Revamping The Examination System:

Revamping the Examination System Beena Shah, 1988 Most of the Educational Institutions are following the old pattern of examination based on rote memorization A national discussion was aimed to suggest practically implementable reform related to examination system paper setting evaluation techniques and conduct of examination and particularly to comprehensive and continuous evaluation The National Policy on Education NPE and Programme of Action POA 1986 have also emphasized this theme

Changing the Puerto Rico Public Education System from Ground Up Dr. Edgar León, 2014-10-23 The book is a report of all the issues conditions and real testimony found in the public school system during a two year period

Secondary School External Examination Systems Barend Vlaardingerbroek, Neil Taylor, 2009 Summative assessment has been a contentious issue in educational circles for several decades particularly high stakes assessment events which arise at various junctures of the school cycle especially those at the end of it The French Baccalaureat and English A Levels and their numerous clones throughout the francophone and anglophone worlds are household names and represent milestone events in people's lives as their outcomes are principal determinants of young people's future prospects These examinations are external they are devised conducted and processed by agencies outside the schools usually ministerial examination units As such they act as blind arbiters of student achievement providing the proverbial level playing field which ensures the comparability of outcomes In the pyramidal school structures of yesteryear examinations acted as filters regulating the progression of pupils to subsequent tiers of formal education Exit points occurred from primary school level up from where unsuccessful candidates could enter the labour force and or embark on occupationally specific further education and training With the modernisation of the labour market and an ever higher social demand for access to higher levels of formal education the filtering function of examinations at lower levels of schooling has been gradually eroded while burgeoning numbers of students at the upper secondary level have brought about reforms that include curricular diversification and sometimes radical overhauls of terminating assessment systems including the modification and in some instances abandonment of external examinations This edited volume brings together the experiences of twenty examination systems from around the world to show how these dynamic entities have adapted over time to the changing context of schooling Following an introduction by Stephen P Heyneman of World Bank repute there are sixteen chapters presenting Country Case Studies which have been written up under common subheadings thereby highlighting the comparative nature of the work and facilitating cross referencing The subsequent four chapters elaborate on the theme of external examinations beyond national borders including a contribution by the International Baccalaureate Organisation A defining feature of the work is the attention it pays to what it calls the nuts and bolts of external examinations from question setting to grading procedures These are it is argued instrumental in nurturing and maintaining public confidence in external examinations The book will be of immense value to people involved in educational policy studies

especially strategic educational planning as well as those directly concerned with formal assessment The work has been written to appeal to a wide audience of informed persons it is accessible to teachers and interested laypeople as well as to academics

Revamping Architectural Education Rajesh Sharma, 2018-06-08 The book that you hold in your hands is a treasure trove of ideas to set into motion a new generation of learning for architects As the author is a practitioner of this technology called architecture he have often felt that globally it is the last field of knowledge that still displays vestiges of a holistic renaissance attitude of mind It has not fallen victim to our global love for economic development above all other considerations and is not always a handmaiden of consumerist culture Architects are somewhat obsessed with form Despite this or inspite of it the combine and harmonize the field of applied arts with the sciences the attitudes of engineering optimization with the expression of the visual arts covering subjects as diverse as chemistry and history India is possibly the world s largest future market for private sector architects today If we do not adapt our archiectural practice starting with our architectural teaching practices we run the clear and present danger of becoming extinct in the race for economic development and urbanization which is truly sustainable resilient sufficient and equitable In reading this little gem of a book the author would urge the reader to look beyond formulae and descriptions and generatean agenda for reform beyond just the curriculum and towards transformation As Indian society struggles to understand its architects the profession owes a duty to itself to remain relevant to social needs and aspirations to create a nation of our dreams And the author hopes that the beginning of that agenda can befound in the pages of this book interpreted by every reader individually

