Origins Doctrine Of Fascism:

Origins and Doctrine of Fascism Giovanni Gentile, 2017-07-05 Giovanni Gentile 1875 1944 was the major theorist of Italian fascism supplying its justification and rationale as a developmental form of dictatorship for status deprived nations languishing on the margins of the Great Powers Gentile's actualism as his philosophy came to be called absorbed many intellectual currents of the early twentieth century including nationalism syndicalism and futurism He called the individual to an idealistic ethic of obedience work self sacrifice and national community in a dynamic rebellion against the perceived impostures of imperialism This volume makes available some of his more significant writings produced shortly before and after the Fascist accession to power in Italy *Social Darwinism in European and American Thought, 1860-1945* Mike Hawkins, 1997-03-13 An analysis of the ideological influence of Social Darwinists in Europe and America **THE**

DOCTRINE OF FASCISM Benito Mussolini, 2024-01-10 Benito Mussolini was an Italian politician teacher and journalist who wrote for left wing newspapers He enlisted in the army rising to the rank of sergeant In 1922 he organized the March on Rome and with the support of King Victor Emmanuel III he took over the cabinet as the Prime Minister of Italy In 1925 Mussolini became Il Duce the supreme leader of Italy Mussolini founded the National Fascist Party and became the most representative politician of fascist ideology In *The Doctrine of Fascism* Mussolini synthesizes fascist doctrine and its principles while also pointing out what he considers the limitations of other ideologies such as liberalism and socialism

21st Century Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions **Handbook of the History of the Philosophy of Law and Social Philosophy** Gianfrancesco Zanetti, Mortimer Sellers, Stephan Kirste, 2023-03-28 This Handbook discusses representative philosophers in the history of the philosophy of law and social philosophy giving clear concise expert definitions and explanations of key personalities and their ideas It provides an essential reference for experts and newcomers alike The Political Anatomy of Domination Béatrice Hibou, 2017-03-22 Rereading Marx Weber Gramsci and more recently Foucault Béatrice Hibou tackles one of the core questions of political and social theory state domination Combining comparative analyses of everyday life and economics she highlights the arrangements understandings and practices that make domination conceivable bearable even acceptable or reassuring To carry out this demonstration Hibou examines authoritarian situations especially comparing the paradigmatic European cases of fascism Nazism and Soviet socialism and those of contemporary China or North and Sub Saharan Africa **Vanguardism** Phillip W. Gray, 2019-12-06 Providing an innovative conceptualization to extremist political movements founded upon world historic populations and vanguard party organizations Vanguardism sets out a new path in investigating the intellectual and historical influences that created extremist politics the totalitarian movements and regimes of the twentieth century and a framework for interpreting

