Originality Of Thomas Jones:

The Originality of Thomas Jones Lawrence Gowing, 1986-01 *The Real History of Tom Jones* J. Stevenson, 2015-12-05

The *Real History of Tom Jones* revivifies historical materials from which Henry Fielding constructed the greatest comic novel of the eighteenth century. This study recovers and explores the contexts necessary to understand Fielding's subtle art such as the bloody conflict for the throne between Stuarts and Hanoverians, a contradictory class system, game laws that both protected and flouted individual property rights, and a justice system that proclaimed hanging for many crimes but let most criminals go. Drawing on evidence such as the peculiar appearance of eighteenth century money, the fraudulent autobiography of a gypsy king, and a magical prayer book illustration, the book offers new readings of both *Tom Jones* and the political and legal landscape of Georgian England.

The history of Tom Jones, a foundling Henry Fielding, 1826. A foundling of mysterious parentage brought up by Mr Allworthy on his country estate, Tom Jones is deeply in love with the seemingly unattainable Sophia Western, the beautiful daughter of the neighboring squire, though he sometimes succumbs to the charms of the local girls. When Tom is banished to make his own fortune, Sophia follows him to London to escape an arranged marriage; the adventure begins. A vivid Hogarthian panorama of eighteenth century life, spiced with danger and intrigue, bawdy exuberance, and good-natured authorial interjections, *Tom Jones* is one of the greatest and most ambitious comic novels in English literature.

O'Shei, 1998 *The Origin Legends of Early Medieval Britain and Ireland* Lindy Brady, 2022-08-04. The inhabitants of early medieval Britain and Ireland shared the knowledge that the region held four peoples, and the awareness that they must have originally come from elsewhere. *The Origin Legends of Early Medieval Britain and Ireland* studies these peoples' origin stories, an important genre that has shaped national identity and collective history from the early medieval period to the present day. These multilingual texts share many common features that repay their study as a genre but have previously been isolated as four disparate traditions and used to argue for the long roots of current nationalisms. Yet they were not written or read in isolation during the medieval period. Individual narratives were in constant development, written and rewritten to respond to other texts. This book argues that insular origin legends developed together to flesh out the history of the insular region as a whole.
