**Orphanage as Scientific Community** Kelly Joan Whitmer,2015-05-12 Founded around 1700 by a group of German  
Lutherans known as Pietists the Halle Orphanage became the institutional headquarters of a universal seminar that still  
stands largely intact today It was the base of an educational charitable and scientific community and consisted of an elite  
school for the sons of noblemen Yet its reputation as a Pietist enclave inhabited largely by young people has prevented the  
organisation from being taken seriously as a kind of scientific academy even though Kelly Joan Whitmer shows this is  
precisely what it was This book calls into question a long standing tendency to view German Pietists as anti science and anti

Enlightenment arguing that these tendencies have drawn attention away from what was actually going on inside the orphanage