extremism in the present Expanding its view across the turbulent intellectual currents of the nineteenth century Philip W Gray illustrates how these ideas shaped the shared ideational and organizational structures that would develop into Leninism Fascism and Nazism in the early twentieth century Moving beyond the Second World War the book explicates how vanguardism did not vanish with the war's conclusion but was modified throughout the period of national liberation movements and Western extremist groups over the ensuing decades Concluding in the present with an eye to the future Gray presents a framework for comprehending the extremist movement of today and how organizational shifts can give us clues to the forms of totalitarian politics of tomorrow Original and provocative Vanguardism will become essential reading for everyone looking to understand totalitarianism and extremist politics of our time **History as Thought and Action** Rik Peters, 2013-12-03 This is the first book length study of the relationship between Benedetto Croce 1866 1952 Giovanni Gentile 1875 1944 Guido de Ruggiero 1888 1948 and Robin George Collingwood 1889 1943 Though the relationship between these highly influential philosophers has often been discussed it has never been studied comprehensively On the basis of published and unpublished writings this study carefully reconstructs their debate on the relationship between thought and action following their explorations of art history philosophy and action in the context of the First World War and the rise of Fascism and Nazism This book unveils the hidden past of contemporary philosophy of history and divulges the last secret of Collingwood's Italian connection [The Big Lie](#) Dinesh D'Souza, 2017-07-31 Of course everything D Souza says here is accurate But it's not going to sit well with people on the American left who of course are portraying themselves as the exact opposite of all of this RUSH LIMBAUGH The explosive new book from Dinesh D Souza author of the 1 New York Times bestsellers Hillary's America America and Obama's America What is the big lie of the Democratic Party That conservatives and President Donald Trump in particular are fascists Nazis even In a typical comment MSNBC host Rachel Maddow says the Trump era is reminiscent of what it was like when Hitler first became chancellor But in fact this audacious lie is a complete inversion of the truth Yes there is a fascist threat in America but that threat is from the Left and the Democratic Party The Democratic left has an ideology virtually identical with fascism and routinely borrows tactics of intimidation and political terror from the Nazi Brownshirts To cover up their insidious fascist agenda Democrats loudly accuse President Trump and other Republicans of being Nazis an obvious lie considering the GOP has been fighting the Democrats over slavery genocide racism and fascism from the beginning Now finally Dinesh D Souza explodes the Left's big lie He expertly exonerates President Trump and his supporters then uncovers the Democratic Left's long cozy relationship with Nazism how the racist and genocidal acts of early Democrats inspired Adolf Hitler's campaign of death how fascist philosophers influenced the great 20th century lions of the American Left and how today's anti free speech anti capitalist anti religious liberty pro violence Democratic Party is a frightening simulacrum of the Nazi Party Hitler coined the term the big lie to describe a lie that the great masses of the people will fall for precisely because of how bold and monstrous the lie is In [The Big Lie](#) D Souza

shows that the Democratic Left's orchestrated campaign to paint President Trump and conservatives as Nazis to cover up its own fascism is in fact the biggest lie of all

Totalitarianism and Political Religion A. Gregor, 2012-03-07 The totalitarian systems that arose in the twentieth century presented themselves as secular Yet as A James Gregor argues in this book they themselves functioned as religions He presents an intellectual history of the rise of these political religions tracing a set of ideas that include belief that a certain text contains impeccable truths notions of infallible charismatic leadership and the promise of human redemption through strict obedience selfless sacrifice total dedication and unremitting labor Gregor provides unique insight into the variants of Marxism Fascism and National Socialism that dominated our immediate past He explores the seeds of totalitarianism as secular faith in the nineteenth century ideologies of Ludwig Feuerbach Moses Hess Karl Marx Friedrich Engels Giuseppe Mazzini and Richard Wagner He follows the growth of those seeds as the twentieth century became host to Leninism and Stalinism Italian Fascism and German National Socialism each a totalitarian institution and a political religion

The Total Enemy Mikkel Thorup, 2015-02-23 The Total Enemy explores the most radicalized forms of enmity trying to unravel some of its historical and contemporary expressions Starting from the premise that one of modernity's constitutive values is non violence the book explores how non violence or rather the making of a world free of violence becomes a cause of violence in some instances even extreme violence and totalitarian terror The book consists of six case studies each exploring and discussing historically specific expressions of depicting an enemy as one the actors believe they can only deal with violently It begins by looking at two important sites in the development of the total enemy the French Revolution and the emergence of terrorist thinking in the middle of the nineteenth century The book then turns to the twentieth century beginning with the pre WWII conceptualizations of the total in European political thought as an answer to a liberal state deemed unfit to manage and control mass society Secondly it considers the totalitarian enemy in Nazi Germany especially Soviet Russia Finally the book turns to two forms of contemporary total enmity Islamism and in right wing extremism These concluding chapters look specifically at what happens to the total enemy concept once it goes from the state concept of the twentieth century to the private practice of the twenty first

