Orpheus & Company Deborah DeNicola, 1999 Today's poets provide a new spin on Greek myths *Twentieth-Century Metapoetry and the Lyric Tradition* Daniella Jancsó, 2019-02-19 Twentieth Century Metapoetry and the Lyric Tradition reveals the unique value of metapoems for exploring twentieth century poetry By placing these texts into a hitherto barely investigated literary historical perspective it demonstrates that modern metapoetry is steeped in the lyric tradition to a much greater extent than previously acknowledged Since these literary continuities that cut across epochal boundaries can be traced across all major poetic movements they challenge established accounts of the history of twentieth century poetry that postulate a radical break with the immediate past Moreover the finding that metapoems perpetuate traditional forms and topoi distinguishes metapoetry historically and systematically from metafiction and metadrama After highlighting the most important differences as regards to the function of metareference in poetry on the one side and in fiction and drama on the other the book concludes with a discussion of how to account for these generic differences theoretically With its extraordinarily subtle and perceptive Ronald Bush St John's College Oxford interpretive readings of over one hundred metapoems by canonical anglophone authors it offers the first representative selection of twentieth century poems about poetry in English Women Versed in Myth Colleen S. Scott Smith, Stephen Brunet, 2016-09-06 This new edition of *Anthology of Classical Myth* offers selections from key Near Eastern texts the Babylonian Epic of Gilgamesh Epic of Creation Enuma Elish and Atrahasis the Hittite Song of Emergence and the flood story from the book of Genesis thereby enabling students to explore the many similarities between ancient Greek and Mesopotamian mythology and enhancing its reputation as the best and most complete collection of its kind

**Flesh of My Flesh** Kaja Silverman, 2009-10-28 What is a woman What is a man How do they and how should they relate to each other Does our yearning for wholeness refer to something real and if there is a Whole what is it and why do we feel so estranged from it For centuries now art and literature have increasingly valorized uniqueness and self sufficiency The theoreticians who loom so large within contemporary thought also privilege difference over similarity Silverman reminds us that this is but half the story and a dangerous half at that for if we are all individuals we are doomed to be rivals and enemies A much older story one that prevailed through the early modern era held that likeness or resemblance was what organized the universe and that everything emerges out of the same flesh

Silverman shows that analogy so discredited by much of twentieth century thought offers a much more promising view of human relations. In the West the emblematic story of turning away is that of Orpheus and Eurydice and the heroes of Silverman's sweeping new reading of nineteenth and twentieth century culture. The modern heirs to the old analogical view of the world also gravitate to this myth. They embrace the correspondences that bind Orpheus to Eurydice and acknowledge their kinship with others past and present. The first half of this book assembles a cast of characters not usually brought together: Friedrich Nietzsche, Sigmund Freud, Marcel Proust, Lou Andr  s, Salom   Romain Rolland, Rainer Maria Rilke, Wilhelm Jensen, and Paula Modersohn-Becker. The second half is devoted to three contemporary artists whose works we see in a moving new light: Terrence Malick, James Coleman, and Gerhard Richter.

*Homer's Daughters* Fiona Cox, Elena Theodorakopoulos, 2019-10-03. This collection of essays examines the various ways in which the Homeric epics have been responded to, reworked, and rewritten by women writers of the twentieth and early twenty-first centuries. Beginning in 1914 with the First World War, it charts this understudied strand of the history of Homeric reception over the subsequent century up to the present day, analysing the extraordinary responses both to the *Odyssey* and to the *Iliad* by women from around the world. The backgrounds of these authors and the genres they employ—memoir, poetry, children's literature, rap novels—testify not only to the plasticity of Homeric epic but also to the widening social classes to whom Homer appeals, and it is unsurprising to see the myriad ways in which women writers across the globe have played their part in the story of Homer's afterlife. From surrealism to successive waves of feminism to creative futures, Homer's footprint can be seen in a multitude of different literary and political movements, and the essays in this volume bring an array of critical approaches to bear on the work of authors ranging from H.D. and Simone Weil to Christa Wolf, Margaret Atwood, and Kate Tempest. Students and scholars of not only classics but also translation studies, comparative literature, and women's writing will find much to interest them, while the volume's concluding reflections by Emily Wilson on her new translation of the *Odyssey* are an apt reminder to all of just how open a text can be and of how great a difference can be made by a woman's voice.

