Howlett, Robbie Lieberman, 2009-11-01 For the People is a historical docutext that examines the evolution of the struggle for peace and justice in America's past from pre colonial times to the present Each chapter begins with a brief historical introduction followed by a series of primary source documents and questions to encourage student comprehension Sample photographs illustrate the range of peace activists concerns while the list of references focused on the most important works in the field of U.S. peace history points students toward opportunities for further research This is the only historical docutext specifically devoted to peace issues The interpretive analysis of American peace history provided by the editors makes this more than just an anthology of collected documents As such the docutext is

an extension and a complement to the editors recently published popular scholarly survey *A History of the American Peace Movement from Colonial Times to the Present* A central idea in this work is that peace is more than just the absence of war The documents and the analysis that accompanies them offer fresh perspectives on the ways in which the peace movement became transformed from one simply opposing war to one proclaiming the importance of social political and economic equality The editors premise is that the peace movement historically has been a collective attempt by numerous well intentioned people to improve American society The book illuminates the ways in which peace activists were often connected to larger reform movements in American history including those that fought for the rights of working people for women s equality and for the abolition of slavery to name just a few With a focus on those who spoke out for peace this docutext is designed to call to students attention one of the least discussed classroom subjects in American education today Students in secondary school Social Studies and American history classes as well as those taking college level courses in U S history American Studies or Peace Studies will find this work an excellent supplementary reader

Grassroots Postmodernism
 Gustavo Esteva, Madhu Suri Prakash, 2014-08-14 With the publication of this remarkable book in 1998 Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture *Grassroots Post modernism* attacks the three sacred cows of modernity global thinking the universality of human rights and the self sufficient individual Rejecting the constructs of development in all its forms Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives shifting this control to bureaucrats technocrats and educators Rather than presuming that human progress fits a predetermined mould leading towards an increasing homogenization of cultures and lifestyles the authors argue for a radical pluralism that honours and nurtures distinctive cultural variety and enables many paths to the realization of self defined aspirations This classic text is essential reading for those looking beyond neoliberalism the global project and the individual self

Participatory Action Research Caroline Lenette, 2022 Participatory Action Research PAR privileges the involvement of participants as co researchers to generate new knowledge and act on findings to effect social change In PAR projects academic researchers collaborate closely with co researchers working from the idea that these individuals especially those who are usually marginalized from institutions can be engaged in meaningful research activities to achieve social justice outcomes in addition to answering research questions When deployed ethically in collaboration with co researchers PAR's participatory element facilitates a bottom up approach where knowledge is co created through grassroots or community based activities This book goes beyond a PAR how to manual on the methodology Rather it synthesizes key learnings in contemporary research with a distinct focus on the challenging aspects of undertaking PAR in practice and strategies to address these It provides a clear and user friendly

collection of practical and contextual examples and presents key pointers on the implications of PAR methods their strengths and weaknesses and strategies for the field These examples will be useful for critical class discussions as well as to anticipate fieldwork pitfalls and pre-empt challenges through collaborative approaches **Sustainable Management** Petra

Molthan-Hill, 2023-08-22 Sustainable Management A Complete Guide for Faculty and Students is both a textbook for students as well as a teaching guide for educators With a full introduction to sustainable management the book covers a wide range of subject areas relevant to business and management students It enables faculty to incorporate sustainability and climate solutions into their modules and is also very accessible for self-directed studies This third edition features fully updated chapters on how to integrate the Sustainable Development Goals into key disciplines in business including economics operations marketing HR strategy and financial reporting We also cover topics such as corporate peacemaking greenhouse gas management and crowdsourcing The book offers a new chapter on how to integrate climate solutions and climate change mitigation education into business and management schools as well as many ideas in each chapter on how to do so The chapter on employability and sustainability was fully redesigned adding new resources which can be used in any educational establishment Educators in business schools and trainers in organisations will find short ready-made seminars workshops and a wide array of learning resources supported by a companion website **Beyond the Wire** Michael A. Allen, Carla Martinez

Machain, Michael E. Flynn, Andrew Stravers, 2023 In a time where US deployments are uncertain this book shows how US service members can either build the necessary support to sustain their presence or create added animosity towards the military presence The United States stands at a crossroads in international security The backbone of its international position for the last 70 years has been the massive network of overseas military deployments However the US now faces pressures to limit its overseas presence and spending In *Beyond the Wire* Michael Allen Michael Flynn Carla Martinez Machain and Andrew Stravers argue that the US has entered into a Domain of Competitive Consent where the longevity of overseas deployments relies upon the buy-in from host state populations and what other major powers offer in security guarantees Drawing from three years of surveys and interviews across fourteen countries they demonstrate that a key component of building support for the US mission is the service members themselves as they interact with local community members Highlighting both the positive contact and economic benefits that flow from military deployments and the negative interactions like crime and anti-base protests this book shows in the most rigorous and concrete way possible how US policy on the ground shapes its ability to advance its foreign policy goals *From Systems Thinking to Systemic Action* Lee

Jenkins, 2008-06-27 Systems thinking is a powerful tool that helps school system leaders guide and sustain school improvement Use this practical guide to implement systems thinking in your school system today The first section of this book is a concise description of systems thinking The second section examines 48 key questions to guide leaders as they transform their school systems including Do the board superintendent and employees accept that 94% to 97% of the school

system's problems are caused by the system Have your school system's staff members agreed upon the elements of powerful instruction Do all the employees know how their jobs contribute to the success of the system Is there a systemic structured and measurable process for recruiting interviewing and hiring employees in your district Discover how to guide your school system in continuous improvement data driven decision making strategic planning and more **The Standard** ,1903
