of the Second International It critically examines the promise for an alternative socialist utopia from 1870 to the 1920s Todorova brings in the experience of the periphery in a comparative context in the belief that the margins can often elucidate better the character of a phenomenon and de provincialize it from essentialist notions In doing so *The Lost World of Socialists at Europe's Margins* moves beyond the traditional historiographical emphasis on ideology by looking at different intersections or entanglements of spaces generations genders ideas and feelings and different flows of historical time The study provides a social and cultural history of early socialism in Eastern Europe with an emphasis on Bulgaria arguably the country with the earliest and strongest socialist movement in Southeast Europe and one that had a unique relationship to both German and Russian social democracy Based on a rich prosopographical database of around 3500 biographies of people born in the 19th century the book addresses the interplay of several generations of leftists looking at the specifics of how ideas were generated received transferred and transformed Finally the work investigates the intersection between subjectivity and memory as reflected in a unique cache of archival materials containing over 4000 documentary sources including diaries oral interviews and unpublished memoirs A microhistorical approach to this material allows the reconstruction of structures of feeling that inspired an exceptional group of individuals

Jahanbegloo,2020-12-10 In *Mapping the Role of Intellectuals in Iranian Modern and Contemporary History* Jahanbegloo and contributors examine the role of Iranian intellectuals in the history of Iranian modernity They trace the contributions of intellectuals in the construction of national identity and the Iranian democratic debate analyzing how intellectuals balanced indebtedness to the West with the issue of national identity in Iran Recognizing how intellectual elites became beholden to political powers the contributors demonstrate the trend that intellectuals often opted for cultural dissent rather than ideological politics

Bellicose Entanglements 1914 Maximilian Lakitsch,Susanne Reitmair-Juárez,Katja Seidel,2015 The First World War is often described as a regional war with few repercussions beyond Europe However by the dawn of the 20th century global political and economic entanglements of empires and nation states had reached unprecedented dimensions Consequently the war affected the lives of millions of combatants and civilians alike politically socially and culturally This book shifts the Eurocentric focus of Europeans fighting and dying on European battlefields to a broader global perspective With local accounts and perceptions ranging from Argentina to Afghanistan from Iran to Senegal the volume sheds light on the multitude of contributions to and consequences of the First World War all around the world

The A to Z of Iran John H. Lorentz,2010-04-14 Iran is a country with a deep and complex history Over several thousand years Iran has been the source of numerous creative contributions to the spiritual and literary world and the site of many remarkable manifestations of material culture The special place that Iran has come to hold in contemporary historical events most recently as a center stage actor in the unfolding and interconnected drama of worldwide nuclear arms proliferation and terrorism is all the more

reason to explore the characters and personality of Iran and Iranians The A to Z of Iran is designed to give the reader a quick and understandable overview of specific events movements people political and social groups places and trends Through its extensive chronology introduction bibliography appendixes and more than double the number of cross referenced dictionary entries as in the previous edition the work allows for considerable exploration of a number of historical and contemporary topics and issues In particular the modern period defined as 1800 present is covered extensively *The Tsar's Armenians* Onur Önel, 2017-05-30 In 1903 Tsar Nicholas II issued a decree allowing the confiscation of Armenian Church property marking the low point in relations between imperial Russia and its Armenian subjects Yet just over a decade later Russian Armenians were fully supportive of the Russian war effort Drawing on previously untouched archival material and a range of secondary sources published in English French Russian and Turkish this is the first English language study of this drastic change in relations in the Caucasus Onur Onol explains how and why the shift took place by looking in detail at the imperial Russian authorities and their relationship with the three pillars of the Russian Armenian community the Armenian Church the Armenian bourgeoisie and the Armenian Revolutionary Federation Dashnaktsutun Onol places the evolution within a context of wider political questions such as the Russian revolutionary movement Russia's nationalities question Tsarist fears of pan Islamism the path to World War I and the influence of key characters in Russian policy making from Pyotr Stolypin to Illarion Vorontsov Dashkov This book fills a conspicuous void in the extant historiography and will be of interest to scholars working on Russian Armenian and Ottoman history **Civil Society and Democracy in Iran** Ramin

