Building News ,1881 *Ornament and Figure in Graeco-Roman Art* Nikolaus Dietrich,Michael Squire,2018-03-19 How does decoration work What are the relations between figurative and ornamental modes And how do such modern western distinctions relate to other critical traditions While these questions have been much debated among art historians our book offers an ancient visual cultural perspective On the one hand we argue Greek and Roman materials have proved instrumental in shaping modern assumptions On the other hand those ideologies are fundamentally removed from ancient ideas an ancient perspective can therefore shed light on larger aesthetic debates about what images are or indeed what they should be This anthology of specially commissioned essays explores a variety of case studies both literary and art historical alike it discusses materials from across the ancient Mediterranean and from Geometric art all the way through to late antiquity the book also tackles questions of figure and ornament in relation to different media including painting free standing statues relief sculpture mosaics and architecture A particular feature of the volume lies in bringing together different national academic traditions building a bridge between formalist approaches and broader cultural historical perspectives
