smarts innovation and free wheeling spirit of the original UNBORED and its 2014 spinoff UNBORED Games but with a fresh focus on encouraging kids to break out of their techno passivity and explore the world around them whether that's a backyard a downtown or a forest Combining old fashioned favorites with today's high tech possibilities the book offers a goldmine of creative constructive activities that kids can do on their own or with their families From camouflage techniques survival skills and cloudspotting advice to instructions on how to build an upcycled kite or raft to using apps to navigate and explore it's all here along with comics that dive into the secret history of everything from bicycling to women explorers A fun corrective to our over anxious parenting culture UNBORED Adventure encourages kids to become more independent and resilient to solve problems and ask questions and to engage with both their community and natural environment The original UNBORED is already a much beloved distinctly contemporary family brand Along with UNBORED Games UNBORED Adventure extends the franchise in a handy flexibound format so that the whole family can enjoy themselves indoors outdoors online and offline Los Angeles Magazine

Images of Adventure James A. Rushing, Jr., 2016-11-11 Modern audiences are most likely to encounter Yvain and other Arthurian characters in literature We read Chr tien de Troyes's Yvain or Hartmann von Aue's Iwein and easily slip into the assumption that during the Middle Ages the title character existed primarily or even exclusively in these canonical texts James A Rushing Jr contends however that many times the number of people who heard or read Chr tien or Hartmann must have known the Yvain story through the varieties of second hand narration hearsay and conversation that we may call secondary orality And many other people would have known the story through its visual representations Exploring the complex relationships between literature and the visual arts in the Middle Ages *Images of Adventure Yvain in the Visual Arts* examines pictorial representations of the story of Yvain knight of the Round Table from the thirteenth through the fifteenth centuries Of the images Rushing studies only those found in the manuscripts of Chr tien's Yvain are placed in any obvious relation with a written text and not even they can be construed as straightforward illustrations Images of Yvain are presented without any textual anchor in the thirteenth century wall paintings from Schmalkalden in eastern Germany and Rodeneck Castle in the South Tyrol on the rich embroidery sewn in the fourteenth century for the patrician Malterer family of Freiburg and in a group of English misericords that show Yvain caught in a moment of high adventure and perhaps comic embarrassment Pictures according to Pope Gregory the Great are the literature of the laity Navigating between the traditional disciplines of literary study and art history *Images of Adventure* offers at once a detailed catalog of Yvain images a series of close readings of works of art and a concrete sense of what Gregory's oft quoted statement may actually have meant in practice

Topophrenia Robert T. Tally, Jr., 2018-11-09 What is our place in the world and how do we inhabit understand and represent this place to others *Topophrenia* gathers essays by Robert Tally that explore the relationship between space place and mapping on the one hand and literary criticism history and theory on the other The book provides an introduction to spatial literary studies exploring in detail the theory and

practice of geocriticism literary cartography and the spatial humanities more generally The spatial anxiety of disorientation and the need to know one's location even if only subconsciously is a deeply felt and shared human experience Building on Yi Fu Tuan's topophilia or love of place Tally instead considers the notion of topophobia as a simultaneous sense of place consciousness coupled with a feeling of disorder anxiety and dis-ease He argues that no effective geography could be complete without also incorporating an awareness of the lonely loathsome or frightening spaces that condition our understanding of that space Tally considers the tension between the objective ordering of a space and the subjective ways in which narrative worlds are constructed Narrative maps present a way of understanding that seems realistic but is completely figurative So how can these maps be used to not only understand the real world but also to put up an alternative vision of what that world might otherwise be From Tolkien to Cervantes Borges to More Topophobia provides a clear and compelling explanation of how geocriticism the spatial humanities and literary cartography help us to narrate represent and understand our place in a constantly changing world

