McCarroll,2013-12-24 How do we hope in the face of modernity s failure and postmodernity s absence of foundations How do we hope when the future seems fearful and no clear way forward appears How do we hope when despair indifference and cynicism dominate the psychic landscape of English speaking North America In dialogue with theologians of the cross George Grant and Douglas John Hall this book unmask the failure of hope in our time and the vacuum of meaning that remains As an exercise in the theology of the cross *Waiting at the Foot of the Cross* explores the North American context as one in which true hope is discovered only when life s negations are engaged from a posture of waiting trust Such hope is not passive or blind Rather it is attentive active open and spiritually grounded in the One who meets us when all hope is spent The final chapter proposes a way toward hope for today that inspires subversive resilience in the face of the ambiguities and vicissitudes of life Readers interested in the theology of the cross in thinking theologically in our time and place and those interested in the character of Christian hope will find this book compelling *Heiden und Christen im 5. Christian Prophecy Niels Christian Hvidt,2007-04-19 Throughout the Hebrew Bible God guides and saves his people through the words of his prophets When the prophets are silenced the people easily lose their way What happened after the incarnation death and resurrection of Christ Did God fall silent The dominant position in Christian theology is that prophecy did indeed cease at some point in the past if not with the Old Testament prophets then with John the Baptist with Jesus with the last apostle or with the closure of the canon of the New Testament Nevertheless throughout the history of Christianity there have always been acclaimed saints and mystics most of them women who displayed prophetic traits In recent years the charismatic revival in both Protestant and Catholic circles has once again raised the question of the place and function of

prophecy in Christianity Scholarly theological attitudes toward Christian prophecy range from modest recognition to contempt Mainstream systematic theology both Protestant and Catholic has mostly marginalized or ignored the gift of prophecy In this book however Niels Christian Hvidt argues that prophecy has persisted in Christianity as an inherent and continuous feature in the life of the church Prophecy never died he argues but rather proved its dynamism by mutating to meet new historical conditions He presents a comprehensive history of prophecy from ancient Israel to the present and closely examines the development of the theological discourse that surrounds it Throughout though there is always an awareness of the critical discernment required when evaluating the charism of prophecy The debate about prophecy Hvidt shows leads to some profound insights about the very nature of Christianity and the church For example some have argued that Christianity is a perfect state and that all that is required for salvation is acceptance of its doctrines Others have emphasized how God continues to intervene and guide his people onto the right path as the full implementation of God's salvation in Christ is still far away This is the position that Hvidt forcefully and persuasively defends and develops in this ambitious and important work
