explores why a half century of economic growth has neither increased life satisfaction in the West nor vanquished world poverty Approaching these broad ranging questions from the specific standpoints of their disciplines each of the authors offers thoughts for the future considering possible escape routes and proposing changes to the way we live behave and organise society and public action changes that actually respond in an equitable way to our deepest aspirations Ultimately in laying the groundwork for a public debate on this subject this book poses a question to its readers what is your definition of prosperity and what can be done to promote it