A History of Italian Fascist Culture, 1922-1943 Alessandra Tarquini, 2022-04-12 Alessandra Tarquini's *A History of Italian Fascist Culture 1922 1943* is widely recognized as an authoritative synthesis of the field The book was published to much critical acclaim in 2011 and revised and expanded five years later This long awaited translation presents Tarquini's compact clear prose to readers previously unable to read it in the original Italian Tarquini sketches the universe of Italian fascism in three broad directions the regime's cultural policies the condition of various art forms and scholarly disciplines and the ideology underpinning the totalitarian state She details the choices the ruling class made between 1922 and 1943 revealing how cultural policies shaped the country and how intellectuals and artists contributed to those decisions The result is a view of fascist ideology as a system of visions ideals and above all myths capable of orienting political action and promoting a precise worldview Building on George

L. Mosse's foundational research Tarquini provides the best single volume work available to fully understand a complex and challenging subject. It reveals how the fascists used culture, art, cinema, music, theater, and literature to build a conservative revolution that purported to protect the traditional social fabric while presenting itself as maximally oriented toward the future.

The Age of Secularization Augusto Del Noce, 2017-11-08 Augusto Del Noce is widely considered one of Italy's foremost philosophers and political thinkers in the second half of the twentieth century. He is also remembered as an original and profound cultural critic and in particular as a great scholar of the process of secularization that took place in the West during the 1960s. A collection of eleven essays and lectures by Del Noce that originally appeared between 1964 and 1969 and which the author published as a book in 1971. **The Age of Secularization** quickly became recognized as one of the most original and penetrating attempts to interpret the cultural and political turmoil of the period. In its pages Del Noce discusses among other topics the student protests of 1968, the counterculture of the 1960s, the significance of the sexual revolution, the nature of the technological society, and the relationship between Christianity and modern culture. **The Age of Secularization** documents the encounter between a key period of contemporary history and the full intellectual maturity of one of its most perceptive observers. It makes available to English language readers a lasting reflection on the philosophical roots of contemporary culture, and it is just as illuminating and topical today as it was nearly fifty years ago.

Cultural Cold Wars and UNESCO in the Twentieth Century W. John Morgan, 2024-09-30 **Cultural Cold Wars and UNESCO in the Twentieth Century** addresses the now considerable interest in the concept of cultural cold war as a means of advancing ideologies. The book charts the development of the concept in the twentieth century. Structured in two parts, Part I considers the League of Nations' idealist attempts at international intellectual cooperation. It discusses also the first cultural cold war with the Communist International's attempts to advance communism. It also analyses the ideological and cultural appeal of Italian fascism, German national socialism, and Japanese nationalist militarism, and the transition from a wartime alliance to a new cold war. Part II examines the renewal of international intellectual cooperation through the United Nations Educational, Scientific, and Cultural Organization (UNESCO) in the context of a second cultural cold war between the capitalist democracies and the communist bloc. The book shows that UNESCO became a site of this ideological competition and an example of its tensions. Based on original research and a comprehensive review of the literature in Russian, German, and French, the book will appeal to academics, postgraduate researchers, advanced undergraduates, and others interested in recent international history and the comparative politics of ideas.

The Origins of Fascist Ideology 1918-1925 Emilio Gentile, 2013-10-18 This is the first detailed and definitive study of the development and initial success of fascism as it originated in Italy, right after the First World War.

Marxism and the Making of China J. Gregor, 2014-02-19 An assessment of the influence of the Marxism of Karl Marx and Friedrich Engels on revolutionary developments in China. The work covers the period from the first appearance of the Chinese Communist Party under Mao Zedong until its full

transformation by Deng Xiaoping into a nationalist developmental single party developmental dictatorship