The Blank Swan Elie Ayache, 2010-05-17 October 19th 1987 was a day of huge change for the global finance industry On this day the stock market crashed the Nobel Prize winning Black-Scholes formula failed and volatility smiles were born and on this day Elie Ayache began his career on the trading floor of the French Futures and Options Exchange Experts everywhere sought to find a model for this event and ways to simulate it in order to avoid a recurrence in the future but the one thing that struck Elie that day was the belief that what actually happened on 19th October 1987 is simply non-reproducible outside 19th October 1987 you cannot reduce it to a chain of causes and effects or even to a random generator that can then be reproduced or represented in a theoretical framework The Blank Swan is Elie's highly original treatise on the financial markets presenting a totally revolutionary rethinking of derivative pricing and technology It is not a diatribe against Nassim Taleb's The Black Swan but criticises the whole background or framework of predictable and unpredictable

events white and black swans alike i.e. the very category of prediction In this revolutionary book Elie redefines the components of the technology needed to price and trade derivatives Most importantly and drawing on a long tradition of philosophy of the event from Henri Bergson to Gilles Deleuze to Alain Badiou and on a recent brand of philosophy of contingency embodied by the speculative materialism of Quentin Meillassoux Elie redefines the market itself against the common perceptions of orthodox financial theory general equilibrium theory and the sociology of finance This book will change the way that we think about derivatives and approach the market If anything derivatives should be renamed contingent claims where contingency is now absolute and no longer derivative and the market is just its medium The book also establishes the missing link between quantitative modelling no longer dependent on probability theory but on a novel brand of mathematics which Elie calls the mathematics of price and the reality of the market

Adventures with Jesus Hollie Higgins, 2016-04-11 Adventures with Jesus is a series of short devotions that God used on a daily basis to encourage the author Hollie as well as other women in her life These scriptures and devotions were answers God had given to questions and prayers that Hollie encountered during times of distress or happiness Everyone experiences these adventures during times in his or her life and God uses it to develop character and hope from within

»**Failed**« **Migratory Adventures?** Susanne U. Schultz, 2022-03-07 The effects of the intra African and European deportation regimes brought about since the European Union's externalization of its migration and development policy by transferring it to countries of sub-Saharan Africa remain largely understudied especially their effects on people's everyday life after forced returns Based on extensive field research Susanne U. Schultz's book analyses the supposedly failed migration of Malian men the social situations in which they find themselves following deportation and the implications of their failure for their social environment and broader society This important ethnographic study creates empirical knowledge on key issues in migration research policy and practice in the context of a charged debate

New York Magazine, 1985-09-02 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Timeless Adventures Brian Robb, 2014-04-01 An expanded edition of the critical history of Doctor Who covering the series 45 years from creation to triumphant reboot Opening with an in depth account of the creation of the series in the early 1960s each decade of the show is tackled through a unique political and pop cultural historical viewpoint exploring the links between contemporary Britain and the stories Doctor Who told and how such links kept the show popular with a mass television audience This book reveals how Doctor Who is at its strongest when it reflects the political and cultural concerns of a mass audience the 1960s 1970s and 21st Century and at its weakest when catering to a narrow fan based audience as in the 1980s Chapters range from

discussions on the cultural and political relevance of Doctor Who monsters like the Daleks based on lingering wartime fears and the Cybermen 1960s spare part replacement surgery through to themes like energy and the environment in the 1970s Doctor Who stories tackled big real life themes in a fantasy format and so connected with a mass audience The book also addresses the cancellation of the show in the late 1980s following the series becoming increasingly self obsessed and the ways in which a narrowly focused dedicated fandom contributed to the show's demise and yet was also instrumental in its regeneration for the 21st century under Russell T Davies and analyzes the new series to reveal what has made it so popular reflecting real world issues like consumerism and dieting

Closure Impact Hugo Raines, AI, 2025-05-06 Closure Impact examines how literary endings profoundly shape a story's meaning and the reader's experience It argues that the conclusion isn't just an afterthought but a crucial element that retroactively influences the entire narrative affecting the reader's satisfaction and interpretation This academic exploration delves into how authors employ various narrative resolutions and the resulting cultural and psychological impacts For example a neatly resolved ending may provide comfort while an ambiguous ending can spark further reflection The book progresses by defining key terms and outlining the theoretical framework of narrative closure It then explores specific types of endings such as open closed ambiguous and ironic resolutions Each section analyzes exemplary texts drawing upon diverse literary works to showcase narrative strategies The prevalence and preference for particular types of endings are subject to cultural shifts and evolving literary conventions This study takes a unique approach by focusing on the impact of endings rather than simply categorizing them It emphasizes the active role of the reader in co-creating meaning By understanding how different endings shape interpretation writers can consciously manipulate narrative closure to achieve specific artistic and thematic goals leading to a richer more nuanced understanding of the work as a whole