Inclusive Education : Practices and Challenges Dr. Deepa Sikand Kauts, 2021-09-11 This book is an attempt to create awareness among practitioners and to strengthen the focus on inclusion in their strategies and future plans for education and highlight the areas that need particular attention to promote inclusive education and strengthen policy development With this we would move a step further and look into the current research trends in inclusive education as well as policy backdrops which provide us with the fair idea that how this idea of equity pedagogy is being propagated in the national educational policies of our country and further their translations in the Indian education realm Papers compiled exhibit major concerns issues challenges and various practices for ensuring inclusion and inclusive pedagogical strategies for effective inclusive education The researchers have also taken into account the social cultural and learning diversities and the factors that facilitate to spot and remove barriers to learning and participation in education It has the power to widen the scope of universal education by promoting access to all learners and accelerating educational equity too This book also focuses on how stakeholders can contribute to the continuous growth of inclusive education and its implications for society communities schools and classrooms as well to provide clarity on theoretical and research perspectives to promote the integration of theory and practice of inclusive education The volume will be highly beneficial for teachers parents policymakers administrators and students who care about the needs of the learners and the development of an equitable education system in our country

The Casualty Issue in American Military Practice Evan A. Huelfer, 2003-10-30 Huelfer examines the casualty issue in American military thought and practice during the years between the World Wars He argues that Americans exhibited a distinct aversion to combat casualties during the Interwar Period a phenomenon that visibly influenced the military establishment and helped shape strategic planning force modernization and rearmament for World War II In a broad topical approach Huelfer's main theme casualty aversion is woven into discussions about military strategy and policies doctrinal and technological development the military education system and how the American officer corps emerged from World War I and prepared for World War II As Huelfer makes clear aversion to combat casualties is not just a post Vietnam War phenomenon but rather has long been embedded within the American national heritage Conventional wisdom link today's exacerbated aversion to combat casualties as fallout from the Vietnam debacle In fact this Vietnam Syndrome has remained at the forefront of contemporary strategic thinking Huelfer shows that American political and military leaders have held lasting concerns about risking soldiers' lives in combat even pre dating U S involvement in World War II The grim experiences of World War I had a profound impact upon the U S officer corps and how it viewed potential future conflicts The casualty issue permeated the officers' strategic culture during the Interwar Period and colored their thinking about improving training doctrinal evolution force modernization and technological development Even though one cannot find the terms casualty issue casualty aversion or sensitivity to casualties directly stated in the speeches and writings of the era this awareness clearly emerged as a subtext for the entire American effort in preparation for World War II Huelfer highlights how casualty aversion shaped American strategy for World War II by incorporating ideas about the use of overwhelming force air power and mechanization all designed to minimize losses

The Business of Changing Lives Allan H. Weis, Valerie Andrews, 2009 A unique guide showing how a company can achieve technological advances for the betterment of society that bridge the socioeconomic divide through education and enjoy profitable growth Socially conscious entrepreneurs want to give in a way that makes a lasting

impact on society and author Allan H Weis shows them how to balance that desire with smart corporate management Applying engineering acumen and social consciousness Weis describes how he led his company as it designed and operated in record time the largest and fastest part of the Internet sponsored an educational Olympics on the World Wide Web to introduce a new generation to the magic of computers online learning and the collaborative power of networking spear headed and funded a learning platform akin to the holodeck on Star Trek closed the digital divide between the technologically privileged and the technologically destitute With personal and funny anecdotes set in computer laboratories congressional hearings and corporate competitors offices Weis describes the unusual business model that enabled ANS to create the backbone of the Internet Indicative of Weis s dual approach to business he offers inspiring case studies and heart warming stories of visionaries who helped low income youth to find high tech jobs and inner city achievers who were given powerful opportunities

Palanithurai,2017-01-01

Educational institutions in general and more particularly the higher learning institutions are in deep crises Everyone expects that reform has to be initiated only by the centre and state governments To address the problems a new policy framework is evolved But it has not crossed the tables of the critiques Political executive and policy community have to play a crucial role in reforming this sector There is no second opinion on the above argument But lot of initiatives can be taken by the conscious teachers who are serving in higher learning institutions In the context of commercialization of education teachers have a role to play at the ground Against this background lots of initiatives have been taken at the ground by us as teachers They are being captured problems of the institutions and students are analyzed at a micro level They are also being captured in this work All the chapters in this book appeared in different journal as articles in different periods All are brought out here under one theme ESEA Reauthorization United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions,2011 *Changing Dimensions of India's Foreign Policy* Dr. Purnima Singh,
