René Magritte, 135 Rue Essegheem, Jette-Brussels Jan Ceuleers, 1999 Artwork by Jan Ceuleers Contributions by David Sylvester Magritte Daniel Abadie, 2003 A picture of a pipe is not really a pipe and a daylight filled sky can shine over a streetlamp lit townhouse and a painting of a window inside a painting of a sitting room can be the window in that sitting room and a room sized rock can gaze out of that room at the sea and of course a man in a suit can have a green apple for a face At least that is in the world of Magritte And who wouldn t want to believe in that world or at least take pleasure in the ability to recognize parts of it in our own One of the most charming and beloved of the surrealists René Magritte took a light witty paintbrush and created a world both familiar and not but always recognizable in our dreams His plays on semiotics identity the idea of woman the possibilities inherent in objects and the idea that everything was not necessarily what it seemed or what it was supposed to be are celebrated here in an intelligent retrospective monograph featuring more than 150 paintings sculptures objects and works on paper The organization of this catalogue paints Magritte as an innovator and an artist who has had significant influence on contemporary creators Accompanying essays including an introduction by Alain Robbe Grillet inventor of the nouveau roman consider Magritte s influence on modern and contemporary art Magritte s

relationships with his surrealist contemporaries Louis Scutenaire and Andra Breton and the art dealers Edward James and Alexandre Iolas are each revealed through individual art historical texts and a selection of unpublished letters An illustrated chronology is included as well This catalogue is published in conjunction with an exhibition at the Galerie Nationale du Jeu de Paume in Paris

Consuming Surrealism in American Culture Sandra Zalman,2017-07-05 Consuming Surrealism in American Culture Dissident Modernism argues that Surrealism worked as a powerful agitator to disrupt dominant ideas of modern art in the United States Unlike standard accounts that focus on Surrealism in the U S during the 1940s as a point of departure for the ascendance of the New York School this study contends that Surrealism has been integral to the development of American visual culture over the course of the twentieth century Through analysis of Surrealism in both the museum and the marketplace Sandra Zalman tackles Surrealism s multi faceted circulation as both elite and popular Zalman shows how the American encounter with Surrealism was shaped by Alfred Barr William Rubin and Rosalind Krauss as these influential curators mobilized Surrealism to compose to concretize or to unseat narratives of modern art in the 1930s 1960s and 1980s alongside Surrealism s intersection with advertising Magic Realism Pop and the rise of contemporary photography As a popular avant garde Surrealism openly resisted art historical classification forcing the supposedly distinct spheres of modernism and mass culture into conversation and challenging theories of modern art in which it did not fit in large part because of its continued relevance to contemporary American culture

French Post-modern Masculinities Lawrence R. Schehr,2009-01-01 As traditional notions of masculinity have been put into question there have been representational reactions to and articulations of changing masculinities in post modern culture Certain contemporary French cultural productions are illustrative of these changing masculinities and this book offers the first comprehensive examination of these manifestations Acclaimed critic Lawrence Schehr uses analysis of AIDS narratives mainstream films popular novels more mainstream novels a graphic novel and rightist polemics to explore the changing meaning of masculinity in French society French Postmodern Masculinities will appeal to a broad range of researchers and postgraduate students working in French cultural studies cinema and twentieth and twenty first century French literature

Higgins,2024-06-25 A reexamination of 1970s France as a decade of intellectual cultural and political consequence both then and now Number 143 of Yale French Studies The French Seventies reintroduces and reorients readers to a decade typically considered a period of disillusionment and malaise in the wake of the 1960s This collection of essays edited by Richard J Golsan and Lynn A Higgins shows that the era was in fact a period of intellectual cultural and

political ferment It was a time not of spectacular leaps forward but rather of searching regrouping and cultivating trends that would flower in the 1980s and beyond for better or worse The volume offers interdisciplinary scholarly essays on history film national identity as articulated in the mode r tro social and literary movements and more Interviews and personal history essays by major figures who actively participated in this decade add further dimension to this broad collection

Gedo,1992 This volume addresses the methodological problems inherent in using individual biographies as vehicles for advancing the understanding of creativity In addition to discussing general problems this volume contains illustrations of the application of a variety of psycho biographical strategies The research from these sample biographies demonstrates the manner in which biographical data may be turned into scientific propositions The most important new idea in the book which is in many ways a primer of psycho biography is the distinction made between biographical methods primarily based on an empathic approach to the data and what the authors call conceptual methods that rely on deduction from some theoretical schema To date the literature has been entirely lacking in guidelines for the biographer interested in the psychological dimensions of his her task and by extension the creativity researcher as well This book is intended to fill this gap Catalog of the Library of the Museum of Modern Art: Han Museum of Modern Art (New York, N.Y.).
