Extracting Accountability Jessica M.

Smith,2021-09-28 How engineers in the mining and oil and gas industries attempt to reconcile competing domains of public accountability The growing movement toward corporate social responsibility CSR urges corporations to promote the well being of people and the planet rather than the sole pursuit of profit In Extracting Accountability Jessica Smith investigates how the public accountability of corporations emerges from the everyday practices of the engineers who work for them Focusing on engineers who view social responsibility as central to their profession she finds the corporate context of their work prompts them to attempt to reconcile competing domains of accountability to formal guidelines standards and policies to professional ideals to the public and to themselves Their efforts are complicated by the distributed agency they experience as corporate actors they are not always authors of their actions and frequently act through others Drawing on extensive interviews archival research and fieldwork Smith traces the ways that engineers in the mining and oil and gas industries accounted for their actions to multiple publics from critics of their industry to their own friends and families She shows how the social license to operate and an underlying pragmatism lead engineers to ask how resource production can be done responsibly rather than whether it should be done at all She analyzes the liminality of engineering consultants who experienced greater professional autonomy but often felt hamstrung when positioned as outsiders Finally she explores how critical participation in engineering education can nurture new accountabilities and chart more sustainable resource futures

C. De Prosopo,2016-01-21 The Latest Early American Literature according to readers for the University of Delaware Press is a

collection of polemics and manifestoes In it R C De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America s lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present s diachronic predecessor but to quote Lyotard s semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students To facilitate this he introduces in the concluding section of *The Latest Early American Literature* what will probably be taken as its most radical intervention the redefinition of Edgar Allan Poe as an early American writer

Webs of Kinship Christina Gish Hill, 2017-04-27 Many stories that non Natives tell about Native people emphasize human suffering the inevitability of loss and eventual extinction whether physical or cultural But the stories Northern Cheyennes tell about themselves emphasize survival connectedness and commitment to land and community In writing *Webs of Kinship* anthropologist Christina Gish Hill has worked with government records and other historical documents as well as the oral testimonies of today s Northern Cheyennes to emphasize the ties of family rather than the ambitions of individual leaders as the central impetus behind the nation s efforts to establish a reservation in its Tongue River homeland Hill focuses on the people who lived alongside notable Cheyennes such as Dull Knife Little Wolf Little Chief and Two Moons to reveal the central role of kinship in the Cheyennes navigation of U S colonial policy during removal and the early reservation period As one of Hill s Cheyenne correspondents reminded her Dull Knife had a family just as all of us do He and other Cheyenne leaders made decisions with their entire extended families in mind not just those living but those who came before and those yet to be born *Webs of Kinship* demonstrates that the Cheyennes used kinship ties strategically to secure resources escape the U S military and establish alliances that in turn aided their efforts to remain a nation in their northern homeland By reexamining the most tumultuous moments of Northern Cheyenne removal this book illustrates how the power of kinship has safeguarded the nation s political autonomy even in the face of U S encroachment allowing the Cheyennes to shape their own story
