**Habsburg Communication in the Dutch Revolt** Monica Stensland, 2012 De politieke denkbeelden van de rebellen in de Opstand voorheen de Tachtigjarige Oorlog zijn al langer onderwerp van wetenschappelijk onderzoek Dit boek richt zich echter op het grotendeels onbesproken verhaal van het Habsburgse regime en zijn lokale aanhangers Hoe dachten zij over het conflict en hoe reageerden zij op de beschuldigingen van de opstandelingen De auteur heeft een verscheidenheid aan mondelinge schriftelijke en theatrale media onderzocht om te ontdekken hoe het regime gebruikmaakte van de verschillende communicatiekanalen Daarnaast is de reactie van gewone mensen op het conflict en op de tegenstrijdige berichtgeving in de publieke sfeer onderzocht

**A Cumulative Bibliography of Medieval Military History and Technology** Kelly DeVries, 2008 This is the second update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first two volumes and to present references to all books and articles published on medieval military history and technology from 2003 to 2006 These references are divided into the same categories as in the first two volumes and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first and second volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography

**How the West Came to Rule** Alexander Anievas, Kerem Nişancıolu, 2015-06-20 Winner of International Studies Association ISA s International Political Sociology Best Book Prize for 2017 Winner of British International Studies Association BISA s International Political Economy Working Group Book Prize of 2016 Shortlisted for the ISA Book Prize Mainstream historical accounts of the development of capitalism describe a process which is fundamentally European a system that was born in the mills and factories of England or under the guillotines of the French Revolution In this groundbreaking book a very different story is told How the West Came to Rule offers a interdisciplinary and international historical account of the origins of capitalism It argues that contrary to the dominant wisdom capitalism s origins should not be understood as a development confined to the geographically and culturally sealed

borders of Europe but the outcome of a wider array of global processes in which non European societies played a decisive role Through an outline of the uneven histories of Mongolian expansion New World discoveries Ottoman Habsburg rivalry the development of the Asian colonies and bourgeois revolutions Alexander Anievas and Kerem Nisancioglu provide an account of how these diverse events and processes came together to produce capitalism

*Handbook of Dutch Church History* Herman J. Selderhuis,2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments

*War and Conflict in the Early Modern World* Brian Sandberg,2016-06-13 In this latest addition to the War Conflict Through the Ages series Brian Sandberg offers a truly global examination of the intersections between war culture and society in the early modern period He traces the innovative military technologies and practices that emerged around 1500 exploring the different forms of warfare including dynastic war religious warfare raiding warfare and peasant revolt that shaped conflicts during the sixteenth and seventeenth centuries He explains how significant social economic and political developments transformed warfare on land and at sea at a time of global imperialism and growing mercantilism forcing states and military systems to respond to rapidly changing situations Engaging and insightful War and Conflict in the Early Modern World will appeal to scholars and students of world history the early modern period and those interested in the broader relationship between war and society

**Reformation in the Low Countries, 1500-1620** Christine Kooi,2022-06-09 This accessible general history of the Reformation in the Netherlands traces the key developments in the process of reformation both Protestant and Catholic across the whole of the Low Countries during the sixteenth century Synthesizing fifty years worth of scholarly literature Christine Kooi focuses particularly on the political context of the era how religious change took place against the integration and disintegration of the Habsburg composite state in the Netherlands Special attention is given to the Reformation s role in both fomenting and fuelling the Revolt against the Habsburg regime in the later sixteenth century as well as how it

contributed to the formation of the region's two successor states the Dutch Republic and the Southern Netherlands  
 Reformation in the Low Countries 1500-1620 is essential reading for scholars and students of early modern European history  
 bringing together specialized contemporary research on the Low Countries in one volume *Visions of World Community*  
 Jens Bartelson, 2009-10 A philosophical and historical analysis of the idea of world community from the late Middle Ages to  
 the present The Clash of Ideas in World Politics John M. Owen IV, 2010-07-19 Some blame the violence and unrest in the  
 Muslim world on Islam itself arguing that the religion and its history is inherently bloody Others blame the United States  
 arguing that American attempts to spread democracy by force have destabilized the region and that these efforts are  
 somehow radical or unique Challenging these views *The Clash of Ideas in World Politics* reveals how the Muslim world is in  
 the throes of an ideological struggle that extends far beyond the Middle East and how struggles like it have been a recurring  
 feature of international relations since the dawn of the modern European state John Owen examines more than two hundred  
 cases of forcible regime promotion over the past five centuries offering the first systematic study of this common state  
 practice He looks at conflicts between Catholicism and Protestantism between 1520 and the 1680s republicanism and  
 monarchy between 1770 and 1850 and communism fascism and liberal democracy from 1917 until the late 1980s He shows  
 how regime promotion can follow regime unrest in the eventual target state or a war involving a great power and how this  
 can provoke elites across states to polarize according to ideology Owen traces how conflicts arise and ultimately fade as one  
 ideology wins favor with more elites in more countries and he demonstrates how the struggle between secularism and  
 Islamism in Muslim countries today reflects broader transnational trends in world history **The Politics of Rape** Jennifer  
 L. Airey, 2012 Beginning with the outbreak of the Irish Rebellion of 1641 and concluding with reactions to the accession of  
 William and Mary *The Politics of Rape* is the first full length study to examine theatrical representations of sexual violence in  
 the latter half of the seventeenth century Between the Middle Ages and Modernity Charles H. Parker, Jerry H.  
 Bentley, 2007 This groundbreaking book examines the complex relationships between individuals and communities in the  
 profound transitions of the early modern period Taking a global and comparative approach to historical issues the  
 distinguished contributors show that individual and commun The Early Modern State: Drivers, Beneficiaries and  
Discontents Pepijn Brandon, Lex Heerma van Voss, Annemieke Romein, 2022-06-30 In the course of the early modern period  
 the capacity of European states to raise finances wage wars subject their own and far away populations and exert  
 bureaucratic power over a variety of areas of social life increased dramatically Nevertheless these changes were far less  
 absolute and definitive than the literature on the rise of the modern state once held While war pushed the boundaries of the  
 emerging fiscal military states of the seventeenth and eighteenth centuries rulers remained highly dependent on negotiations  
 with competing elite groups and the private networks of contractors and financial intermediaries Attempts to increase  
 control over subjects often resulted in popular resistance that in their turn set limits to and influenced the direction of the