Jahanbegloo, 2011-12-30 In this timely informative edited volume major Iranian scholars and civic actors address some of the most pressing questions about Iranian civil society and the process of democratization in Iran They describe the role of Iranian civil society in the process of transition to democracy in Iran and offer insight about the enduring legacy of previous social and political movements starting with the Constitutional Revolution of 1906 in the struggle for democracy in Iran Each contributor looks at different aspects of Iranian civil society to address the complex nature of the political order in Iran and the possibilities for secularization and democratization of the Iranian government Various contributors analyze the impact of religion on prevailing democratic thought discussing reformist religious movements and thinkers and the demands of religious minorities Others provide insight into the democratic implications of recent Iranian women's rights movements call for secularism within government and the pressure placed on the existing theocracy by the working class The contributors address these and related issues in all their richness and complexity and offer a set of discussions that is both accessible and illuminating for the reader State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while

challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves [Bibliographie Internationale de Science Politique](#), 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *For Land and Culture* Peyman Vahabzadeh, 2024-10-23T00:00:00Z For Land and Culture offers the first comprehensive account of a long forgotten and neglected grassroots movement In the wake of Iran s 1979 revolution Turkmen peasants collectively occupied their ancestral lands which had been seized through colonial modernization land registry and land reform under the Pahlavi monarchy The book chronicles this movement using theoretical and historical engagement with the modern councils and offers a detailed account of the land question in Iran s colonial modernization The book describes the systematic dispossession of Turkmen communities from some of the most fertile areas in Iran Vahabzadeh shows how Turkmen land occupation in 1979 led to a sophisticated council system that offered a practical politics of semi autonomous democratic self governance in the face of hostile militias and other forces of the nascent authoritarian Islamic Republic With social justice as one of its unshakable pillars the Turkmen council movement took back land as commons and abolished capitalist private ownership of land providing an alternative to top down politics until it was defeated by the state through a combination of military terror and assimilation Although short lived the radically democratic movement connected with global struggles of Indigenous Peoples and autonomous movements that had broken away from patriarchal state forms and capitalist domination

[Literature of the Early Twentieth Century: From the Constitutional Period to Reza Shah](#) A. A. Seyed-Gohrab, 2015-07-22 The eleventh volume in this ground breaking series pays special attention to politically engaged poetry written during a turbulent period which saw the Constitutional Revolution in Iran as well as the rise to power of Reza Shah and his attempts to implement reform Throughout this time poets began to turn their attention towards the country s ordinary people rather than concentrate on its elites This volume also examines the prose fiction of the period which saw the rise of the novel and short story Additionally Persian satire began to grow in importance especially with the increased popularity of poets and novelists such as Iraj Mirza and Sadeq Hedayat This wide ranging volume is an invaluable companion for anyone who wants to understand how the Persian literary scene changed at the beginning of the twentieth century reflecting the social and political contexts in which this literature was created **Iran** Laura Etheredge Assistant Editor, Middle East

Geography, 2011-01-15 Examines the culture politics and history of Iran and describes the geography of the country **An American Martyr in Persia: The Epic Life and Tragic Death of Howard Baskerville** Reza Aslan, 2022-10-11 One of NPR s Books We Love in 2022 In this erudite and piercing biography best selling author Reza Aslan proves that one person s actions can have revolutionary consequences that reverberate the world over Little known in America but venerated as a

martyr in Iran Howard Baskerville was a twenty two year old Christian missionary from South Dakota who traveled to Persia modern day Iran in 1907 for a two year stint teaching English and preaching the gospel He arrived in the midst of a democratic revolution the first of its kind in the Middle East led by a group of brilliant young firebrands committed to transforming their country into a fully self determining constitutional monarchy one with free elections and an independent parliament The Persian students Baskerville educated in English in turn educated him about their struggle for democracy ultimately inspiring him to leave his teaching post and join them in their fight against a tyrannical shah and his British and Russian backers The only difference between me and these people is the place of my birth Baskerville declared and that is not a big difference In 1909 Baskerville was killed in battle alongside his students but his martyrdom spurred on the revolutionaries who succeeded in removing the shah from power signing a new constitution and rebuilding parliament in Tehran To this day Baskerville s tomb in the city of Tabriz remains a place of pilgrimage Every year thousands of Iranians visit his grave to honor the American who gave his life for Iran In this rip roaring tale of his life and death Aslan gives us a powerful parable about the universal ideals of democracy and to what degree Americans are willing to support those ideals in a foreign land Woven throughout is an essential history of the nation we now know as Iran frequently demonized and misunderstood in the West Indeed Baskerville s life and death represent a road not taken in Iran Baskerville s story like his life is at the center of a whirlwind in which Americans must ask themselves How seriously do we take our ideals of constitutional democracy and whose freedom do we support
