## Retreating The Political:

*Retreating the Political* Phillippe Lacoue-Labarthe, Jean-Luc Nancy, 2005-08-19 This collection of essays presents for the first time in English some of the key essays on the political by Philippe Lacoue Labarthe and Jean Luc Nancy Including several unpublished essays *Retreating the Political* offers some highly original perspectives on the relationship between philosophy and the political Through contemporary readings of the political in Freud Heidegger and Marx the authors ask if we can talk of an a priori link between the philosophical and the political they investigate the significance of the figure the human being as political subject in the history of metaphysics and they inquire how we can re treat the political today in the face of those who argue that philosophy is at an end *Retreating the Political* Philippe Lacoue-Labarthe, Jean-Luc Nancy, 1997 This book assembles the key essays of two of the most celebrated continental philosophers and provides a sharp and highly original recasting of the notion of the political today *At the Limits of the Political* Inna Viriasova, 2018-03-16 The question of the limits of the political permeates the history of western political thought and has been at the forefront of debates in contemporary political philosophy especially in French and Italian contexts This book argues that the question of radical political exteriority fell into neglect despite post War critiques of totalitarian political ontology The notion of the political developed into a new form of totality one which admits the impossibility of closure and yet refuses to let go of its totalizing ambition Viriasova addresses this problem by offering a critical introduction to the debate on the concept of the political in contemporary continental philosophy and develops an innovative perspective that allows us to rethink the limits of the political in affirmative and realist terms The book explores such recent developments as Roberto Esposito s notion of the impolitical Giorgio Agamben s concept of bare life Michel Henry s radical phenomenology of life the speculative realist philosophy of Quentin Meillassoux as well as Buddhist political thought The book makes a vital contribution to an emerging body of literature in contemporary philosophy that renews the fundamental questions of political ontology in response to the multiplying crises of inclusion that challenge democratic communities today **Sense and Singularity** Georges Van Den Abbeele, 2023-11-07 Philosophical thinking is interrupted by the finitude of what cannot be named on the one hand and that within which it is subsumed as one of multiple modes of sense making on the other *Sense and Singularity* elaborates Jean Luc Nancy s philosophical project as an inquiry into the limits or finitude of philosophy itself where it is interrupted and as a practice of critical intervention where philosophy serves to interrupt otherwise unquestioned ways of thinking Nancy s interruption of philosophy Van Den Abbeele argues reveals the limits of what philosophy is and what it can do its apocalyptic end and its endless renewal its Sisyphean interruption between the bounds of infinitely replicating sense and the conceptual vanishing point that is singularity In examinations of Nancy s foundational rereading of Descartes s cogito as iterative his formal experimentations with the genres of philosophical writing the account of retreat in understanding the political and the interruptive play of sense and singularity in writings on the body sexuality and aesthetics Van Den Abbeele offers a fresh

account of one of our major thinkers as well as a provocative inquiry into what philosophy can do      *Gender, Emancipation, and Political Violence* Sarah Colvin, Katharina Karcher, 2018-08-06 This volume presents and interrogates both theoretical and artistic expressions of the revolutionary militant spirit associated with 1968 and the aftermath in the specific context of gender The contributors explore political philosophical discussions of the legitimacy of violence the gender of aggression and peaceability and the contradictions of counter violence but also women s artistic and creative interventions which have rarely been considered Together the chapters provide and provoke a wide ranging rethink of how we read not only 1968 but more generally the relationship between gender political violence art and emancipation This work will be of great interest to students and scholars of protest and violence in the fields of history politics and international relations sociology cultural studies and women s studies      **A Treatise Explanatory of a New System of Naval, Military and Political Telegraphic Communication of General Application** John Macdonald, 1817

**Women and Domestic Experience in Victorian Political Fiction** Susan Johnston, 2001-02-28 Recent revisions of the idea of separate spheres which governed Victorian scholarship of the past two decades have provoked considerable interest in both domestic and political fiction of the period and in the political dimensions of domestic life This book challenges arguments about the division of the political from other fictional genres and divisions of the private from the public sphere It shows that Victorian literature identified the household as the space in which the political rights bearer came into being While some thinkers maintained that the rights bearer is defined by purely formal reasoning this volume claims that Locke and other educational writers conceived reason as embodying emotion It looks at works by Mary Wollstonecraft Amelia Opie Maria Edgeworth Elizabeth Gaskell and Charles Dickens to reveal how the emotional relations of the household shaped the political self and how women gained identity as rights bearers The book argues that the intimate space of the household does not exist separately from public political and economic domains It revises generic understandings of political fiction and shows that domestic plots are integral to political plots This is so because domestic fiction focuses on the cultivation of the

liberal self in the household and the disclosure of that self in terms of its vision of the good The volume concludes that domestic space is the foundation of liberal polity and that an account of the household in which the liberal self is disclosed is at the heart of both Victorian political fiction and philosophy      Cobbett's Weekly Political Register ,1810      Cobbett's Political Register Vol. XXII ,1812      **Cobbett's Political Register VOL.XXI From January to June,1812** Cobbett's Political Register VOL.XXI From January to June,1812,1812      **The Political History of England** William Hunt,Reginald Lane Poole,1906      **The Clash of Political Ideals** Albert Richard Chandler,1949