**The Challenges of Orpheus** Heather Dubrow, 2011-06-15. This critical exploration of how we define lyric poetry is thorough, penetrating, and on the cutting edge of contemporary scholarship. Choice. As a literary mode, lyric is difficult to define. The term is conventionally applied to brief, songlike poems expressing the speaker's interior thoughts, but many critics have questioned the underlying assumptions of this definition. While many people associate lyric with the Romantic era, Heather Dubrow turns instead to the poetry of early modern England. *The Challenges of Orpheus* confronts widespread assumptions about lyric, exploring such topics as its relationship to its audiences, the impact of material conditions of production, and other cultural pressures. Lyric's negotiations of gender and the interactions and tensions between lyric and narrative, Dubrow offers fresh perspectives on major texts of the period, from Sir Thomas Wyatt's *My lute awake* to John Milton's *Nativity Ode*, as well as poems by lesser-known figures. She also extends her critical conclusions to poetry in other historical periods and to the relationship between

creative writers and critics recommending new directions for the study of lyric and of genre A Choice Magazine Outstanding Academic Title Memory, Metaphors, and Meaning Nicolae Babuts, 2017-07-05 Literature explores the human condition the mystery of the world life and death as well as our relations with others and our desires and dreams It differs from science in its aims and methods but Babuts shows in other respects that literature has much common ground with science Both aim for an authentic version of truth To this end literature employs metaphors and it does so in a manner similar to that of scientific inquiry The cognitive view does not imply that there is a one to one correlation between the world and text that meaning belongs to the author or that literature is equivalent to perception What it does maintain is that meaning is crucially dependent on mnemonic initiatives and that without memory the world remains meaningless Nicolae Babuts claims that at the interface with the printed page readers process texts in a manner similar to the way they explain the visible world in segments or units of meaning or dynamic patterns Babuts argues that humans achieve recognition by integrating stimulus sequences with corresponding patterns that recognize and interpret each segment of a text Memory produces meaning from these patterns In harmony with its goals memory may adopt specific strategies to deal with different stimuli Dynamic patterns link the unit of processing with the unit of meaning In sum Babuts proposes that meaning is achieved through metaphors and narrative and that both are ways to reach cognitive goals This original study offers perspectives that will interest cognitive psychologists as well as those simply interested in the process through which literature stirs the human imagination **Greatest hits 1975-2000** Kevin FitzPatrick, 2001 **The Return of Ulysses** Edith Hall, 2008-01-30 Whether they focus on the bewitching song of the Sirens his cunning escape from the cave of the terrifying one eyed Cyclops or the vengeful slaying of the suitors of his beautiful wife Penelope the stirring adventures of Ulysses Odysseus are amongst the most durable in human culture The picaresque return of the wandering pirate king is one of the most popular texts of all time crossing East West divides and inspiring poets and film makers worldwide But why over three thousand years has the Odyssey s appeal proved so remarkably resilient and long lasting In her much praised book Edith Hall explains the enduring fascination of Homer s epic in terms of its extraordinary susceptibility to adaptation Not only has the story reflected a myriad of different agendas but from the tragedies of classical Athens to modern detective fiction film travelogue and opera it has seemed perhaps uniquely fertile in generating new artistic forms Cultural texts as diverse as Joyce s Ulysses Suzanne Vega s Calypso Monteverdi s Il Ritorno d Ulisse in Patria the Coen Brothers O Brother Where Art Thou Daniel Vigne s Le Retour de Martin Guerre and Anthony Minghella s Cold Mountain all show that Odysseus is truly a versatile hero His travels across the wine dark Aegean are journeys not just into the mind of one of the most brilliantly creative of all the ancient Greek writers They are as much a voyage beyond the boundaries of a narrative which can plausibly lay claim to being the quintessential global phenomenon **Ancient Greek Women in Film** Konstantinos P. Nikoloutsos, 2013-11-28 This volume examines cinematic representations of ancient Greek women from the realms of myth and history It discusses how these female figures

are resurrected on the big screen by different filmmakers during different historical moments and are therefore embedded within a narrative which serves various purposes depending on the director of the film its screenwriters the studio the country of its origin and the sociopolitical context at the time of its production Using a diverse array of hermeneutic approaches such as gender theory feminist criticism psychoanalysis viewer response theory and personal voice criticism the essays aim to cast light on cinema's investments in the classical past and decode the mechanisms whereby the women under examination are extracted from their original context and are brought to life to serve as vehicles for the articulation of modern ideas concerns and cultural trends The volume thus aims to investigate not only how antiquity on the screen depicts and in this process distorts compresses contests and revises antiquity on the page but also more crucially why the medium follows such eclectic representational strategies vis vis the classical world
