

THE PAST IS THE PAST

and has nothing to do with you.

It has nothing to do with right now.

Do not let anything from your past
inhibit you in this present moment.

Start over. Start Fresh.

Each day. Each hour, if it serves you.

Heck, each minute. Just get going.

Staging the Past in the Age of Thatcher

Anthony P. Pennino, 2018-08-07 This book investigates how the British theatrical community offered an alternative and oppositional historical narrative to the heritage culture promulgated by the Thatcher and Major Governments in the 1980s and early 1990s It details the challenges the theatre faced especially reductions in government funding and examines seminal playwrights of the period including but not limited to Caryl Churchill Howard Brenton Sarah Daniels David Edgar and Brian Friel who dramatized a more inclusive vision of history that gave voice to traditionally marginalized communities It employs James Baldwin's concept of witnessing as the means by which history could be deployed to articulate an alternative and emergent political narrative the history we haven't had This book will appeal to students and scholars of theatre and cultural studies as well as theatre practitioners and enthusiasts

The Presented Past B. L. Molyneaux, P. G. Stone, 2003-09-02 *The Presented Past* is concerned with the differences between the comparatively static well understood way in which the past is presented in schools museums and at historic sites compared to the approaches currently being explored in contemporary archaeology It challenges the all too frequent representation of the past as something finished understood and objective rather than

something that is constructed and therefore open to co existing interpretations and constant re interpretation Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non documentary sources derived from archaeological study and oral histories The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught The Presented Past will be of interest to teachers archaeologists cultural resource managers in fact anyone who is concerned with how the past is presented

Signatures of the Past Marc Maufort, Caroline De Wagter, 2008 In the last decades of the twentieth century North American drama has powerfully enacted the problematic notions of cultural memory and identity as the essays assembled in this critical anthology demonstrate Echoing Derrida's non-essentialist interpretation of the term signature this collection provides an innovative focus on North American theatre and drama as a site of latent cultural memories In this volume the concept of cultural memory offers a privileged vantage point from which to redefine issues of diasporic identities exilic predicaments and multi-ethnic subject positions at the dawn of a new century Playwrights examined here include noted Canadian and US artists such as Marie Clements Eva Ensler Lorraine Hansberry Tomson Highway Cherríe Moraga Djanet Sears Guillermo Verdecchia August Wilson and Chay Yew to cite but a few In the process of remembering North American dramatists develop new aesthetic modes in which the signatures of the past merge with the present and foreshadow an imagined future

The Past Coming to Roost in the Present Adrian Knapp, 2006-10-07 Since the final demise of apartheid in 1994 South Africa has undergone dramatic changes in the political social and economic sphere It is not surprising that these changes have also resulted in contentious reassessments of recent history Many contemporary South African writers have taken up the challenge and created works offering new ways of critically re-imagining the country's violent past While Andr   P. Brink's *Imagined Lands* and Zakes Mda's *Ways of Dying* constitute renegotiations of the past during the period of transition J. M. Coetzee's *Disgrace* and Phaswane Mpe's *Welcome to our Hillbrow* represent deliberations of a past that has been hampered in its change by a flawed transition Just as history can never be taken at face value and never constitutes a finite all-inclusive narration of the past the historical accounts provided in these texts often present a one-sided picture of history when considered only on their representational level On the metafictional level however these texts often put such misreadings into perspective and in doing so open up an otherwise monochrome reflection of South Africa's rainbow

Taming the Past

Robert W. Gordon, 2017-06-09 Lawyers and judges often make arguments based on history on the authority of precedent and original constitutional understandings They argue both to preserve the inspirational heroic past and to discard its darker pieces such as feudalism and slavery the tyranny of princes and priests and the subordination of women In doing so lawyers tame the unruly ugly embarrassing elements of the past smoothing them into reassuring tales of progress In a series of essays and lectures written over forty years Robert W Gordon describes and analyses how lawyers approach the past and the strategies they use to recruit history for present use while erasing or keeping at bay its threatening or inconvenient aspects Together the corpus of work featured in *Taming the Past* offers an analysis of American law and society and its leading historians since 1900

Telling Children About the Past Nena Galanidou, Liv Helga Dommasnes, 2007-12-01 This book brings together archeologists historians psychologists and educators from different countries and academic traditions to address the many ways that we tell children about the distant past Knowing the past is fundamentally important for human societies as well as for individual development The authors expose many unquestioned assumptions and preformed images in narratives of the past that are routinely presented to children The contributors both examine the ways in which children come to grips with the past and critically assess the many ways in which contemporary societies and an increasing number of commercial agents construct and use the past
