**Originala verkaro** Ludwik Lazar Zamenhof, 1929      The Esperanto Movement Peter G. Forster, 2013-02-06

plunges into the mechanics of creating a language from scratch one based on rational systems that would be easy to learn politically neutral and allow all to speak to all Rooted in the dark soil of Europe Esperanto failed to stem the continent's bloodletting of course but as Schor shows the ideal continues draw a following of modern universalists dedicated to its visionary goal Rich and subtle *Bridge of Words* is at once a biography of an idea an original history of Europe and a spirited exploration of the only language charged with saving the world from itself *Virgil and his Translators* Susanna Braund,Zara Martirosova Torlone,2018-09-13 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective The twenty nine essays in the collection cover numerous European languages from English French and German to Greek Irish Italian Norwegian Slovenian and Spanish but also look well beyond Europe to include discussion of Brazilian Chinese Esperanto Russian and Turkish translations of Virgil While the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments The final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature but also why translation of a canonical author such as Virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance *This Is a Classic* Regina Galasso,2023-01-26 This Is a Classic illuminates the overlooked networks that contribute to the making of literary classics through the voices of multiple translators without whom writers would have a difficult time reaching a global audience It presents the work of some of today's most accomplished literary translators who translate classics into English or who work closely with translation in the US context and magnifies translators knowledge skills creativity and relationships with the literary texts they translate the authors whose works they translate and the translations they make The volume presents translators expertise and insight on how classics get defined according to language pairs and contexts It advocates for careful attention to the role of translation and translators in reading choices and practices especially regarding literary classics *Contested Languages* Marco Tamburelli,Mauro Tosco,2021-01-21 This is the first volume entirely dedicated to contested languages While generally listed in international language atlases contested languages usually fall through the cracks of research excluded from the literature on minority languages and treated as mere ensembles of geographically defined varieties by traditional dialectology This volume investigates the nature of contested languages the role language ideologies play in the perception of these languages the contribution of academic discourse to the formation and perpetuation of language contestedness and the damage contestedness causes to linguistic communities and ultimately to linguistic diversity Various

situations and degrees of language contestedness are presented and analysed along with theoretical considerations exploring potential roads to recognition and issues in language planning that arise from language contestedness Addressing the language vs dialect question head on the volume opens up new perspectives that are relevant to all students and researchers interested in the maintenance of linguistic diversity *Esperanto and Its Rivals* Roberto Garvía Soto, Roberto Garvía, 2015-06-04 Roberto Garvía explores the history of artificial spoken or written languages and the people who fought for them Taking the three most prominent Volapük, Esperanto and Ido Garvía investigates what drove so many to invest incredible energy and time to learn and promote them *Cultural Science* John Hartley, Jason Potts, 2014-09-25 Cultural Science introduces a new way of thinking about culture Adopting an evolutionary and systems approach the authors argue that culture is the population wide source of newness and innovation it faces the future not the past Its chief characteristic is the formation of groups or demes organised and productive subpopulation demes Demes are the means for creating, distributing and growing knowledge However such groups are competitive and knowledge systems are adversarial Starting from a rereading of Darwinian evolutionary theory the book utilises multidisciplinary resources Raymond Williams's culture is ordinary approach evolutionary science e.g. Mark Pagel and Herbert Gintis semiotics Yuri Lotman and economic theory from Schumpeter to McCloskey Successive chapters argue that Culture and knowledge need to be understood from an externalist, linked brains perspective rather than through the lens of individual behaviour Demes are created by culture especially storytelling which in turn constitutes both politics and economics The clash of systems including demes is productive of newness, meaningfulness and successful reproduction of culture Contemporary urban culture and citizenship can best be explained by investigating how culture is used and how newness and innovation emerge from unstable and contested boundaries between different meaning systems The evolution of culture is a process of technologically enabled, demographic concentration of knowledge across overlapping meaning systems or semiospheres a process where the number of demes accessible to any individual has increased at an accelerating rate resulting in new problems of scale and coordination for cultural science to address The book argues for interdisciplinary consilience linking evolutionary and complexity theory in the natural sciences, economics and anthropology in the social sciences and cultural communication and media studies in the humanities and creative arts It describes what is needed for a new modern synthesis for the cultural sciences It combines analytical and historical methods to provide a framework for a general reconceptualisation of the theory of culture one that is focused not on its political or customary aspects but rather its evolutionary significance as a generator of newness and innovation *Literary Cosmopolitanism in the English Fin de Siècle* Stefano Evangelista, 2021 This volume explores the significance of cosmopolitanism for literary studies and argues that the English fin de siècle witnessed an intense debate about cosmopolitanism which in turn influenced literary representations of individual and national identity and shaped attitudes towards the idea of world literature *Routledge Dictionary of Language and Linguistics* Hadumod

Bussmann,2006-02-20 The Routledge Dictionary of Language and Linguistics is a unique reference work for students and teachers of linguistics The highly regarded second edition of the Lexikon der Sprachwissenschaft by Hadumod Bussmann has been specifically adapted by a team of over thirty specialist linguists to form the most comprehensive and up to date work of its kind in the English language In over 2 500 entries the Dictionary provides an exhaustive survey of the key terminology and languages of more than 30 subdisciplines of linguistics With its term based approach and emphasis on clear analysis it complements perfectly Routledge s established range of reference material in the field of linguistics Esperanto Pierre Janton,2016-03-22 Esperanto spoken by thousands of people across the world is the most successful international language project In this book the French linguist and literary critic Pierre Janton describes the history of Esperanto since its invention in nineteenth century Eastern Europe and offers a comprehensive linguistic description of the language This book is the best general introduction to Esperanto and its role in the modern world Rooted in the populism and internationalism of the late nineteenth century Esperanto owes its origins in part to western European educational currents and in part to the cultural history of eastern European Jewry It is a fascinating historical and sociological phenomenon as well as a remarkable linguistic system The book contains a survey of today s movement for the promotion of Esperanto as an international language and a description of the extensive literature in Esperanto both original and translated Janton also provides a survey of the other global language projects explaining why Esperanto has prevailed *Esperanto Revolutionaries and Geeks* Guilherme Fians,2022-01-04 This book explores how Esperanto often regarded as a future oriented utopian project that ended up confined to the past persists in the present Constructed in the late nineteenth century to promote global linguistic understanding this language was historically linked to anarchism communism and pacifism Yet what political relevance does Esperanto retain in the present What impacts have emerging communication technologies had on the dynamics of this speech community Unpacking how Esperanto speakers are everywhere but concentrated nowhere the author argues that digital media have provided tools for people to re politicise acts of communication produce horizontal learning spaces and ultimately build an international community As Esperanto speakers question the post political consensus about communication rights this language becomes an ally of activism for open source software and global social justice This book will be of relevance to students and scholars researching political activism language use and community building as well as anyone with an interest in digital media more broadly Dictionnaires , **Catalog of Copyright Entries.