A Primer of Italian Fascism Jeffrey Thompson Schnapp, Olivia E. Sears, Maria G. Stampino, 2000-01-01 A Primer of Italian Fascism makes available for the first time in English translation the key documents pertaining to one of our century's defining mass political movements Whereas existing anthologies survey Fascist writings in a multiplicity of national settings A Primer of Italian Fascism opts for a tightly focused in depth approach that emphasizes the development of Fascist ideology in the country of its birth Historically speaking Italian Fascism was the original Fascism The model for subsequent movements including Nazism Falangism and Integralism Italian Fascism set out to define a third way to modernization known as corporatism A Primer of Italian Fascism situates the rise and fall of corporatist ideals within the framework of the actual history of Mussolini's movement and regime It includes not only classic doctrinal statements such as Mussolini's Foundations and Doctrine of Fascism and writings by corporatist theorists such as Bottai Pellizzi Rocco and Spirito but also an array of fundamental political and juridical documents including the party platforms adopted by the Fascist combat brigades the 1938 Manifesto of Race the 1940 Manifesto of Verona and the Fascist labor and school charters By making available such an extensive array of source texts A Primer of Italian Fascism aims to open up for the English reader a more complex and complete vision of Fascism both in Italy and beyond

On Unemployment, Volume II Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book's various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

[The Broadview Anthology of Social and Political Thought - Volume 2: The Twentieth Century and Beyond](#) Andrew Bailey, Samantha Brennan, Will Kymlicka, Jacob T. Levy, Alex Sager, Clark Wolf, 2008-09-12 The second volume of this comprehensive anthology covers the twentieth and early twenty first centuries The anthology is broad ranging both in its selection of material by figures traditionally acknowledged as being of central importance and in the material it presents by a range of other figures

The material in this volume is presented in three sections The first Power and the State includes selections by such figures as Goldman Lenin Weber Schmitt and Hayek Among those included in the Race Gender and Colonialism section are de Beauvoir Gandhi Fanon and Young The third and by far the longest section Rights Based Liberalism and its Critics focuses on the many interrelated directions that social and political philosophy has taken since the publication of John Rawls s ground breaking A Theory of Justice in 1971 In order to better meet the needs of today s students the editors have made every effort to include accurate and accessible translations of the readings Additionally every selection has been painstakingly annotated and each figure is given a substantial introduction highlighting her or his major contributions within the tradition For figures of central importance the editors have included extended introductions that place the figure in the context of intellectual history as well as of political thought In order to ensure the highest standards of accuracy and accessibility the editors have consulted dozens of leading academics during the course of the volume s development many of whom have contributed introductory material as well as advice The result is an anthology with unparalleled pedagogical benefits The Broadview Anthology of Social and Political Thought sets the new standard for social and political philosophy instruction

Death of a Nation
Dinesh D'Souza, 2018-07-31 The 1 New York Times bestselling author tackles the biggest lie of the left that America is a society based on white supremacy Now a major motion picture Who is killing America Is it really Donald Trump and a GOP filled with white supremacists In a major new work of historical revisionism Dinesh D Souza makes the provocative case that Democrats are the ones killing America by turning it into a massive nanny state modeled on the Southern plantation system This sweeping alternative history of the Democratic Party goes back to its foundations in the antebellum South The slaveholding elite devised the plantation as a means of organizing labor and political support It was a mini welfare state a cradle to grave system that bred dependency and punished any urge to independence This model impressed northern Democrats inspiring the political machines that traded government handouts for votes from ethnic immigrant blocs Today s Democrats have expanded to a multiracial plantation of ghettos for blacks barrios for Latinos and reservations for Native Americans Whites are the only holdouts resisting full dependency and so they are blamed for the bigotry and racial exploitation that is actually perpetrated by the left *Death of a Nation* s bracing alternative vision of American history explains the Democratic Party s dark past reinterprets the roles of figures like Van Buren FDR and LBJ and exposes the hidden truth that racism comes not from Trump or the conservative right but rather from Democrats and progressives on the left

Origins Doctrine Of Fascism Introduction

In today's digital age, the availability of Origins Doctrine Of Fascism books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Origins Doctrine Of Fascism books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Origins Doctrine Of Fascism books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Origins Doctrine Of Fascism versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Origins Doctrine Of Fascism books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Origins Doctrine Of Fascism books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Origins Doctrine Of Fascism books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts

millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Origins Doctrine Of Fascism books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Origins Doctrine Of Fascism books and manuals for download and embark on your journey of knowledge?
