Brodhead, 2001 Best known as the author of the pioneering

Key to North American Birds Elliott Coues 1842-99 was one of America's most renowned but least understood ornithologists and historians as well as a naturalist, anatomist, taxonomist, writer and editor, Army surgeon on the American frontier, occultist and the youngest person ever to become a member of the National Academy of Sciences. Now available in paperback, this comprehensive biography of a brilliant, ambitious and phenomenally productive man ranks as the definitive life of Elliott Coues. John Xántus Ann Zwinger, 2022-02-22 John Xántus was a bit of a charlatan of that there is little doubt. He lied about his exploits, joined the U.S. Army under an assumed name and managed to alienate most of the people he met. Yet this Hungarian immigrant became one of the Smithsonian Institution's most successful collectors of natural history specimens in the mid-nineteenth century and he is credited with the discovery of many new species in the American West. From his station at Ft. Tejon in California's Tehachapi Mountains, Xántus carried on a lengthy correspondence with Spencer Baird at the Smithsonian to whom he shipped the specimens he had trapped or shot in the surrounding sierra and deserts. A prolific letter writer, Xántus faithfully reported his findings as he bemoaned his circumstances and worried about his future. Working from Smithsonian archives, natural history writer Ann Zwinger has assembled Xántus's unpublished letters into a book that documents his trials and triumphs in the field and reveals much about his dubious character. The letters also bring to life a time and place on the western frontier from which Xántus was able to observe a broad panorama of American history. In the making, Zwinger's lively introduction sets the stage for Xántus's correspondence and examines the apparent contradictions between the man's personal and professional lives. Her detailed notes to the letters further clarify his discoveries and shed additional light on his checkered career. **Frontier Medicine at Fort Davis and Other Army Posts: True Stories of Unglamorous Maladies**

Donna Gerstle Smith, 2022-10 From a headless burial to cocaine toothache drops, the true stories hidden in the Wild West's medical records are a match for its tallest tales. In the 19th century, when dying young was a fact of life, a routine bout of diarrhea could be fatal. No one had heard of viruses or bacteria, but they killed more soldiers on the frontier than hostile raiding parties. Physicians dispensed whiskey for TB, mercury for VD, and arsenic for indigestion. Baseball injuries were considered to be in the line of duty and twice resulted in amputations at Fort Davis. Donna Gerstle Smith explains how an industrious laundress could earn more than a private, how a female army surgeon won the Medal of Honor, and how a garrison illegally hung the local bartender. **Requiem for the Santa Cruz** Robert H. Webb, Julio L.

Betancourt, R. Roy Johnson, Raymond M. Turner, Bernard L. Fontana, 2014-06-12 Requiem for the Santa Cruz is the natural history of the life and death of a Southwestern river. The book is a model for explaining changes in river systems and the consequences. Provided by publisher. *Natural History Investigations in South Carolina* Albert E. Sanders, William Dewey Anderson, 1999 The story of South Carolina's natural history investigations, especially in zoology and botany. It describes the state's diverse flora and fauna, the impact of social, political and economic events on natural history, and the role Charleston played in the state's scientific heritage.