development of state institutions Written in honour of the leading historian of war and state formation in the early modern Low Countries Marjolein t Hart the chapters gathered in this volume examine the main drivers beneficiaries and discontents of state formation across and beyond Europe in the early modern period      **The Rise of Fiscal States** Bartolomé Yun-Casalilla, Patrick K. O'Brien, Francisco Comín Comín, 2012-05-24 Leading economic historians present a groundbreaking series of country case studies exploring the formation of fiscal states in Eurasia      **Institutional Theatrics** Brandon Woolf, 2021-06-15 Shortlist 2021 Waterloo Centre for German Studies Book Prize 2022 Outstanding Book Award Finalist from the Association for Theater in Higher Education ATHE In a city struggling to determine just how neoliberal it can afford to be what kinds of performing arts practices and institutions are necessary and why Since the fall of the Berlin Wall political and economic agendas in the reunified German capital have worked to dismantle long standing traditions of state subsidized theater even as the city has redefined itself as a global arts epicenter Institutional Theatrics charts the ways theater artists have responded to these shifts and crises both on and offstage offering a method for rethinking the theater as a vital public institution What is the future of the German theater grounded historically in large ensembles extensive repertoires and auteur directors Examining the restructuring of Berlin s theatrical landscape and most prominent performance venues Brandon Woolf argues that cultural policy is not simply the delegation and distribution of funds Instead policy should be thought of as an artistic practice of institutional imagination Woolf demonstrates how performance can critique its patron institutions in order to transform the relations between the stage and the state between the theater and the infrastructures of its support Bold nuanced and rigorously documented Institutional Theatrics offers new insights about art its administration and the forces that influence cultural production      *War, Capital, and the Dutch State (1588-1795)* Pepijn Brandon, 2015-08-17 In War Capital and the Dutch State 1588 1795 Pepijn Brandon traces the interaction between state and capital in the organisation of warfare in the Dutch Republic from the Dutch Revolt of the sixteenth century to the Batavian Revolution of 1795 Combining deep theoretical insight with a thorough examination of original source material ranging from the role of the Dutch East and West India Companies to the inner workings of the Amsterdam naval shipyard and from state policy to the role of private intermediaries in military finance Brandon provides a sweeping new interpretation of the rise and fall of the Dutch Republic as a hegemonic power within the early modern capitalist world system Winner of the 2014 D J Veegens prize awarded by the Royal Holland Society of Sciences and Humanities Shortlisted for the 2015 World Economic History Congress dissertation prize early modern period      The European Reformation Euan Cameron, 2012-03-01 Since its first appearance in 1991 The European Reformation has offered a clear integrated and coherent analysis and explanation of how Christianity in Western and Central Europe from Iceland to Hungary from the Baltic to the Pyrenees splintered into separate Protestant and Catholic identities and movements Catholic Christianity at the end of the Middle Ages was not at all a uniformly decadent or corrupt institution it showed clear signs of cultural vigour and inventiveness However it was

vulnerable to a particular kind of criticism if ever its claims to mediate the grace of God to believers were challenged Martin Luther proposed a radically new insight into how God forgives human sin In this new theological vision rituals did not purify people priests did not need to be set apart from the ordinary community the church needed no longer to be an international body For a critical Reformation moment this idea caught fire in the spiritual political and community life of much of Europe Lay people seized hold of the instruments of spiritual authority and transformed religion into something simpler more local more rooted in their own community So were born the many cultures liturgies musical traditions and prayer lives of the countries of Protestant Europe This new edition embraces and responds to developments in scholarship over the past twenty years Substantially re written and updated with both a thorough revision of the text and fully updated references and bibliography it nevertheless preserves the distinctive features of the original including its clearly thought out integration of theological ideas and political cultures helping to bridge the gap between theological and social history and the use of helpful charts and tables that made the original so easy to use      **European Warfare, 1494-1660** Jeremy Black,2005-07-05 The onset of the Italian Wars in 1494 subsequently seen as the onset of modern warfare provides the starting point for this impressive survey of European Warfare in early modern Europe Huge developments in the logistics of war combined with exploration and expansion meant interaction with extra European forms of military might Jeremy Black looks at technological aspects of war as well social and political developments and effects during this key period of military history This sharp and compact analysis contextualises European developments and as establishes the global significance of events in Europe
